New War Order Notes From The Front Line:

Lyndon LaRouche Helen Gilbert,2003 This Red Banner Reader follows Lyndon Larouche from his origins in the Socialist Worker s Party to his interlude with the National Caucus of Labor committees and on to the flood of organizations fronts committees parties caucuses and whatever that Larouche has generated since his prison release in 1994 It notes Larouche s psychotic collapse and wildly cultist behavior of the 1970 s and traces the links not without consequence between cult politics and real politics in the worlds of Reagan and Bush

Capitalism's Brutal Comeback in China Susan Williams,2003 Cultural Writing This pamphlet calls for the principled Trotskyist overthrow of the Chinese Communist Party and such other neo Capitalist organs of the Chinese state as the People s Liberation Army now the world s largest corporation These events will necessarily follow the worker s revolution in America and elsewhere in the West

Leon Trotsky Helen Gilbert,2003 This concise look at the life of Trotsky begins with his first meeting with Lenin in exile in 1902 and ends with Trotsky s assassination in Mexico in 1940 Ideological and practical conflicts with the other major personalities of the Russian revolution are detailed and a brief descriptive bibliography of Trotsky s key writings is included

Memories from the Frontline Jerry Palmer,2018-05-21 This book analyses soldiers memoirs from the Great War of 1914 18 from Britain France and Germany It considers both the authors composition of the memoirs and the public response to them It provides contextual analysis through a survey of the different types of contemporary writing about the Great War through an analysis of changes in the language used to describe combat and through an analysis of those people whose accounts of the war were either excluded or marginalised It also considers the international response to the most successful of the texts The purpose of the analysis is to show how soldiers memoirs contributed to the collective memory of the war and how they influenced public opinion about the war These texts are both autobiographical and historical and their relationship to the fields of autobiography and historical writing is also considered as well as to the distinction between fact and fiction

The New War Plays J. Boll,2013-10-18 How can war be represented on stage How does the theatre examine the structures leading to violence and war and explore their transformation of societies Springing from the discussion about New Wars in the age of globalisation this interdisciplinary study demonstrates how these New Wars bring forth new plays about war

Frontline and Factory Roy MacLeod,Jeffrey A. Johnson,2007-05-06 It has been said that history is a debate between the present and the past about the future Nowhere are these lines drawn more significantly than in the study of science and war And nowhere is the discourse more relevant than in the study of science and technology as foundations and multipliers of military power This book is concerned with one particularly seminal aspect of this development the history of chemical munitions during and immediately after the First World War The Great War as it came to be known was not the first industrial war but it was the first to involve all the major industrial nations of the world Within four years the world witnessed unprecedented feats of industrial development many of which drew upon and extended pre war reservoirs of

scientific and technological knowledge The experience comes down to us as a conjuncture of scientific economic political and ultimately military departures which by their nature involved new ways of meeting crises and eventually new forms of critical thinking That these new forms emerged only gradually and unexpectedly is not to underestimate their capacity to endure or to minimize their relevance From the Great War came patterns assumptions and practices which were to make an indelible mark on science and technology for the rest of the twentieth century and beyond

Virilio Now John Armitage,2011-09-06 Cutting edge introduction to and extension of the work of Paul Virilio and it s current directions Contains contributions by the world s leading Virilio scholars as well as a newly translated text by Virilio *Selling Intervention and War* Jon Western,2021-02-10

Selling Intervention and War examines the competition among foreign policy elites in the executive branch and Congress in winning the hearts and minds of the American public for military intervention The book studies how the president and his supporters organize campaigns for public support for military action According to Jon Western the outcome depends upon information and propaganda advantages media support or opposition the degree of cohesion within the executive branch and the duration of the crisis Also important is whether the American public believes that military threat is credible and victory plausible Not all such campaigns to win public support are successful in some instances foreign policy elites and the president and his advisors have to back off Western uses several modern conflicts including the current one in Iraq as case studies to illustrate the methods involved in selling intervention and war to the American public the decision not to intervene in French Indochina in 1954 the choice to go into Lebanon in 1958 and the more recent military actions in Grenada Somalia Bosnia and Iraq *Selling Intervention and War* is essential reading for scholars and students of U S foreign policy international security the military and foreign policy and international conflict

Brave New War John Robb,2007-04-20 For my money John Robb a former Air Force officer and tech guru is the futurists futurist Slate The counterterrorism expert John Robb reveals how the same technology that has enabled globalization also allows terrorists and criminals to join forces against larger adversaries with relative ease and to carry out small inexpensive actions like sabotaging an oil pipeline that generate a huge return He shows how combating the shutdown of the world s oil high tech and financial markets could cost us the thing we ve come to value the most worldwide economic and cultural integration and what we must do now to safeguard against this new method of warfare
