Rigged Rules and Double Standards Kevin Watkins, Penny Fowler, 2002 A critical and detailed analysis of inequalities of world trade systems **Globalization** Greg Buckman, 2013-04-04 This book gives the lie to the claim that globalization is irreversible and irresistible Greg Buckman argues there are two broad approaches within the anti globalization movement explaining the details of each school s outlook their weaknesses where they disagree their common ground and where they might come together in campaigns **Rigged Rules and Double Standards** Oxfam International, 2002 *Poverty and the International Economic Legal System* Krista Nadakavukaren Schefer, 2013-03-21 With a focus on how trade foreign investment commercial arbitration and financial regulation rules affect impoverished individuals Poverty and the International Economic Legal System examines the relationship between the legal rules of the international economic law system and states obligations to reduce poverty The contributors include leading practitioners practice oriented scholars and legal theorists who discuss the human aspects of global economic activity without resorting to either overly dogmatic human rights approaches or technocratic economic views The essays extend beyond development discussions by encouraging further efforts to study improve and develop legal mechanisms for the benefit of the world s poor and challenging traditionally de personified legal areas to engage with their real world impacts **Human Rights and Business** Denise Wallace, 2014-11-27 This book addresses the ever more urgent question as to whether individuals indigenous peoples or other vulnerable groups should be entitled to remedies under international law for violations of their human rights by transnational corporations Using the tools of policy oriented jurisprudence the author analyzes in great historical and cross cultural detail the various claims involved including the status of corporations and their purpose and growth beyond borders in the era of globalization countervailing demands for respect and rights of individuals and groups the changing role of the nation state in international law movements for corporate social responsibility and corporate accountability trends in decision both domestically and internationally as well as voluntary codes Her appraisal of past decisions and suggestions leads her to conclude that only binding international legal remedies against transnational corporations can fully address the legitimate claims of individuals or groups *Rigged Rules and Double Standards* Oxfam, 2002 Globalizing Resistance François Polet, CETRI, 2004-09-20 From Bolivia to New Zealand from South Africa to Russia and China this is a round the world tour of resistance to neoliberalism The anti globalization movement is truly global each region has its own specific groups and agendas this book presents writers and activists from every continent to provide a truly international view of alternative social and political struggles Struggles against capitalism privatisation social exclusion and exploitation are mobilising many thousands This book examines what has been achieved so far The authors examine the World Social Forums as a dynamic for moving things forward They explore the global anti war movement and the successful mobilisation for the protests of 15th February 2003 they analyse new media strategies and they offer a disturbing account on new police

arrangements to control demonstrators Edited by Francois Polet who is a member of the Tricontinental Centre and the World Forum for Alternatives a group that plays a prominent role in the World Social Forums the book includes contributions from Donatella della Porta Boaventura de Sousa Santos Verity Burgmann Paola Manduca and Bernard Dreano **Food and Globalization** Alexander Nuetzenadel, Frank Trentmann, 2008-05-01 Food has a special significance in the expanding field of global history Food markets were the first to become globally integrated linking distant cultures of the world and in no other area have the interactions between global exchange and local cultural practices been as pronounced as in changing food cultures In this wide ranging and fascinating book the authors provide an historical overview of the relationship between food and globalization in the modern world Together the chapters of this book provide a fresh perspective on both global history and food studies As such this book will be of interest to a wide range of students and scholars of history food studies sociology anthropology and globalization **Trade, Poverty and The Environment** Adrian Flint, 2008-04-01 In 2000 the European Union and its 78 African Caribbean Pacific partners signed the Cotonou Agreement heralding a new era in developmental politics This comprehensive book draws attention to the limitations in the EU s approach to implementing pro poor environmentally sustainable development amongst its African Caribbean Pacific partners **Environmental Education and Awareness - Volume I** Bhaskar Nath, 2009-09-23 Environmental Education and Awareness is a component of Encyclopedia of Human Resources Policy Development and Management which is part of the global Encyclopedia of Life Support Systems EOLSS an integrated compendium of twenty one Encyclopedias The Theme is organized into seven different topics which represent the main scientific areas of the theme The first topic Formal Environmental Education at Preschool Primary and Secondary Levels important issues of children s formal environmental education are discussed in this topic considering that as future adults today s children are more likely than not to make adverse impacts on the natural environment and earth s life support systems through their behavior life styles and attitude the importance of formal environmental education for children as well as of instilling in their consciousness awareness of the natural environment and respect for it cannot be over stated The succeeding six topics are Formal Environmental Education at the Undergraduate Level Formal Environmental Education at the Graduate Level Modern and Innovative Techniques for Environmental Education Professional Environmental Education Continuing Education The Voluntary Sector and Initiatives in Environmental Education Each of these consists of a topic chapter emphasizing the general aspects and various subject articles explaining the back ground theory and practice of a specific type of environmental education and awareness for achieving global sustainable development and global environmental sustainability that are now at the top of international environmental agenda These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs **Governing the Poor** Suzan Ilcan, Anita Lacey, 2011-03-14 Every day we are barraged by statistics images and

emotional messages that present poverty as a problem to be quantified managed and solved Global generations present the poor as a heterogeneous group and stress globalized solutions to the problem of poverty Governing the Poor exposes the ways in which such generalized descriptions and quantifications marginalize the poor and their experiences Surviving the Century Herbert Girardet, 2012-05-23 The combined analysis presented here of why current arrangements are failing the future and clear insights of the way to go offer us hope Mary Robinson President of Realising Rights Ethical Globalisation Initiative and former President of Ireland and United Nations High Commissioner for Human Rights Environmental and human catastrophe looms ever larger for planet Earth Powerful action is required now to turn a deepening global crisis into an unprecedented opportunity for positive change This book shows how a dramatic transformation of how humans relate to the Earth and to one another can be achieved Surviving the Century is the first major publication by the World Future Council WFC a new international voice for future generations Reflecting the positive mission of the WFC each chapter addresses a different critical issue in a systematic and constructive way describing and analysing the topic before indicating real solutions The eight main issues covered are countering climate chaos renewable energy policy local farming systems rainforests and climate change creating sustainable cities cradle to cradle production systems a radical vision for trade and creating a living democracy Surviving the Century is a must have primer and action plan for all leaders in government business and NGOs and for all who want to be part of the historic opportunity to provide solutions to the greatest challenge humanity has ever faced Published with the World Future Council

