Mourning Into Joy Music Raphael And Saint Cecilia:

Mourning Into Joy Thomas Connolly, 1994 Although Saint Cecilia is venerated throughout the Western world as the patron saint of music and Raphael's famous painting *The Ecstasy of Saint Cecilia* is filled with musical iconography the ancient origins of Cecilia's association with music have long been shrouded in mystery This book a masterful investigation of the Cecilian cult from its beginnings in Christian antiquity down to the Renaissance explains how Cecilia came to be linked with music and offers a new interpretation of Raphael's painting Thomas Connolly finds the key to the mystery in a theme he identifies as mourning into joy This theme rooted in the Bible and in Aristotle's doctrine of the passions of the soul became prominent in the visual and literary arts as well as in theology and spirituality and expressed the soul's passages between vice and virtue as a conversion of sadness into joy According to Connolly this idea strongly influenced the legend and worship of Saint Cecilia a model for all who sought spiritual transformation Connolly argues that the medieval mystical mind saw music as an intimate expression of the experiences of conversion and spiritual growth and that the conjunction of spirit and music became crystallized in the figure of the saint His explanation not only provides a better understanding of Raphael's work and other Renaissance and Baroque art but also clarifies puzzling literary questions concerning Saint Cecilia such as Chaucer's treatment of her in *The Second Nun's Tale* *Echoes of Women's Voices* Kelley Harness, 2006-02-15 Harness argues very convincingly that through their patronage of the figurative arts musical theater and early opera the Medici women reinforced their position and their image as powerful women and capable rulers *Saint Cecilia in the Renaissance* John A. Rice, 2022-07-04 This study uncovers how Saint Cecilia came to be closely associated with music and musicians Until the fifteenth century Saint Cecilia was not connected with music She was perceived as one of many virgin martyrs with no obvious musical skills or interests During the next two centuries however she inspired many musical works written in her honor and a vast number of paintings that depicted her singing or playing an instrument In this book John A Rice argues that Cecilia's association with music came about in several stages involving Christian liturgy visual arts and music It was fostered by interactions between artists musicians and their patrons and the transfer of visual and musical traditions from northern Europe to Italy Saint Cecilia in the Renaissance explores the cult of the saint in Medieval times and through the sixteenth century when musicians guilds in the Low Countries and France first chose Cecilia as their patron The book then turns to music and the explosion of polyphonic vocal works written in Cecilia's honor by some of the most celebrated composers in Europe Finally the book examines the wealth of visual representations of Cecilia especially during the Italian Renaissance among which Raphael's 1515 painting *The Ecstasy of Saint Cecilia* is but the most famous example Thoroughly researched and beautifully illustrated in color *Saint Cecilia in the Renaissance* is the definitive portrait of Saint Cecilia as a figure of musical and artistic inspiration **Self and Salvation** David F. Ford, 1999-03-04 This eagerly awaited book by David F Ford makes a unique and important contribution to the debate about the Christian doctrine of salvation Using the pivotal image of

the face Professor Ford offers a constructive and contemporary account of the self being transformed He engages with three modern thinkers Levinas J ngel and Ricoeur in order to rethink and reimagine the meaning of self Developing the concept of a worshipping self he explores the dimensions of salvation through the lenses of scripture worship practices the life death and resurrection of Christ and the lives of contemporary saints He uses different genres and traditions to show how the self flourishes through engagement with God other people and the responsibilities and joys of ordinary living The result is a habitable theology of salvation immersed in Christian faith thought and practice while also being deeply involved with modern life in a pluralist world

Sound, Sin, and Conversion in Victorian England Julia Grella O'Connell, 2018-04-19 The plight of the fallen woman is one of the salient themes of nineteenth century art and literature indeed the ubiquity of the trope galvanized the Victorian conscience and acted as a spur to social reform In some notable examples Julia Grella O'Connell argues the iconography of the Victorian fallen woman was associated with music reviving an ancient tradition conflating the practice of music with sin and the abandonment of music with holiness The prominence of music symbolism in the socially committed quasi religious paintings of the Pre Raphaelites and their circle and in the Catholic Wagnerian novels of George Moore gives evidence of the survival of a pictorial language linking music with sin and conversion and shows even more remarkably that this language translated fairly easily into the cultural lexicon of Victorian Britain Drawing upon music iconography art history patristic theology and sensory theory Grella O'Connell investigates female fallenness and its implications against the backdrop of the social and religious turbulence of the mid nineteenth century

