Storytelling in a Culturally Responsive Classroom Laura A. Mitchell,2018-11-02 The authentic storytelling process gives students the opportunity to include their heritage language and culture into the learning process at school Often students separate their heritage language and culture from the school culture They do this in order to survive the complexity of living in dual worlds or perspectives Belenky et al 1986 When teachers integrate the heritage language such as storytelling into the authentic literacy processes students find that their heritage language and culture has value They discover that their teachers encourage the traditional storytelling of their own heritage stories in the classrooms among their classmates This brings the dual perspective of living in two distinct worlds together The culturally responsive teachers help to merge both the home and school culture together through authentic literacy This book describes how culturally responsive teachers learn to navigate between the heritage languages of their students and the dominant language of their curriculum and instruction They know to ask questions such as Who are the storytellers in your home and what stories do they tell you This form of questioning opens up the thinking process that shows literacy comes in more forms and processes than just a book As culturally responsive teachers invite different forms of literacy to be shared in the classroom they bring the authentic lives of storytellers into their classroom The students can retell the stories that they were told by their storytellers Through this storytelling process both the culturally responsive teachers and the students inform them about who they are how they are connect with others and how they interdependent on others Students tell stories that inform them about who they are and how they are connected with others so they will know that they are human They can live in a world of possibilities where they are interconnected with literacy and interdependent with each other in order to be human They are describing what Greene 1995 described as looking into each other s eyes in order to encourage them to tell their stories about who they are and who they hope to be **Shake Up Shared Reading** Maria Walther,2022-01-20 The joyful path from rich read aloud experiences toward supporting young readers independence When young readers join their voices together in shared reading their literacy skills and confidence soar Shared reading surrounds students with the language of stories and the delight of learning in community In Shake Up Shared Reading veteran teacher Maria Walther offers teachers a simple but robust scaffolding for moving from teacher led demonstration of read aloud to student led discovery of literacy skills across the bridge of shared reading This easily adaptable structure features short targeted bursts of shared reading that are

connected to and planned as a follow up to a read aloud experience The resource includes Read aloud experiences drawn from 50 recently published works of children s literature from varied voices that provide the foundation for the short intensive shared reading interactions that follow 100 short laser focused bursts of shared reading two for each title that invite students to dig deeper with a precise aim in mind perfect for a variety of learning contexts including virtual settings Key vocabulary kid friendly definitions along with a Nudge Toward Independence section for each shared reading interaction help teachers connect shared reading to guided reading lessons and students independent literacy learning A companion website offering reproducibles and a Learning Target Chart that gives an at a glance view of every read aloud learning target and shared reading focus along related titles and additional links Let the power of a read aloud and shared reading lead your students to read talk ponder and react on the way to becoming joyful independent readers
