African Ethics Jonathan O. Chimakonam,Luis Cordeiro-Rodrigues,2022-08-25 This is the first comprehensive exploration of African ethics covering everything from normative ethics and applied ethics to meta ethics and methodology as well as the history of its evolution African Ethics provides an in depth exploration of Ubuntu ethics which is defined as a set of values based on concepts such as reciprocity mutual respect and working towards the common good Ubuntu ethics also strongly emphasize the place of human dignity The book engages with both theory and practice and how these ethical ideas impact upon the actual lived experience of Africans It also includes important political considerations such as the impact of imperialism colonialism and capitalism on African ethics as well as the negative impact of apartheid and the renaissance made possible by the The Truth and Reconciliation Commission whose work was premised heavily on African ethical ideas This book is not just a wide ranging and incisive introduction but also a reformulation of key concepts and current debates in African ethics Crucially African Ethics is an inclusive text one that speaks from an African perspective and contributes to the decolonizing of contemporary ethics

Africana Critical Theory Reiland Rabaka,2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois s Dialectics Reiland Rabaka s Africana Critical Theory innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du Bois s rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aime Cesaire and Leopold Senghor Frantz Fanon and Amilcar Cabral Africana Critical Theory endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures collective thought and texts clearly cuts across several disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers

that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in Africana Critical Theory contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy

Normative Justification of a Global Ethic Uchenna B. Okeja, 2013 The focus of this book is the normativity of global ethic Over the years different cultures and civilizations have been brought closer than never before by globalization This trend has both its negative and positive dimensions Overall the main problem of this present trend of societal organization and human interaction called globalization is a moral issue namely the question how should we treat one another Okeja's global ethic seeks to answer this question It underscores that we should treat one another in our current age of globalization in accordance with the Golden Rule principle The suggestion of this ethic is therefore that we should not treat others the way we would not want to be treated This sounds simple enough The problem however is that it is not exactly clear what this principle of moral conduct would suggest in both simple and complex moral situations Most importantly it is not clear why it is reasonable to treat people the way we would not want to be treated Why in other words should we act in accordance with the Golden Rule principle What is the justification of the demand the Golden Rule makes on us This book answers these and other questions about the normative plausibility of the Golden Rule and thus global ethic from the comparative perspective of ethics in African philosophy It analyzes three stages of the possible normative justification of the moral imperative of global ethic and proposes a deliberative form of justification

Philosophical Perspectives on Existential Gratitude Joshua Lee Harris, Kirk Loughheed, Neal DeRoo, 2023-03-23 Existential gratitude gratitude for one's very existence or life as a whole is pervasive across the most influential human cultural and religious traditions Weaving together analytic and continental as well as non-western and historical philosophical perspectives this volume explores the nexus of gratitude existence and God as an intersubjective phenomenon for the first time A team of leading scholars introduce existential gratitude as a perennially and characteristically human phenomenon central to the distinctive life of our species Attention is given to the conditions under which existence itself might be construed as having a gift-like or otherwise gratitude-inducing character Drawing on a diversity of perspectives chapters mark out new territory in philosophical inquiry addressing whether and in what sense we ought to be grateful for our very existence By analysing gratitude this collection makes a novel contribution to the discourse on moral emotions phenomenology anti-natalism and theology

The Palgrave Handbook of African Education and Indigenous Knowledge Jamaine M. Abidogun, Toyin Falola, 2020-06-02 This handbook explores the evolution of African education in historical perspectives as well as the development within its three systems Indigenous Islamic and Western education models and how African societies have maintained and changed their approaches to education within and across

these systems African education continues to find itself at once preserving its knowledge while integrating Islamic and Western aspects in order to compete within this global reality Contributors take up issues and themes of the positioning resistance accommodation and transformations of indigenous education in relationship to the introduction of Islamic and later Western education Issues and themes raised acknowledge the contemporary development and positioning of indigenous education within African societies and provide understanding of how indigenous education works within individual societies and national frameworks as an essential part of African contemporary society **The Garland Handbook of African**

Dei,Dionisio Nyaga,Juliana

Kami,2025-04-09 This thought provoking book outlines the pedagogical value of African storytelling It demonstrates that African wisdom has historically been part of violent colonial elimination leading to the ontological expendability of these stories and them being excluded forgotten and devalued in academic circles **International Handbook of Urban**

Education William T. Pink,George W. Noblit,2008-09-03 It is evident that urban education has become the central focus of educators at the present time In the U S for example almost one third of all school age children attend schools in large urban school districts It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic What has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea Rather we have discovered that the local context shapes in critically important ways what will be effective at the school level The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the International Handbook of Urban Education An important focus of the International Handbook of Urban Education will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region An important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education
