Sharks Over China 23rd Fighter Group:

Sharks Over China Carl Molesworth, 1994 Based on interviews with the group's survivors and containing numerous photographs this is the first complete history of the unit that included Gen Claire Chennault's famous Flying Tigers **23rd Fighter Group** Carl Molesworth, 2013-01-20 A fascinating and action-packed look at the highest scoring unit within the CBI theatre telling the story of the colourful characters who fought a difficult guerrilla war against the Japanese. Famous for the fearsome sharkmouths that adorned their planes the 23rd FG fought a guerrilla war against the Japanese steadily moving pilots and aircraft from one remote air base in China to another to keep the enemy off balance. Because China could only be supplied by air from India there were constant shortages of aircraft fuel and ammunition with which to contend. The 23rd FG met these challenges head on and by the end of the war its pilots had compiled a score of 594 aerial victories and nearly 400 ground kills. The human cost was high however 126 pilots lost their lives in China while serving in the 23rd **23rd Fighter Group** Carl Molesworth, 2013-01-20 Famous for the fearsome sharkmouths that adorned their planes the 23rd FG fought a guerrilla war against the Japanese steadily moving pilots and aircraft from one remote air base in China to another to keep the enemy off balance. Because China could only be supplied by air from India there were constant shortages of aircraft fuel and ammunition with which to contend. The 23rd FG met these challenges head on and by the end of the war its pilots had compiled a score of 594 aerial victories and nearly 400 ground kills. The human cost was high however 126 pilots lost their lives in China while serving in the 23rd With the Tigers over China, 1941-1942 Jerome Klinkowitz, 2021-12-14 In the twelve months centered around the Japanese attack on Pearl Harbor a diverse group of American and British flyers fought one of the most remarkable air campaigns of WWII. Pilots including Claire Chennault, Pappy Boyington and Art Donahue bought time for an Allied regrouping against Japan's relentless assault in the China Burma India theater. In the face of the 1941 bombings Chiang Kai-shek turned to air power to survive which he did thanks to Chennault's rebuilding of the Chinese Air Force and the leadership of the American Volunteer Group or AVG. Formed by Chennault the AVG also known as the Flying Tigers were contract employees working for the Chinese government. As a result they received virtually no official American recognition for their efforts. The group was known for their romantic reckless spirit. They performed remarkably with outdated planes and equipment in ill repair were almost always heavily outnumbered in battle and were seen by outsiders as hard drinking rebels. Whatever their image the Flying Tigers were highly effective. In the words of Air Force Major General Charlie Bond: During that first week of action the AVG destroyed fifty-five enemy bombers and fighters while losing only five Tomahawks. Unfortunately two of our colleagues were killed but at the same time two hundred enemy airmen were either killed or captured. We were shattering the myth that the Japanese Air Force was invincible. Jerome Klinkowitz whose earlier books focused on flyers' attitudes toward the air war in Britain and Europe continues his work with an exceptionally interesting group of Pacific warriors. He brings together not only the commanders' stories but the often more

colorful and sometimes more accurate accounts of life and battle by the men who flew these planes and the women who participated on the ground

The China-Burma-India Campaign, 1931-1945 Eugene L. Rasor, 1998-03-19 The China Burma India campaign of the Asian Pacific war of World War II was the most complex if not the most controversial theater of the entire war Guerrilla warfare commando and special intelligence operations and air tactics originated here The literature is extensive and this book provides an evaluative survey of that vast literature A comprehensive compilation of some 1 500 titles the work includes a narrative historiographical overview and an annotated bibliography of the titles covered in the historiographical section Following an introductory historical essay and a chronology the historiographical narrative covers land water underwater air and combined operations intelligence matters diplomacy and logistics and supply It also examines the memoirs diaries autobiographies and biographies of the personnel involved Such cultural topics as journalism fiction film and art are analyzed and existing gaps in the literature are looked at The bibliography provides both descriptive and evaluative annotations

