New Atlantic Challenge:

The New Atlantic Challenge Richard Mayne, 1975 **Challenge!**, 1979 *Debating Worlds* Daniel Deudney, G. John Ikenberry, Karoline Postel-Vinay, 2023

By the last decade of the twentieth century the great questions of modernity seemed to be answered. With the collapse of the Soviet Union and global communism the liberal democratic capitalist project seemed to be the only one left standing and in the 1990s the liberal ideal spread worldwide. Today of course this universalistic narrative rings hollow. The global distribution of power has shifted and the preeminence of the West is receding as new directions for world order emerge. China is rapidly ascending as a peer competitor of the United States bringing with it a powerful new global narrative of grievance and revision. Political Islam also burst onto the global scene as a multifaceted transnational movement reshaping regional political order and geopolitical alignments. With the rapid advance of climate change there have arisen new narratives of global endangerment and dystopia. Far from converging fragmentation and contestation increasingly dominate debates over world order. In *Debating Worlds* Daniel Deudney, G. John Ikenberry and Karoline Postel-Vinay have gathered a group of eminent scholars in the field to analyze the various ways in which the West's dominant narrative has waned and a new plurality of narratives has emerged. Each of these narratives combines stories of the past with understandings of the present and attractive visions of the future. Collectively the contributors map out these narratives focusing primarily on their key features, origins and implications for world order. The narratives prominent on the world stage are a volatile mix of components but they also differ in scope: some are regional and civilizational without global aspirations while others cast themselves as globally expansive and universally ambitious. Covering the most influential narratives currently shaping world politics, *Debating Worlds* is an essential volume for all scholars of international relations.

European Peace Movements and the Future of the Western Alliance Walter Laqueur, 2017-09-08

This extraordinary compendium concerns the future of the Western alliance and the development of the peace movements in Europe and in the United States. The peace movement is an old phenomenon given new life by NATO decisions concerning nuclear deployment in Europe and the Soviet responses along the same lines. After a long postwar marriage Europeans and Americans alike are reexamining the premises of the Western alliance. The contributors provide a variety of scenarios extending from the maintenance of the status quo to the complete dismantling of the Western alliance or at least of its NATO component. In a context of rapid change and new challenges to the democratic bloc the editors and authors argue for higher levels of economic integration and caution that competition might spill over into political collapse. The work deals with thorny security issues in a frank and policy-oriented way. While each contributor expresses a unique standpoint a surprising consensus emerges: The need for democratic nations to move toward a higher policy ground in order to preserve the fundamental alliance that led to the postwar consensus to begin with. Some contributors feel this is still possible; others that the time has passed and that national rather than regional interests will once more prevail. The work contains an

extraordinary array of talent from both the American and European perspectives Among the major contributors and their themes are Henry Kissinger on A Plan to Reshape NATO William G Hyland on The European Peace Movement and NATO Irving Kristol on What s Wrong with NATO Theodore Draper on The Western Misalliance Niels Haagerup on The Nordic Peace Movements Martin Ceadel on The British Nuclear Disarmers and Jeffrey Herf on The SPD and the Peace Movement in West Germany This is a well integrated text with no random essays **The Challenge of the Atlantic** Dag Pike,1988

Reasserting America in the 1970s Hallvard Notaker,Giles Scott-Smith,David J. Snyder,2016-06-17 Reasserting America in the 1970s brings together two areas of burgeoning scholarly interest On the one hand scholars are investigating the many ways in which the 1970s constituted a profound era of transition in the international order The American defeat in Vietnam the breakdown of the Bretton Woods exchange system and a string of domestic setbacks including Watergate Three Mile Island and reversals during the Carter years all contributed to a grand reappraisal of the power and prestige of the United States in the world In addition the rise of new global competitors such as Germany and Japan the pursuit of détente with the Soviet Union and the emergence of new private sources of global power contributed to uncertainty The Challenge of