Affective Meditation and the Invention of Medieval Compassion Sarah McNamer, 2011-07-07 Affective meditation on the Passion was one of the most popular literary genres of the high and later Middle Ages Proliferating in a rich variety of forms these lyrical impassioned script like texts in Latin and the vernacular had a deceptively simple goal to teach their readers how to feel They were thus instrumental in shaping and sustaining the wide scale shift in medieval Christian sensibility from fear of God to compassion for the suffering Christ Affective Meditation and the Invention of Medieval Compassion advances a new narrative for this broad cultural change and the meditative writings that both generated and reflected it Sarah McNamer locates women as agents in the creation of the earliest and most influential texts in the genre from John of F camp s Libellus to the Meditationes Vitae Christi thus challenging current paradigms that cast the compassionate affective mode as Anselmian or Franciscan in origin The early development of the genre in women s practices had a powerful and lasting legacy With special attention to Middle English texts including Nicholas Love s Mirror and a wide range of Passion lyrics and laments Affective Meditation and the Invention of Medieval Compassion illuminates how these scripts for the performance of prayer served to construct compassion itself as an intimate and feminine emotion To feel compassion for Christ in the private drama of the heart that these texts stage was to feel like a woman This was an assumption about emotion that proved historically consequential McNamer demonstrates as she traces some of its legal ethical and social functions in late medieval

England Structures and Subjectivities Adele F. Seeff, Joan Hartman, 2007 Structures and Subjectivities refers to what we can and probably cannot know about women in the early modern period. Scholars study the societal structures their disciplines call attention to; they are left to infer the subjectivities the lived experience of women whose lives they attempt to reconstruct. The authors of the essays in the volume, the fifth to emerge from conferences held by the University of Maryland's Center for Renaissance Baroque Studies, place the largest possible meanings on structures. They consider geographical boundaries and political and ecclesiastical institutions, the gendering of hierarchies and the power of place, the spaces that women constructed, inhabited, traveled in, and worked in, and by extension the literary and artistic conventions that both enabled and constrained their artistic production. They also consider, in several essays on pedagogy, the structures in which they and their students pursue the study of early modern women: institutions, departments, and classrooms. Joan E. Hartman is Professor of English emerita at the College of Staten Island, The City University of New York, at the University of Maryland.

Gendering the Renaissance Meredith K. Ray, Lynn Lara Westwater, 2023-04-14 The essays in this volume revisit the Italian Renaissance to rethink spaces thought to be defined and certain from the social spaces of convent, court, or home to the literary spaces of established genres such as religious plays or epic poetry. Repopulating these spaces with the women who occupied them but have often been elided in the historical record, the essays also remind us to ask what might obscure our view of texts and archives, what has remained marginal in the texts and contexts of early modern Italy, and why. The contributors, suggesting new ways of interrogating gendered discourses of genre, identities, and sanctity, offer a complex picture of gender in early modern Italian literature and culture. Read in dialogue with one another, their pieces provide a fascinating survey of currents in gender studies and early modern Italian studies and point to exciting future directions in these fields.

John Capgrave's Fifteenth Century Karen A. Winstead, 2013-04-23 Britain of the fifteenth century was rife with social change, religious dissent, and political upheaval. Amid this ferment lived John Capgrave, Austin friar, doctor of theology, leading figure in East Anglian society, and noted author. Nowhere are the tensions and anxieties of this critical period, spanning the close of the medieval and the dawn of early modern eras, more eloquently conveyed than in Capgrave's works. John Capgrave's *Fifteenth Century* is the first book to explore the major themes of Capgrave's writings and to relate those themes to fifteenth-century political and cultural debates. Focusing on Capgrave's later works, especially those in English and addressed to lay audiences, it teases out thematic threads that are closely interwoven in Capgrave's Middle English oeuvre: piety, intellectualism, gender, and social responsibility. It refutes the still prevalent view of Capgrave as a religious and political reactionary and shows rather that he used traditional genres to promote his own independent viewpoint on some of the most pressing controversies of his day, including debates over vernacular theology, orthodoxy, and dissent, lay and particularly female spirituality, and the state of the kingdom under Henry VI. The book situates Capgrave as a figure both in the vibrant literary culture of East Anglia and in European intellectual history. *John Capgrave's Fifteenth*

