Hollywood Stunt Performers, 1910s-1970s Gene Scott Freese, 2014-04-04 This biographical dictionary shines the spotlight on several hundred unheralded stunt performers who created some of the cinema's greatest action scenes without credit or recognition. The time period covered encompasses the silent comedy days of Buster Keaton and Harold Lloyd, the early westerns of Tom Mix and John Wayne, the swashbucklers of Douglas Fairbanks, Errol Flynn and Burt Lancaster, the costume epics of Charlton Heston and Kirk Douglas, and the action films of Steve McQueen, Clint Eastwood and Charles Bronson. Without stuntmen and women working behind the scenes, the films of these action superstars would not have been as successful. Now, fantastic athletes and leading stunt creators such as Yakima Canutt, Richard Talmadge, Harvey Parry, Allen Pomeroy, Dave Sharpe, Jock Mahoney, Chuck Roberson, Polly Burson, Bob Morgan, Loren Janes, Dean Smith, Hal Needham, Martha Crawford, Ronnie Rondell, Terry Leonard, and Bob Minor are given their proper due. Each entry covers the performer's athletic background, military service, actors doubled, noteworthy stunts, and a rundown of his or her best known screen credits.

Aviators in Early Hollywood Shawna Kelly, 2008 Hollywood's leading aviators were heroic knights of the sky on the screen as well as in real life. These leading aviators performed aerial stunt sequences and acted; plus, some wrote and directed motion pictures. Directing giant Cecil B. DeMille was so enthralled with aviation that he owned three airfields. Charlie Chaplin's family airfield also doubled as a motion picture set. Thomas H. Ince, the famous producer who invented the studio system, owned Ince Airfield, which became the hub of Hollywood aviation. Eternal legends Rudolph Valentino, Oliver Hardy, Harry Houdini, and Mary Pickford performed in aerials. Many aviators gave their lives; making motion pictures, three fatalities were incurred for Howard Hughes's great air epic *Hell's Angels*. Hughes himself broke records within aircraft and film production. Aviators brought their screen work to life between films through barnstorming. The roaring 1920s: Hollywood was often aviators soaring beyond limits.

The Thrill Makers Jacob Smith, 2012-05 Starring human flies, daredevil aviators, bridge jumpers, and lion tamers, *The Thrill Makers* is as evocative as it is theoretically savvy and convincingly argued. Culling telling details from a host of long overlooked sources, Jacob Smith's account of sensational high-risk public performance from the Victorian age to the 1930s unearths and illuminates the interwoven histories of public spectacle, masculinity, the motion picture industry, new forms of celebrity, and the expanding American metropolis. Greg Waller, Department of Communication and Culture, Indiana University. *The Thrill Makers* is an historical tour de force that illuminates the origins of risk-taking performance in American entertainment and shows how its practitioners were gradually marginalized as invisible stunt doubles during the rise of the motion picture industry. Smith's analysis of the lion tamer, the human fly, and the airplane wing walker, as well as the many others who thrilled audiences before and during the advent of cinema, inspires us to reconsider the nature of media spectacle, masculinity, performance, celebrity, and labor at the turn of the

last century Impeccably researched this book is a captivating read that re frames the emergence of cinema in the context of its relationship to other forms of modern entertainment Barbara Klinger author of Beyond the Multiplex Cinema New Technologies and the Home Barnstormers, Wing-Walking and Flying Circuses Peter C. Brown,2022-04-21 While large numbers of aeroplanes had been produced In America for the war effort overseas at the Western Front it was found that that the British French and Germans were far ahead of them when it came to flight technology which led to a huge surplus of aeroplanes in the United States The government s solution to recover some of the money was to sell the surplus stock off for as little as 200 dollars each With no licence being required to fly a plane the offer attracted many ex fighter pilots as well as civilians who developed a new American pastime known as barnstorming Part entertainers part thrill seekers the barnstormers made their way across the country as solo acts and in groups called Flying Circuses The American flier Ormer Locklear wowed the crowds by climbing out of his aeroplane and walk along the wing and it wasn t long before flying circuses held less appeal for spectators if it didn t have a wing walking act Handstands jumps across planes and even the odd game of tennis were attempted by barnstormers to attract larger paying audiences In 1936 the US Government banned wing walking under 1 500 ft which doomed aerial stunting and while a few wing walking teams operated in the 1970s it wasn t until barnstormer Vic Norman founded his famous AeroSuperBatics wing walking team in the early 1980s that the sight of daredevils hand standing and flying upside down on the wing was seen in Europe Several teams around the world subsequently formed using aeroplanes such as the Boeing Stearman or the Curtiss Jenny biplanes to wow crowds as a part of regular air displays and their appeal has continued to rise since the 2000s Aviation in Northern California 1910-1939 H. Race to Hawaii Jason Ryan,2018-08-01 A thrilling account Race to Hawaii chronicles the first flights to Hawaii in the 1920s during the Golden Age of Aviation These journeys were fraught with danger To reach the tiny islands fearless pilots flew unreliable and fragile aircraft outfitted with primitive air navigation equipment The Dole Derby was an unprecedented 1927 air race in which eight planes set off at once across the Pacific all eager to reach the islands first and claim a cash prize

offered by Pineapple King James Dole Military men barnstormers a schoolteacher a Wall Street bond salesman a Hollywood stunt flyer and veteran World War aces all encountered every type of hazard during their perilous flights With so many pilots taking aim at the far flung islands in so many different types of planes everyone wondered who would reach Hawaii first or at all

Morris,2016-04-15 Adopting and transforming the Romantic fascination with mountains modernism in the German speaking lands claimed the Alps as a space both of resistance and of escape This new cult of mountains reacted to the symptoms and alienating forces associated with modern culture defining and reinforcing models of subjectivity based on renewed wholeness and an aggressive attitude to physical and mental health The arts were critical to this project none more so than music which occupied a similar space in Austro German culture autonomous pure sublime In *Modernism and the Cult of Mountains* opera serves as a nexus shedding light on the circulation of contesting ideas about politics nature technology and aesthetics Morris investigates operatic representations of the high mountains in German modernism showing how the liminal quality of the landscape forms the backdrop for opera's reflexive engagement with the identity and limits of its constituent media not least music This operatic reflexivity in which the very question of music's identity is repeatedly restaged invites consideration of musical encounters with mountains in other genres and Morris shows how these issues resonate in Strauss's *Alpine Symphony* and in the Bergfilm mountain film By using music and the ideology of mountains to illuminate aspects of each other Morris makes an original and valuable contribution to the critical study of modernism