Fallen Tigers Daniel Jackson, 2021-05-11 Mere months before the attack on Pearl Harbor President Franklin D Roosevelt sent a volunteer group of American airmen to the Far East convinced that supporting Chinese resistance against the continuing Japanese invasion would be crucial to an eventual Allied victory in World War II Within two weeks of that fateful Sunday in December 1941 the American Volunteer Group soon to become known as the legendary Flying Tigers went into action For three and a half years the volunteers and the Army Air Force airmen who followed them fought in dangerous aerial duels over East Asia Audaciously led by master tactician Claire Lee Chennault daring pilots such as David Lee Tex Hill and George B Mac McMillan led their men in desperate combat against enemy air forces and armies despite being outnumbered and outgunned Aviators who fell in combat and survived the crash or bailout faced the terrifying reality of being lost and injured in unfamiliar territory Historian Daniel Jackson himself a combat tested pilot recounts the stories of downed aviators who attempted to evade capture by the Japanese in their bid to return to Allied territory He reveals the heroism of these airmen was equaled and often exceeded by that of the Chinese soldiers and civilians who risked their lives to return them safely to American bases Drawing from thorough archival research and compelling personal narratives from memoirs wartime diaries and dozens of interviews with veterans this vital work offers an important new perspective on the Flying Tigers and the history of World War II in China

Bold Venture Steven K. Bailey,2019-03-01 Bold Venture tells the nearly forgotten story of the American airmen who flew perilous combat missions over Hong Kong during the Second World War Steven K Bailey sheds new light on the American military campaign against Japanese forces in occupied China From the first reconnaissance flights over Hong Kong by lone pilots in 1942 to the massive multi squadron air strikes of 1945 he describes the complex history of American air operations in the China theater and paints an indelible portrait of the American air raids on Hong Kong and the airmen who were shot down over the city Today unexploded aircraft bombs are unearthed with frightening regularity by construction crews in Hong Kong Residents are eager to know where these bombs originated who dropped them when and what the targets were Bailey s account answers some of these questions and provides a unique historical perspective for Americans seeking to understand the complexities of military involvement

Clash of Empires in South China Franco David Macri,2015-06-05 Japan s invasion of China in 1937 saw most major campaigns north of the Yangtze River where Chinese industry was concentrated The southern theater proved a more difficult challenge for Japan because of its enormous size diverse terrain and poor infrastructure but Generalissimo Chiang Kai shek made a formidable stand that produced a veritable quagmire for a superior opponent a stalemate much desired by the Allied nations In the first book to cover this southern theater in detail David Macri closely examines strategic decisions campaigns and operations and shows how they affected Allied grand strategy Drawing on documents of U S and British officials he reveals for the first time how the Sino Japanese War served as a proxy war for the Allies by keeping Japan s military resources focused on southern China they hoped to keep the enemy bogged down in a war of attrition that would prevent them from breaching British and Soviet territory While the most immediate concern was preserving Siberia and its vast resources from invasion Macri identifies Hong Kong as the keystone in that proxy war vital in sustaining Chinese resistance against Japan as it provided the logistical interface between the outside world and battles in Hunan and Kwangtung provinces a situation that emerged because of its vital rail connection to the city of Changsha He describes the development of Anglo Japanese low intensity conflict at Hong Kong he then explains the geopolitical significance of Hong Kong and southern China for the period following the German invasion of the Soviet Union Opening a new window on this rarely studied theater Macri underscores China s symbolic

importance for the Allies depicting them as unequal partners who fought the Japanese for entirely different reasons China for restoration of its national sovereignty the Allies to keep the Japanese preoccupied And by aiding China s wartime efforts the Allies further hoped to undermine Japanese propaganda designed to expel Western powers from its Greater East Asia Co Prosperity Sphere As Macri shows Hong Kong was not just a sleepy British Colonial outpost on the fringes of the empire but an essential logistical component of the war and to fully understand broader events Hong Kong must be viewed together with southern China as a single military zone His account of that forgotten fight is a pioneering work that provides new insight into the origins of the Pacific War

The Flying Tigers Braxton Eisel,2009 Product Description They volunteered For a variety of reasons patriotic altruistic mercenary or just for the hell of it Nearly three hundred U S servicemen and a couple of female nurses volunteered to fight a war in a place they knew little about Recruited at military bases around the country the members of the American Volunteer Group AVG set off for the unknown in the summer and fall of 1941 While U S support for the Allied cause was growing at a steady pace most Americans still felt distanced from the conflict enveloping Europe and Asia and did not want to go to war At the highest levels of the government however entering the war appeared inevitable The AVG was one way of gaining experience in this vicious war while increasing support for the nations fighting the Axis powers Despite incredible odds against them from numerically superior Japanese forces and a near complete lack of supply and replacement parts they took the first successful fight to the Japanese during a time of Japan s unrelenting successes It was not pretty and their legend has eclipsed the reality but the reality of the AVG is still an amazing story Led by Claire Lee Chennault they made history
