Ophiris Victor Moulder, 1900 The Cinema of Raúl Ruiz Michael Goddard, 2013-09-22 Raúl Ruiz while considered one of the world's most significant filmmakers by several film critics is yet to be the subject of any thorough engagement with his work in English. This volume sets out on this task by mapping as fully as possible Ruiz's cinematic trajectory across more than five decades of prolific work up to his death in 2011 ranging from his earliest work in Chile to high budget European costume dramas culminating in *Mysteries of Lisbon* 2010. It does so by treating Ruiz's work with its surrealist, magic realist, popular cultural and neo Baroque sources as a type of impossible cinematic cartography mapping real, imaginary and virtual spaces and crossing between different cultural contexts, aesthetic strategies and technical media. It argues that across the different phases of Ruiz's work identified there are key continuities such as the invention of singular cinematic images and the interrogation of their possible and impossible combinations.

Creation as Sacrament John Chryssavgis, 2019-06-27 John Chryssavgis explores the sacred dimension of the natural environment and the significance of creation in the rich theological history and spiritual classics of the Orthodox Church through the lens of its unique ascetical, liturgical and mystical experience. The global ecological crisis affecting humanity's air, water and land as well as the planet's flora and fauna has resulted in manifest fissures on the image of God in creation. Chryssavgis examines from an Orthodox Christian perspective the possibility of restoring that shattered image through the sacramental lenses of cosmic transfiguration, cosmic interconnection and cosmic reconciliation. The viewpoints of early theologians and contemporary thinkers are extensively explored from a theological and spiritual perspective including countering those who deny that God's creation is in crisis. Presenting a worldview advanced and championed by the Orthodox Church in the modern world, this book encourages personal and societal transformation in making ethical and economic choices that respect creation as sacrament.

Schwarz,2013-12-20 This overview of Christian anthropology by Hans Schwarz uniquely emphasizes three things 1 the biblical testimony 2 the historical unfolding of Christian anthropology through the centuries and 3 the present affirmation of Christian anthropology in view of rival options and current scientific evidence Schwarz begins by elucidating the special place occupied by human beings in the world then ponders the complex issue of human freedom and concludes by investigating humanity as a community of men and women in this world and in the world beyond While maintaining a strong biblical orientation Schwarz draws on a wide range of resources including philosophy and the natural sciences in order to map out what it means to be human Schwarz s Human Being will interest anyone who is concerned with how in the face of fascinating scientific insights we can intelligently talk today about human sinfulness human freedom and human beings as children of the God who created us

Recovering Theological Hermeneutics Jens Zimmermann,2012-02-01 Offers a constructive and corrective reading of a wide range of interpreters Augustine Luther Gadamer and more **Dickens and the Imagined Child** Peter Merchant,Catherine Waters,2016-04-22 The figure of the child and the imaginative and emotional capacities associated with children have always been sites of lively contestation for readers and critics of Dickens In Dickens and the Imagined Child leading scholars explore the function of the child and childhood within Dickens s imagination and reflect on the cultural resonance of his engagement with this topic Part I of the collection examines the Dickensian child as both characteristic type and particular example proposing a typology of the Dickensian child that is followed by discussions of specific children in Oliver Twist Dombey and Son and Bleak House Part II focuses on the relationship between childhood and memory by examining the various ways in which the child s eye view was reabsorbed into Dickens s mature sensibility The essays in Part III focus upon reading and writing as particularly significant aspects of childhood experience from Dickens s childhood reading of tales of adventure they move to discussion of the child readers in his novels and finally to a consideration of his own early writings alongside those that his children contributed to the Gad s Hill Gazette The collection therefore builds a picture of the remembered experiences of childhood being realised anew both by Dickens and through his inspiring example in the imaginative creations that they came to inform While the protagonist of David Copperfield that favourite child among Dickens s novels comes to think of his childhood self as something which he left behind upon the road

of life for Dickens himself leafing continually through his own back pages there can be no putting away of childish things

