She Shoots She Scores Canadian Perspectives On Women In Sport:

She Shoots, She Scores Laura Robinson, 1997 *She Shoots She Scores* is designed for use in school college and university physical education programs It raises for discussion important issues surrounding women and sport today The story of women s sport is a story of questioning everything and asking why not The women and the teams described in this book dare to ask that very simple question Women s sport challenges the male status quo in a way that is disconcerting if not revolutionary Women are telling the world that they belong on the playing fields ice surfaces race courses and mountains of the earth and reject what thousands of years of patriarchy has tried to enforce Increasingly women athletes are claiming public space and are doing so with the strength of their bodies Sport is about challenges and so this book will challenge the person reading it Why did Maclean s Magazine declare that Canada s national virility remained intact after we won the silver medal at the 1992 Olympics in men s hockey And if hockey is connected to male sperm what does Maclean s have to say about our women s team winning the world championships again one month later This book introduces the reader not only to the special nature of women s sport but also the special nature of women sport journalism This collection of articles on women in sport and physical activity is drawn from the author s experiences as both as a sports journalist and as an athlete

The Girl and the Game M. Ann Hall, 2016-05-25 In the second edition of this groundbreaking social history M Ann Hall begins with an important new chapter on Aboriginal women and early sport and ends with a new chapter tying today s trends and issues in Canadian women s sport to their origins in the past Students will appreciate the more descriptive chapter titles and the restructuring of the book into easily digestible sections Fifty two images complement Hall s lively narrative

International Sport Richard William Cox, 2004 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new