Organization Theory and Transnational Social Movements Kleber Bertrand Ghimire, 2011-04-08 Placing it within the theoretical perspectives and debates in Organizational Theory OT this book explores the organizational design and internal functioning of a rather emblematic and widely acclaimed transnational social organization the alternative globalization movement previously anti globalization movement The issue of power in particular remains the central feature of the book Based on a detailed study of two of the movement's essential constituents transnational campaigns and the World Social Forum the book examines the complexity in which certain forms of internal relations or mechanisms of power emerge In other words how is the organizational hierarchy conceived and how are important responsibilities executed What are the principal modes of authority and control What are the priorities and motives of the leading individuals and groups within the movement Furthermore what makes certain echelons groups or individuals wield more influence and authority than others and also justify their legitimacy through diverse means These questions are especially valid owing to the movement's proper interpretation of power which considers the concentration of power as totally unacceptable The movement draws lessons from the history of social changes to suggest that political parties and labour movements tended to give rise to the seizure of power by a few a heavy bureaucracy and the lack of transparency Logically then a new organizational vision should emerge avoiding hierarchies and encouraging a more diffused process of power sharing However an informal manner of functioning has instead created many ambiguities

with new sets of interests and power relations gradually becoming manifest within the movement All carefully considered the book draws three principal conclusions first an informal organization structure does not mean that there is an absence of power second the exercise of power takes place while denying it and third there is seemingly a lack of internal resistance

The Law and Policy of the World Trade Organization Peter Van den Bossche, Werner Zdouc, 2013-08-08 This thoroughly updated new edition of the classic market leading textbook is required reading for all students of WTO law

French NGOs in the Global Era G. Cumming, 2008-11-14 This book provides a systematic account of the changing priorities procedures and practices of French NGOs active in overseas development work It explores whether French NGOs are eschewing wider trends in the Northern NGO sector and uses Resource Dependence theory and a case study of NGO field work in Cameroon to shed light on these actors

The Ethics of What We Eat Peter Singer, Jim Mason, 2007-03-20 Peter Singer the groundbreaking ethicist whom The New Yorker calls the most influential philosopher alive teams up again with Jim Mason his coauthor on the acclaimed *Animal Factories* to set their critical sights on the food we buy and eat where it comes from how it is produced and whether it was raised humanely The Ethics of What We Eat explores the impact our food choices have on humans animals and the environment Recognizing that not all of us will become vegetarians Singer and Mason offer ways to make healthful humane food choices As they point out You can be ethical without being fanatical

Justice Globalism Manfred Steger, James Goodman, Erin K Wilson, 2012-12-18 Are political activists connected to the global justice movement simplistically opposed to neoliberal globalization Is their political vision incoherent and their policy proposals naive and superficial as is often claimed by the mainstream media Drawing on dozens of interviews and rich textual analyses involving nearly fifty global justice organizations linked to the World Social Forum the authors of this pioneering study challenge this prevailing view They present a compelling case that the global justice movement has actually fashioned a new political ideology with global reach justice globalism Far from being incoherent justice globalism possesses a rich and nuanced set of core concepts and powerful ideological claims The book investigates how justice globalists respond to global financial crises to escalating climate change and to the global food crisis It finds justice globalism generating new political agendas and campaigns to address these pressing problems Justice globalism the book concludes has much to contribute to solving the

serious global challenges of the 21st century Justice Globalism will prove a stimulating read for undergraduate and graduate students in the social sciences and humanities who are taking courses on globalization global studies and global justice

The Right to Development in Africa Carol Chi Ngang, 2021-10-18 In *The Right to Development in Africa* Carol Chi Ngang provides a conceptual analysis of the human right to development with a decolonial critique of the requirement to have recourse to development cooperation as a mechanism for its realisation In his argumentation the setbacks to development in Africa are not necessarily caused by the absence of development assistance but principally as a result of the lack of an operational model to steer the processes for development towards the highest attainable standard of living for the peoples of Africa Basing on the decolonial and capability theories he posits for a shift in development thinking from dependence on development assistance to an alternative model suited to Africa which he defines as the right to development governance

Global Trade Greg Buckman, 2013-04-04 Trade along with the free movement of capital is at the heart of today's international economy But international trade is an intensely political and contested subject In this book Greg Buckman details possible future directions in global energy supplies and balance of payments imbalances He argues that just as current trading arrangements have been the product of past decisions emerging out of apparently unrelated considerations so factors like future fossil fuel costs global warming and the economic imbalances between North and South are likely to impel a radical reshaping of the WTO and the principles enshrined in its agreements as well as the global trading system in general A key contribution to thinking about possible trade policy reforms are the reforms and alternatives themselves not always agreed or sufficiently thought through advocated by the global justice movement This book outlines these diverse proposals to make global trade more sustainable in some detail This book has been written to be both informative and empowering It is an important contribution to clearer thinking more effective campaigning and fundamental policy reform in the field of international trade