John Betjeman Greg Morse, 2012 John Betjeman was undoubtedly the most popular Poet Laureate since Tennyson But beneath the thoroughly modern window on Britain that he opened during his lifetime lay the influence of his nineteenth century forbears This book explores his identity through such Victorianism via the verse of that period but also its architecture religious faith and more importantly religious doubt It was nevertheless a process which took time In the 1930s Betjeman's work was tinted with modernism and traditionalism He found Victorian buildings funny and wrote much in praise of the Bauhaus style even though his early poetry was peppered with Victorian references This leaning was incorporated into a greater sense of purpose during World War 2 when he transformed himself from precious humorist into propagandist The resulting sense of cohesion grew when the dangers of post war urban redevelopment heightened the need to critique the present via the poetics of the past a mood which continued up to and beyond his gaining the Laureateship in 1972 This duty proved to be a millstone so the official poems are thus explored by the author more fully than hitherto The conclusion of looks back to Betjeman's 1960 verse autobiography Summoned by Bells which is seen as the apogee of his achievement and a snapshot of his identity Included here is the first critical appreciation of the lyrics embodied within the text which are taken as a map of the young poet's literary growth Larkin's 1959 question What exactly is Betjeman then leads

to a final appraisal of his originality as evidenced by his glances towards postmodernism feminism and post colonialism The fact is that Betjeman never quite fits in anywhere He is always a square peg in a round hole or a round peg in a square hole often for the sheer enjoyment of so being In a sense his desire to be as non conformist as a Quaker meeting house makes him a radical rather than the reactionary that his interests imply He was a champion of beauty and the British Isles and clearly did much to make us see the worth of our Victorian forebears Greg Morse s book highlights this important facet of his work

Technofutures, Nature and the Sacred Celia Deane-Drummond,Sigurd Bergmann,Bronislaw Szerszynski,2016-03-03 The capacity of human beings to invent construct and use technical artifacts is a hugely consequential factor in the evolution of society and in the entangled relations between humans other creatures and their natural environments Moving from a critical consideration of theories to narratives about technology and then to particular and specific practices Technofutures Nature and the Sacred seeks to arrive at a genuinely transdisciplinary perspective focusing attention on the intersection between technology religion and society and using insights from the environmental humanities It works from both theoretical and practical contexts by using newly emerging case studies including geo engineering and soil carbon technologies and breaks open new ground by engaging theological scientific philosophical and cultural aspects of the technology religion nature nexus Encouraging us to reflect on the significance and place of religious beliefs in dealing with new technologies and engaging critical theory common in sociological political and literary discourses the authors explore the implicit religious claims embedded in technology

A Book of Verses James Lawler,2009-03-04 My book of verses is a collection of poems I have written throughout the years Some are inspired by events in my life Others are purely figments of my imagination I write about people I have encountered news event the way I see the world and the things around me anything and everything that inspires me I try not to offend anyone by making blanket statements or speaking in absolutes The way I see the world is strictly from my point of view and not intended to be construed as factual I might appear to be preaching from a soap box at times I hope not but we all see the world in different ways I write about the way I see it My poems are intended for anyone that can open a book I attempt to add a bit of humor a

little drama a lot of love a touch of evil In essence I have mixed a variety of ingredients together to make it interesting The purpose of my poetry is to hopefully take the reader away from reality for a while Its intended to relax the mind for a spell I believe that is the purpose of a book It is like a fountain of knowledge where the thirsty mind can be quenched It can be a companion for the lonely at heart an oasis in the midst of reality where one can escape for a while Poetry is my passion Its my escape from reality my high so to speak a tranquilizer to combat lifes stressful moments The Pahalgam Attack: A Cry for Truth Mohammad Owais Qurashi, 2025-06-07 27 lives lost One valley blamed A thousand truths buried In The Pahalgam Attack A Cry for Truth Mohammad Owais takes readers beyond the headlines deep into the heart of Kashmir a land too often misunderstood and misrepresented Based on the tragic attack in Pahalgam that claimed the lives of 27 tourists this book is not just a recounting of the event but a courageous attempt to unmask the truth challenge propaganda and give voice to the voiceless While national media screamed terrorism few paused to ask what the people of Kashmir were feeling With first hand survivor accounts emotional narratives and hard hitting analysis this book tells the story of how an entire region was blamed vilified and demonized all while continuing to offer hospitality empathy and peace to the very nation accusing them Through powerful storytelling Owais explores The silent pain of ordinary Kashmiris after the attack The role of Godi media in fueling hatred and communal division How Kashmiri students were targeted outside the valley The misuse of grief as political fuel and the terrifying parallels with Palestine A powerful message of truth humanity and healing This is not just a book it is a plea for understanding a document of resistance and a cry for justice If you want to know the truth Kashmir lives with beyond biased narratives and politicized headlines this book is your gateway
