Sheffield In The Age Of The Tram:

Sheffield in the Age of the Tram Graham H. E. Twidale, 2004-10-01 Features over 175 photographs that recall an era when an almost constant procession of trams clattered over the junction of Fitzalan Square High Street Commercial Street and Haymarket and flanges squealed as cars to Walkley and Crookes rounded the curves on their way to the higher parts of the city prior to the closure of the system in 1960

The Golden Age of Buses & Trams Henry Hirst, 2020-10-22 Public transport has now been around for over 150 years in one shape or another and this book takes a nostalgic look at the heritage and story of Buses and Trams Tramways when operated in the 19th century and beyond formed a large part of the community in towns and cities helping to get people around in style using steam and electric technology Trams over time were however up against the might of the internal combustion engine in the shape of the emerging petrol and diesel powered buses These newfangled vehicles didn't require rails or overhead cables and could go just about anywhere There was also of course the electric trolleybus that sat somewhere between a bus and tram The tram has thankfully made comebacks over the years and buses have evolved with the times so join us looking through the early years to more recent times This book is full of facts information about the manufacturers insight about the classic buses and includes some superb archive pictures

City of Sheffield (Part 1 of 3) , **Tramway and Railway World** , 1903 **"Damned Bad Place, Sheffield"** Sylvia M. Pybus, 1994 *Tramway and Railway World* , 1950 *Rails in the Road* Oliver Green, 2016-10-31 There have been passenger tramways in Britain for 150 years but it is a rollercoaster story of rise decline and a steady return Trams have come and gone been loved and hated popular and derided considered both wildly futuristic and hopelessly outdated by politicians planners and the public alike Horse trams introduced from the USA in the 1860s were the first cheap form of public transport on city streets Electric systems were developed in nearly every urban area from the 1890s and revolutionised town travel in the Edwardian era A century ago trams were at their peak used by everyone all over the country and a mark of civic pride in towns and cities from Dover to Dublin But by the 1930s they were in decline and giving way to cheaper and more flexible buses and trolleybuses By the 1950s all the major systems were being replaced Londons last tram ran in 1952 and ten years later Glasgow the city most firmly linked with trams closed its network down Only Blackpool famous for its decorated cars kept a public service running and trams seemed destined only for scrapyards and museums A gradual renaissance took place from the 1980s with growing interest in what are now described as light rail systems in Europe and North America In the UK and Ireland modern trams were on the streets of Manchester from 1992 followed successively by Sheffield Croydon the West Midlands Nottingham Dublin and Edinburgh 2014 Trams are now set to be a familiar and significant feature of twenty first century urban life with more development on the way

Leaving Sheffield John Downing, 2014-08-17 Over three generations starting in 1829 three strong independent women fought to stamp their mark on the world They would also raise families as self reliant as themselves One of those women Eliza Brannan would carry

a dark evil secret for years breaking her silence only after marrying the man she had first met as a thirteen year old girl The endeavours of the women for recognition as equals in a male dominated world would lead them all into difficult times straining relationships and threatening lives their own and their families However there was no deterring the women demanding only the highest standards not only from themselves but also from everyone around them For generations the families had lived in and around Sheffield but in 1913 Hannah Coppul made a decision that would see them leave Sheffield forever Whether that decision would be the best one for all the members of her family only time would tell The stories characters and incidents in this book are fictional **Municipal Journal and Public Works Engineer** ,1909 **The Modern Tramway** ,1938 **Great Railway Journeys: London to Sheffield** Roger Mason,2016-07-15 This fascinating look at the journey from London to Sheffield by rail Modern Britain Third Edition Edward Royle,2016-05-16 Praise for the first edition Royle calls on an impressive range of materials supported by an excellent bibliography to offer a judicious review of most of the issues currently confronted by social historians His agenda contains both traditional and novel elements all are presented with admirable clarity and balance A volume which shows an astonishing command of such a wide range of material will long prove essential reading Times Literary Supplement This popular work provides an in depth historical background to issues of contemporary concern tracing developments over the past two and a half centuries It promotes accessibility by adopting a thematic approach with each theme treated chronologically Major themes are chosen partly by their importance to an understanding of the past and partly by their relevance to students of contemporary Britain rather than by imposing current fashions in historical study on the past Thoroughly revised the third edition of Modern Britain reviews and brings up to date the content to take account of developments since 1997 and reconsiders emphases and interpretations in light of more recent scholarship It incorporates new currents in historical writing on matters such as the language of class the position of women and the revolution worked by the Internet and mobile technologies Modern Britain is vital reading for students of history and the social and political sciences Municipal Journal ,1929 *Haydn's Dictionary of Dates and Universal Information Relating to All Ages and Nations* Joseph Haydn,Benjamin Vincent,1887 American and English Annotated Cases ,1916 *New South Wales Railway and Tramway Budget* ,1914 *The Railway Magazine* ,1904

Applicability of Low-floor Light Rail Vehicles in North America Michael I. Darter,Booz, Allen & Hamilton,Kathleen Theresa Hall,Chen-Ming Kuo,1995 The report investigates the state of the art of low floor light rail vehicles and assesses the applicability of their use in North America Low floor light rail vehicle categories have been developed to facilitate the understanding of the different types of vehicles and their applications The report describes the growing trend toward low floor light rail vehicles and the reasons for this growth It provides an extensive compilation of data on low floor light rail vehicles information on North American light rail system characteristics and an analytical perspective on key issues relevant to the applicability of this technology in North America The report also develops example applications to demonstrate the

cost effectiveness of using low floor light rail vehicles the source of risk and the trade offs regarding the use of low floor versus high floor light rail vehicles The Electrical Journal ,1904 **The Electrician** ,1904
