Safe Among The Germans Liberated Jews After World War II:

Safe Among the Germans Ruth Gay, 2002 Telling the little known story of why a quarter million Jews survivors of death camps and forced labor sought refuge in Germany after World War II Gay examines the contrasting lives of Jews in the two postwar Germanies Illustrations **Jews, Germans, and Allies** Atina Grossmann, 2009-08-10 In the immediate aftermath of World War II more than a quarter million Jewish survivors of the Holocaust lived among their defeated persecutors in the chaotic society of Allied occupied Germany Jews Germans and Allies draws upon the wealth of diary and memoir literature by the people who lived through postwar reconstruction to trace the conflicting ways Jews and Germans defined their own victimization and survival comprehended the trauma of war and genocide and struggled to rebuild their lives In gripping and unforgettable detail Atina Grossmann describes Berlin in the days following Germany's surrender the mass rape of German women by the Red Army the liberated slave laborers and homecoming soldiers returning political exiles Jews emerging from hiding and ethnic German refugees fleeing the East She chronicles the hunger disease and homelessness the fraternization with Allied occupiers and the complexities of navigating a world where the commonplace mingled with the horrific Grossmann untangles the stories of Jewish survivors inside and outside the displaced persons camps of the American zone as they built families and reconstructed identities while awaiting emigration to Palestine or the United States She examines how Germans and Jews interacted and competed for Allied favor benefits and victim status and how they sought to restore normality in work in their relationships and in their everyday encounters Jews Germans and Allies shows how Jews were integral participants in postwar Germany and bridges the divide that still exists today between German history and Jewish studies **Our Courage - Jews in Europe 1945-48** Kata Bohus, Atina Grossmann, Werner Hanak, Mirjam Wenzel, 2020-09-23 After the Shoah Jewish survivors actively took control of their destiny Despite catastrophic and hostile circumstances they built networks and communities fought for justice and documented Nazi crimes The essays illustrations and portraits of people and places contained in this volume are informed by a pan European perspective The book accompanies the first special exhibition at the re opened Jewish Museum in Frankfurt German edition **Collect and Record!** Laura Jockusch, 2012-09-20 This book describes the vibrant activity of survivors who founded Jewish historical commissions and documentation centers in Europe immediately after the Second World War In the first postwar decade these initiatives collected thousands of Nazi documents along with testimonies memoirs diaries songs poems and artifacts of Jewish victims They pioneered in developing a Holocaust historiography that placed the experiences of Jews at the center and used both victim and perpetrator sources to describe the social economic and cultural aspects of the everyday life and death of European Jews under the Nazi regime This book is the first in depth monograph on these survivor historians and the organizations they created A comparative analysis it focuses on France Poland Germany Austria and Italy analyzing the motivations and rationales that guided survivors in chronicling the destruction they had witnessed while also discussing their

research techniques archival collections and historical publications It reflects growing attention to survivor testimony and to the active roles of survivors in rebuilding their postwar lives It also discusses the role of documenting testifying and history writing in processes of memory formation rehabilitation and coping with trauma Jockusch finds that despite differences in background and wartime experiences between the predominantly amateur historians who created the commissions the activists found documenting the Holocaust to be a moral imperative after the war the obligation of the dead to the living and a means for the survivors to understand and process their recent trauma and loss Furthermore historical documentation was vital in the pursuit of postwar justice and was deemed essential in counteracting efforts on the part of the Nazis to erase their wartime crimes The survivors who created the historical commissions were the first people to study the development of Nazi policy towards the Jews and also to document Jewish responses to persecution a topic that was largely ignored by later generations of Holocaust scholars

Shattered Spaces Michael Meng, 2011-11-29 After the Holocaust the empty silent spaces of bombed out synagogues cemeteries and Jewish districts were all that was left in many German and Polish cities with prewar histories rich in the sights and sounds of Jewish life What happened to this scarred landscape after the war and how have Germans Poles and Jews encountered these ruins over the past sixty years In the postwar period city officials swept away many sites despite protests from Jewish leaders But in the late 1970s church groups local residents political dissidents and tourists demanded the preservation of the few ruins still standing Since the collapse of the Soviet Union in 1989 this desire to preserve and restore has grown stronger In one of the most striking and little studied shifts in postwar European history the traces of a long neglected Jewish past have gradually been recovered thanks to the rise of heritage tourism nostalgia for ruins international discussions about the Holocaust and a pervasive longing for cosmopolitanism in a globalizing world Examining this transformation from both sides of the Iron Curtain Michael Meng finds no divided memory along West East lines but rather a shared memory of tensions and paradoxes that crosses borders throughout Central Europe His narrative reveals the changing dynamics of the local and the transnational as Germans Poles Americans and Israelis confront a built environment that is inevitably altered with the passage of time *Shattered Spaces* exemplifies urban history at its best uncovering a surprising and moving postwar story of broad contemporary interest

