Revenge Of The Past:

The Revenge of the Past Ronald Suny, 1993-12-01 This timely work shows how and why the dramatic collapse of the Soviet Union was caused in large part by nationalism Unified in their hostility to the Kremlin's authority the fifteen constituent Union Republics including the Russian Republic declared their sovereignty and began to build state institutions of their own The book has a dual purpose The first is to explore the formation of nations within the Soviet Union the policies of the Soviet Union toward non Russian peoples and the ultimate contradictions between those policies and the development of nations The second more general purpose is to show how nations have grown in the twentieth century The principle of nationality that buried the Soviet Union and destroyed its empire in Eastern Europe continues to shape and reshape the configuration of states and political movements among the new independent countries of the vast East European Eurasian region

The Revenge of the Past Ronald Suny, 1990 **Handbook of Japanese Media and Popular Culture in Transition** Forum Mithani, Griseldis Kirsch, 2025-10-01 The Handbook of Japanese Media and Popular Culture in Transition brings together new research and perspectives on popular media phenomena as well as shining a spotlight on texts that are less well known or studied Organized into five thematic sections the chapters span a diverse range of cultural genres including contemporary film and television postwar cinema advertising popular fiction men's magazines manga and anime karaoke and digital media They address issues critical to contemporary Japanese society the politicization of history authenticity and representation constructions of identity trauma and social disaffection intersectionality and trans nationalism Drawing on methods and approaches from a range of disciplines the chapters make explicit the interconnections between these areas of research and map out possible trajectories for future inquiry As such the handbook will be of value to both novice scholars and seasoned researchers working within and or beyond the Japanese media studies remit

Incitement on Trial Richard Ashby Wilson, 2017-08-18 International and national armed conflicts are usually preceded by a media campaign in which public figures foment ethnic national racial or religious hatred inciting listeners to acts of violence Incitement on Trial evaluates the efforts of international criminal tribunals to hold such inciters criminally responsible This is an unsettled area of international criminal law and prosecutors have often struggled to demonstrate a causal connection between speech acts and subsequent crimes This book identifies revenge speech as the type of rhetoric with the greatest effects on empathy and tolerance for violence Wilson argues that inciting speech should be handled under the preventative doctrine of inchoate crimes but that once international crimes have been committed then ordering and complicity are the most appropriate forms of criminal liability Based in extensive original research this book proposes an evidence based risk assessment model for monitoring political speech

The Lay Preacher, 1877 *Selections from the Letters, Despatches, and Other State Papers Preserved in the Bombay Secretariat* Sir George Forrest, Bombay (Presidency). Secretariat, 1885 Vindicating Vengeance and Violence? Elisabet Nord, 2023-11-22 Psalms that seem to vindicate

vengeance and violence are generally omitted from liturgy as exemplified in most breviaries used by worshipping communities around the world Although seldom read the so called cursing psalms are known to many as their imprecatory passages pose challenges for readers who wish to use the entire Book of Psalms as their book of prayer Because passages that call for vengeance and violence are present throughout the psalm collection and often intertwined with the most exquisite things as noted by C S Lewis both liturgists and laypeople need to find substantial hermeneutical strategies that can help answer what to make of imprecatory passages But despite the ample exegetical advice made available through commentary literature past and present worshippers are stuck at a point of convergence between exegetical support and liturgical rejection Through the process of metacommentary on Psalms 58 109 137 and 139 Elisabet Nord identifies three popular and generic hermeneutical approaches often applied to cursing psalms including the tacit preconceived notions of these prominent approaches The latter helps to uncover the liturgical relevance and sometimes lack thereof of scholarly advice on how to interpret and navigate psalms calling for vengeance and violence as prayers
