In It for the Long Run Scott Ludwig,Vanessa Stroud,2012-09 Multiple races of marathon distance or greater in a month or perhaps in a weekend Several unsupported runs of 50 and 100 miles through the mountains and forests several times a year Have you ever considered running through a desert across a frozen tundra or over multiple mountain ranges Why not run for three days straight to see how many miles you can accrue Welcome to a place where no locale is too inhospitable and no distance impossible Welcome to the Darkside The Darkside Running Club established in 2002 is a place where runners meet to express their love for distance running and camaraderie by spending countless hours and miles committed to doing what they enjoy most They share a singular focus towards achieving goals far off in the distance both literally and figuratively With their dedication and commitment you may believe the Darksider to be a professional athlete or perhaps an Olympian But you would be wrong they are simply ordinary people doing extraordinary things in the sport they love running Highly competitive while never taking themselves too seriously they strive to shave off minutes or perhaps hours while adding a mile or two or twenty while pushing their limits further and further The impossible becomes possible dreams become reality They won't take no for an answer as they persevere to move beyond physical and emotional discomfort to finish what they started Excuses don't exist Their passion is contagious So reader be warned they're in it for the long run

about the best ways to ensure food security in the aftermath of a major shock to global food systems Freedom from Want
George Kent, 2005-06-02 There is literally a world of difference between the statements Everyone should have adequate food and Everyone has the right to adequate food In George Kent's view the lofty rhetoric of the first statement will not be fulfilled until we take the second statement seriously Kent sees hunger as a deeply political problem Too many people do not have adequate control over local resources and cannot create the circumstances that would allow them to do meaningful productive work and provide for themselves The human right to an adequate livelihood including the human right to adequate food needs to be implemented worldwide in a systematic way Freedom from Want makes it clear that feeding people will not solve the problem of hunger for feeding programs can only be a short term treatment of a symptom not a cure The real solution lies in empowering the poor Governments in particular must ensure that their people face enabling conditions that allow citizens to provide for themselves In a wider sense Kent brings an understanding of human rights as a universal system applicable to all nations on a global scale If as Kent argues everyone has a human right to adequate food it follows that those who can empower the poor have a duty to see that right implemented and the obligation to be held morally and legally accountable for seeing that that right is realized for everyone everywhere Review of Child Nutrition Program