Transcending Dystopia Tina Frühauf, 2021-01-01 By the end of the Second World War Germany was in ruins and its Jewish population so gravely diminished that a rich cultural life seemed unthinkable And yet as surviving Jews returned from hiding the camps and their exiles abroad so did their music *Transcending Dystopia* tells the story of the remarkable revival of Jewish musical activity that developed in postwar Germany against all odds Author Tina Frühauf provides a kaleidoscopic panorama of musical practices in worship and social life across the country to illuminate how music contributed to transitions and transformations within and beyond Jewish communities in the aftermath of the Holocaust Drawing on newly unearthed sources from archives and private collections this book covers a wide spectrum of musical activity from its role in commemorations and community

events to synagogue concerts and its presence on the radio across the divided Germany until the Fall of the Wall in 1989. Fr hauf's use of mobility as a conceptual framework reveals the myriad ways in which the reemergence of Jewish music in Germany was shaped by cultural transfer and exchange that often relied on the circulation of musicians, their ideas and practices within and between communities. By illuminating the centrality of mobility to Jewish experiences and highlighting how postwar Jewish musical practices in Germany were defined by politics that reached across national borders to the United States and Israel, this pioneering study makes a major contribution to our understanding of Jewish life and culture in a transnational context.

State and Minorities in Communist East Germany Mike Dennis, Norman LaPorte, 2011-08-01
Based on interviews and the voluminous materials in the archives of the SED, the Stasi and central and regional authorities, this volume focuses on several contrasting minorities: Jehovah's Witnesses, Jews, guest workers from Vietnam and Mozambique, football fans, punks and skinheads, and their interaction with state and party bodies during Erich Honecker's rule over the communist system. It explores how they were able to resist persecution and surveillance by instruments of the state, thus illustrating the limits on the power of the East German dictatorship and shedding light on the notion of authority as social practice.

The Liberation of the Camps Dan Stone, 2015-05-19
A moving, deeply researched account of survivors' experiences of liberation from Nazi death camps and the long, difficult years that followed. When tortured inmates of Hitler's concentration and extermination camps were liberated in 1944 and 1945, the horror of the atrocities came fully to light. It was easy for others to imagine the joyful relief of freed prisoners, yet for those who had survived, the experience of liberation was a slow, grueling journey back to life. In this unprecedented inquiry into the days, months, and years following the arrival of Allied forces at the Nazi camps, a foremost historian of the Holocaust draws on archival sources and especially on eyewitness testimonies to reveal the complex challenges liberated victims faced and the daunting tasks their liberators undertook to help them reclaim their shattered lives. Historian Dan Stone focuses on the survivors: their feelings of guilt, exhaustion, fear, shame for having survived, and devastating grief for lost family members; their immense medical problems and their later demands to be released from Displaced Persons camps and resettled in countries of their own choosing. Stone also tracks the efforts of British, American, Canadian, and Russian liberators as they contended with survivors' immediate needs, then grappled with longer-term issues that shaped the postwar world and ushered in the first chill of the Cold War years ahead.

Homes Away from Home Sarah Wobick-Segev, 2018-09-11
How did Jews go from lives organized by synagogues, shul, and mikvehs to lives that, if explicitly Jewish at all, were conducted in Hillel houses, JCCs, Katz's, and even Chabad? In pre-emancipation Europe, most Jews followed Jewish law most of the time, but by the turn of the twentieth century, a new secular Jewish identity had begun to take shape. *Homes Away From Home* tells the story of Ashkenazi Jews as they made their way in European society in the late nineteenth and twentieth centuries, focusing on the Jewish communities of Paris, Berlin, and St. Petersburg. At a time of growing political enfranchisement for Jews within European nations, membership

in the official Jewish community became increasingly optional and Jews in turn created spaces and programs to meet new social needs. The contexts of Jewish life expanded beyond the confines of traditional Jewish spaces into sites of consumption and leisure, sometimes to the consternation of Jewish authorities. Sarah Wobick Segev argues that the social practices that developed between 1890 and the 1930s such as celebrating holidays at hotels and restaurants or sending children to summer camp fundamentally reshaped Jewish community, redefining and extending the boundaries of where Jewishness happened.