Century offers a fresh view of orthodoxy and dissent in late medieval England and will interest students of hagiography religious and cultural history and Lancastrian politics and society Female Monasticism in Early Modern Europe Cordula van Wyhe, 2017-03-02 This volume of twelve interdisciplinary essays addresses the multifaceted nature of female religious identity in early modern Europe By dismantling the boundaries between the academic disciplines of history art history musicology and literary studies it offers new cross cultural readings essential to a more comprehensive understanding of the complexity of female spirituality in the sixteenth and seventeenth centuries Utilising a wide range of archival material encompassing art architecture writings and music commissioned or produced by nuns the volume's main emphasis is on the limitations and potentials created by the boundaries of the convent Each chapter explores how the personal and national circumstances in which the women lived affected the formation of their spirituality and the assertion of their social and political authority Consisting of four sections each dealing with different parts of Europe and discussing issues of spiritual and social identity such as Femininity and Sanctity Convent Theatre and Music Making Spiritual Directorship and Community and Conflict this compelling collection offers a significant addition to a thriving new field of study **Death and Drama in Renaissance England** William E. Engel, 2002 Table of contents **The Legacy of Demetrius of Alexandria 189-232 CE** Maged Mikhail, 2016-12-01 This is the first full length study of Demetrius of Alexandria 189-232 ce who generated a neglected yet remarkable hagiographic program that secured him a positive legacy throughout the Middle Ages and the modern era Drawing upon Patristic Coptic and Arabic sources spanning a millennium the analysis contextualizes the Demetrian corpus at its various stages of composition and presents the totality of his hagiographic corpus in translation This volume constitutes a definitive study of Demetrius but more broadly it provides a clearly delineated hagiographic program and charts its evolution against a backdrop of political developments and intercommunal interactions This fascinating study is a useful resource for students of Demetrius and the Church in Egypt in this period but also for anyone working on Early Christianity and hagiography more generally Strategies for Showing Marcia R. Pointon, 1997 In this unusual and original study Marcia Pointon examines the cultural effects and consequences of the participation by women in acts of representation in the late seventeenth and eighteenth centuries She explores their lives and work and a cultural environment in which images of female saints and goddesses established indices of femininity in the homes of wealthy men Did the women portrayed also possess artefacts and did they use the power of gifts and bequests to determine social relations Did they themselves participate in the processes of creating images of the seen world Pointon sets out to answer some of these questions through a series of novel and vividly recounted case studies of women such as Emma Hamilton wife and mistress Mary Moser the artist Dorothy Richardson the antiquarian She shows that the relationship of these women to the world of consumption was affective and imaginative as well as economic **Diversity** Paul Maurice Clogan, 1995 Volume 22 Diversity is a special volume in the new series of *Medievalia et Humanistica* focusing on the diversity of voices in medieval and early

Authorship and Publicity Before Print Daniel Hobbins, 2012-02-28 Widely recognized by contemporaries as the most powerful theologian of his generation Jean Gerson 1363-1429 dominated the stage of western Europe during a time of plague fratricidal war and religious schism Yet modern scholarship has struggled to define Gerson's place in history even as it searches for a compelling narrative to tell the story of his era Daniel Hobbins argues for a new understanding of Gerson as a man of letters actively managing the publication of his works in a period of rapid expansion in written culture More broadly Hobbins casts Gerson as a mirror of the complex cultural and intellectual shifts of the fourteenth and fifteenth centuries In contrast to earlier theologians Gerson took a more humanist approach to reading and to authorship He distributed his works both Latin and French to a more diverse medieval public And he succeeded in reaching a truly international audience of readers within his lifetime Through such efforts Gerson effectively embodies the aspirations of a generation of writers and intellectuals Removed from the narrow confines of late scholastic theology and placed into a broad interdisciplinary context his writings open a window onto the fascinating landscape of fifteenth century Europe The picture of late medieval culture that emerges from this study is neither a specter of decaying scholasticism nor a triumphalist narrative of budding humanism and reform Instead Hobbins describes a period of creative and dynamic growth when new attitudes toward writing and debate demanded and eventually produced new technologies of the written word
