## **Sharing Child Care In Early Parenthood:**

Sharing Child Care in Early Parenthood Malcolm Hill, 2023-02-13 Originally published in 1987 Malcolm Hill examines the different ways in which parents share responsibility for looking after their pre school children with other people whether members of their social networks formal groups or paid carers He also looks at the reasons parents give for choosing and changing their particular arrangements In this way he provides insights into a range of ideas which ordinary members of the public have about children s needs the rights and responsibilities of mothers and fathers and how children think and feel Marked differences are described in the social relationships of families and in notions about who is acceptable as a substitute carer for children in what circumstances and for what purpose Several of these contrasts are linked to attitudes and life conditions which are affected by social class The book identifies possible consequences for individual children s social adaptability resulting from these patterns of care It suggests that people working with the under fives could profit from adapting their activities and services to children s previous experiences of shared care and families differing expectations about groups for children

barriers to fathers participation and fathers experiences while on leave along with the effects that leavetaking has on mothers and fathers later labor market involvement and participation in childcare This study of the Swedish program raises important questions about future prospects for equal parenthood in Sweden and other industrial societies and more significantly about the potential effectiveness of social policy for bringing about the end of such a cultural universal as women s responsibility for infants

Parenting Across the Life Span Jane Beckman Lancaster, Research on parenting through the life course has developed around two separate approaches Evolutionary biology provides fresh perspectives from life history theory using behavioral ecology and parental investment theory At the same time the social and behavioral sciences integrates research from long term studies of individual development and from the collection of life histories This path breaking book advances evolutionary life history research by integrating perspectives of these two approaches into a biosocial science of the life course It examines parenthood as a commitment extending throughout life and focuses on the impact on parental and child behavior of changes in the timing distribution and intensity of parental investment This perspective is particularly appropriate for research on parenting since the family is the universal human institution within which the bearing and rearing of children has been based and which transmits traditions beliefs and values to the young

Resources in Education , 2001-10 The State as Parent Joe Hudson, Burt Galaway, 2012-12-06 The thirty five chapters in this book are edited versions of papers presented at the Advanced Research Workshop State Intervention on Behalf of Children and Youth which took place in Maratea Italy February 20 24 1989 The Workshop was attended by leading child welfare researchers from most of the Western countries Represented were scholars and practitioners from disciplines as diverse as law social work neurology economics political science education psychology and psychiatry This variety of

disciplines considerably enriched the discussions at the Workshop and is reflected in a set of interesting and we believe potentially useful research papers This book is divided into four sections each dealing with dominant themes of state intervention The first section deals with research on organizing for state intervention and related ways of providing accountability The second section deals with research on young persons in conflict with the law the third with research on child abuse and the final section with research on children in care Many of the matters addressed in these papers relate to more than one of the topical theme headings and therefore might well have been located in different sections of the volume Each section is introduced by an introductory statement that provides an overview of the papers and issues addressed and suggests an agenda of research work to be undertaken These introductions are based largely on workshop discussions and do not necessarily represent the views of their identified authors

*Family Man* Scott Coltrane, 1996-03-28 The typical American family has changed dramatically since the days of Ozzie and Harriet and Father Knows Best Double income families are now the rule and fathers are much more involved in raising the children and cleaning house Reactions to these changes have been diverse ranging from grave misgivings to a sense of liberation and new possibility Groups as diverse as Promise Keepers the Million Man March and Robert Bly's mythopoetic men's movement tell us that fathers are important From the fundamentalist right to the feminist left opinions about the changing nature of the family and the consequent rethinking of gender roles have been vehement if not always very well founded In *Family Man* sociologist Scott Coltrane brings a wealth of compelling evidence to this debate over the American family Drawing on his own extensive research and many fascinating interviews Coltrane explodes many of the common myths about shared parenting provides first hand accounts of men's and women's feelings in two job families and reveals some innovative solutions that couples have developed to balance job and family commitments Readers will find an insightful discussion of precisely how and why family life has changed what forms it may take in the future and what new kinds of fathers may be on the horizon The author firmly places these questions within a broad contextual framework He provides for instance an illuminating history of the family that shows that far from being a fixed structure the family has always adapted to changing economic social and ideological pressures And by examining how families operate in a variety of non industrial societies he demonstrates that our own notions of gender specific work and parenting roles are culturally rather than biologically determined and thus inherently flexible And indeed these roles are changing While contemporary American women still perform the bulk of domestic tasks *Family Man* gives us decisive evidence that men are becoming increasingly involved in both housework and childrearing Coltrane argues convincingly that this trend will continue Given the current economic situation with two job households now the norm and the gradual ideological shift away from restrictive gender roles more and more couples will find it both necessary and desirable to share the workload More important Coltrane suggests that as fathers participate more fully in raising their children and performing traditionally female household tasks men will themselves be transformed by the

experience in profoundly positive ways and American society as a whole will move closer to true gender equity Family Man succeeds brilliantly in bringing clarity perspective and above all hope to a discussion that is too often shrill chaotic and beset with the rhetoric of nostalgia It shows us not only exactly where the family is today but where it has been and what it may become *A London Bibliography of the Social Sciences* ,1931 Vols 1 4 include material to June 1 1929 Children And Social Competence Ian Hutchby,Jo Moran-Ellis,2005-08-15 A text which addresses the relationship between childhood competence and the social arenas of action in which children live their lives Taking issue with the view that children are merely apprentice adults the contributors develop a picture of children as competent sophisticated social agents focusing on the contexts which both enable and constrain that competence The SAGE Encyclopedia of LGBTQ Studies Abbie E. Goldberg,2016-05-10 This far reaching and contemporary new Encyclopedia examines and explores the lives and experiences of Lesbian Gay Bisexual Transgender and Queer LGBTQ individuals focusing on the contexts and forces that shape their lives The work focuses on LGBTQ issues and identity primarily through the lenses of psychology human development and sociology emphasizing queer feminist and ecological perspectives on the topic and addresses questions such as What are the key theories used to understand variations in sexual orientation and gender identity How do Gay Straight Alliances GSA affect LGBTQ youth How do LGBTQ people experience the transition to parenthood How does sexual orientation intersect with other key social locations such as race to shape experience and identity What are the effects of marriage equality on sexual minority individuals and couples Top researchers and clinicians contribute to the 400 signed entries from fields such as Psychology Human Development Gender Queer Studies Sexuality Studies Social Work Sociology The SAGE Encyclopedia of LGBTQ Studies is an essential resource for researchers interested in an interdisciplinary perspective on LGBTQ lives and issues