Eli's Story Meri-Jane Rochelson, 2018-08-06. Biography of a Jewish doctor who survived and triumphed over the horrors of the Holocaust. *Eli's Story: A Twentieth Century Jewish Life* is first and foremost a biography. Its subject is Eli G. Rochelson, MD, 1907-1984, author Meri-Jane Rochelson's father. At its core is Eli's story in his own words, taken from an interview he did with his son Burt Rochelson in the mid-1970s. The book tells the story of a man whose life and memory spanned two world wars, several migrations, an educational odyssey, the massive upheaval of the Holocaust, and finally a frustrating yet ultimately successful effort to restore his professional credentials and identity as well as reestablish family life. *Eli's Story* contains a mostly chronological narration that embeds the story in the context of further research. It begins with Eli's earliest memories of childhood in Kovno and ends with his death, his legacy, and the author's own unanswered questions that are as much a part of Eli's story as his own words. The narrative is illuminated and expanded through Eli's personal archive of papers, letters, and photographs, as well as research in institutional archives, libraries, and personal interviews. Rochelson covers Eli's family's relocation to southern Russia, his education, military service, and first marriage after he returned to Kovno, his and his family's experiences in the Dachau, Stutthof, and Auschwitz concentration camps, including the deaths of his wife and child, his postwar experience in the Landsberg Displaced Persons (DP) camp, and his immigration to the United States where he determinedly restored his medical credentials and started a new family. Rochelson recognizes that both the effort of reconstructing events and the reality of having personal accounts that confirm and also differ from each other in detail make the process of gap filling itself a kind of fiction, an attempt to shape the incompleteness that is inherent to the story. In the epilogue, the author reminds readers that the stories of lives don't have clear chronologies. They go off in many directions and in some ways they never end. An earlier reviewer said of the book *Eli's Story* combines the care of a scholar with the care of a daughter. Both scholars and general readers interested in Holocaust narratives will be moved by this monograph.

The Wonder of Their Voices Alan Rosen, 2010-11-04. Over the last several decades, video testimony with aging Holocaust survivors has brought these witnesses into the limelight. Yet the success of these projects has made it seem that little survivor testimony took place in earlier years. In truth, thousands of survivors began to recount their experience at the earliest opportunity. This book provides the first full-length case study of early postwar Holocaust testimony, focusing on David Boder's 1946 displaced persons interview project. In July 1946, Boder, a psychologist, traveled to Europe to interview victims of the Holocaust who were in the Displaced Persons (DP) camps and what he called shelter houses. During his nine

weeks in Europe Boder carried out approximately 130 interviews in nine languages and recorded them on a wire recorder. Likely the earliest audio recorded testimony of Holocaust survivors, the interviews are valuable today for the spoken word that of the DP narrators and of Boder himself and also for the song sessions and religious services that Boder recorded. Eighty sessions were eventually transcribed into English, most of which were included in a self-published manuscript. Alan Rosen sets Boder's project in the context of the postwar response to displaced persons, sketches the dramatic background of his previous life and work, chronicles in detail the evolving process of interviewing both Jewish and non-Jewish DPs, and examines from several angles the implications for the history of Holocaust testimony. Such early postwar testimony, Rosen avers, deserves to be taken on its own terms rather than to be enfolded into earlier or later schemas of testimony. Moreover, Boder's efforts and the support he was given for them demonstrate that American postwar response to the Holocaust was not universally indifferent but rather often engaged, concerned, and resourceful. *The Disentanglement of Populations*. J. Reinisch, E. White, 2011-01-26. An examination of population movements both forced and voluntary within the broader context of Europe in the aftermath of the Second World War in both Western and Eastern Europe. The authors bring to life problems of war and post-war chaos and assess lasting social, political, and demographic consequences.

Gender and Civilian Victimization in War Jessica L. Peet, Laura Sjoberg, 2019-11-25. This book explores the role of gender in influencing war-fighting actors' strategies toward the attack or protection of civilians. Traditional narratives suggest that killing civilians intentionally in wars happens infrequently and that the perpetration of civilian targeting is limited to aberrant actors. Recently, scholars have shown that both state and non-state actors target civilians even while explicitly deferring to the civilian immunity principle. This book fills a gap in the accounts of how civilian targeting happens and shows that these actors are in large part targeting women rather than some gender-neutral understanding of civilians. It presents a history of civilian victimization in wars and conflicts and then lays out a feminist theoretical approach to understanding civilian victimization. It explores the British Blockade of Germany in World War I, the Soviet Rape of Berlin in World War II, the Rwandan genocide, and the contemporary conflict in northeast Nigeria. Across these case studies, the authors lay out that gender is key to how war-fighting actors understand both themselves and their opponents and therefore plays a role in shaping strategic and tactical choices. It makes the argument that seeing women in nationalist and war narratives is crucial to understanding when and how civilians come to be targeted in wars and how that targeting can be reduced. This book will be of much interest to students of critical security, gender studies, war studies, and International Relations in general.

Russian-Speaking Jews in Germany's Jewish Communities, 1990-2005 Joseph Cronin, 2019-10-29. This book explores the transformative impact that the immigration of large numbers of Jews from the former Soviet Union to Germany had on Jewish communities from 1990 to 2005. It focuses on four points of tension and conflict between existing community members and new Russian-speaking arrivals. These raised the fundamental questions: who should count as a Jew? how should Jews in Germany relate to

the Holocaust and who should the communities represent By analyzing a wide range of source material including Jewish and German newspapers Bundestag debates and the opinions of some prominent Jewish commentators Joseph Cronin investigates how such conflicts arose within Jewish communities and the measures taken to deal with them This book provides a unique insight into a Jewish population little understood outside Germany but whose significance in the post Holocaust world cannot be underestimated **Beyond Violence** Anna Cichopek-Gajraj,2014-06-19 A unique perspective that goes beyond violence to compare the daily experiences of Holocaust survivors returning to Poland and Slovakia
