Safe Sex In The Age Of Aids For Men And Women:

Birth in the Age of AIDS Cecilia Van Hollen, 2013-04-03 *Birth in the Age of AIDS* is a vivid and poignant portrayal of the experiences of HIV positive women in India during pregnancy birth and motherhood at the beginning of the 21st century. The government of India together with global health organizations established an important public health initiative to prevent HIV transmission from mother to child. While this program which targets poor women attending public maternity hospitals has improved health outcomes for infants it has resulted in sometimes devastatingly negative consequences for poor young mothers because these women are being tested for HIV in far greater numbers than their male spouses and are often blamed for bringing this highly stigmatized disease into the family. Based on research conducted by the author in India this book chronicles the experiences of women from the point of their decisions about whether to accept HIV testing through their decisions about whether or not to continue with the birth if they test HIV positive their birthing experiences in hospitals decisions and practices surrounding breast feeding vs bottle feeding and their hopes and fears for the future of their children.

The Gender Politics of HIV/AIDS in Women Nancy Goldstein, Jennifer L Manlowe, 1997-06 From their posts at the center of the pandemic in the laboratory the academy clinics and community based organizations experts such as Evelyn Hammonds Risa Denenberg Michelle Murrain and Paul Farmer criticize blind spots in the recognition and treatment of HIV in women and articulate accessible and practical solutions to specific areas of difficulty. *Safe Sex in the Age of AIDS*, 1986

AIDS and the Body Politic Catherine Waldby, 2003-09-02 Catherine Waldby's informative study draws on feminist theory cultural studies the philosophy of science and gay and lesbian studies to problematise the factual scientific discourse about AIDS and interpret it as a political discourse. Waldby argues that much AIDS discourse relies on an implicit and unconscious equation between sexual health and heterosexual masculinity. In this equation between women bisexual and gay men are the targets of preventative programmes while heterosexual men tend to remain unaddressed by such programmes. **AIDS in the World II** Global AIDS Policy Coalition, 1996 *AIDS in the World Vol 1* published in 1992 was the first full analysis of mankind's global confrontation with this disease. The AIDS scene however has been changing so rapidly that the need for a second volume was felt much earlier than expected. In *AIDS in the World II* the authors extend the international comparisons from 38 countries to the entire world and show that the AIDS pandemic has become increasingly fragmented within the world population. They present data that takes the discussion beyond the current understanding of the vulnerability of nations and communities to the worldwide spread of HIV engaging in a detailed exploration of the social strategies that have enabled individuals to avoid infection. Mann and Tarantola chart a course into the future based on an incisive investigation of the global pandemic and response the crucial lessons learned from the first decade and their expert understanding of the scientific and social dimensions of the HIV challenge. The authors explain how the variety of reactions to the pandemic has contributed to a more advanced awareness of our vulnerability to HIV AIDS and offer a blueprint for an expanded global

prevention effort Intended to serve the information needs of all professionals involved in AIDS research and care this volume's accessibility and clarity of writing make it highly suitable for the general reader as well **The Link between**

Masculinity, Alcohol and HIV/Aids in Malawi Norwegian Church Aid,2016-04-30 It is common knowledge that HIV is widespread in Malawi as it is in many other countries of Southern Africa It is also a well known fact that women suffer most and frequently are blamed the most Many attempts are being made to address the pandemic and reduce the suffering and often women are the focus This book differs in that it looks at the other side men It contends that men have to play a major role in the fight not only by changing behaviour but also by understanding concepts of masculinity and that women may also profit from that AIDS in Maine Maine. Dept. of Human Services,1990 African Women's Unique Vulnerabilities to HIV/AIDS L. Fuller,2008-10-27 This is an in depth look at the biomedical socio cultural economic legal and political and educational vulnerabilities faced by the population that is most vulnerable to the risk of contracting HIV AIDS African women

Gilbert,Ednita M. Wright,2003-03-30 AIDS is the second leading cause of death among African American women between the ages of 18 and 44 African American women constitute 63% of all cases of AIDS among women in the United States This volume brings together the collective wisdom of scholars researchers and social work professionals dealing with these concerns Focusing attention on the primary population of women impacted by AIDS this book presents culturally sensitive responses that meet the specific needs of African American women An historical and current overview of the alarming HIV infection rate among African Americans in particular women introduces the crisis Subsequent chapters highlight HIV AIDS prevention and intervention strategies that are successfully impacting the African American population Guided by a feminist perspective and grounded in social construction theory social work theory and social work practice this volume privileges the voice of African American women the group that is the most disenfranchised and least accurately represented in AIDS related research and writing This essential guide sheds light on a calamity too often overlooked making it especially valuable for scholars students researchers and practitioners involved with HIV AIDS issues in the African American community and with women's and black studies *Encyclopedia of Lesbian and Gay Histories and Cultures* Bonnie Zimmerman,George

Haggerty,2021-06-13 A rich heritage that needs to be documented Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking A groundbreaking new approach While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written for and by a widerange of people Intended as a reference for students and scholars in all fields as well as for the general public the encyclopedia is written in user friendly language At the same time it maintains a high level of scholarship that incorporates both passion and objectivity It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future *Social and Psychological Aspects of HIV/AIDS and their Ramifications* Gobopamang Letamo,2011-10-26 This book has assembled an array of chapters on the social and psychosocial aspects of HIV AIDS and their impact on HIV AIDS and related behaviours The book addresses key areas of HIV and AIDS including but not in any way limited to care seeking behaviour adherence access psychosocial needs and support services discrimination and the impact the epidemic has on various sectors of the economy The book has seventeen chapters seven chapters deal with social aspects of HIV AIDS four with psychosocial aspects of HIV AIDS and the remaining six chapters with the impact of social and psychosocial factors on HIV AIDS and related behaviours The book is an essential reading for academics students and other people interested in the field of HIV and AIDS **HIV and Aging** M. Brennan-Ing,R.F. DeMarco,2016-11-22 Despite decades of attention on building a global HIV research and programming agenda HIV in older populations has generally been neglected until recently This new book focuses on HIV and aging in the context of ageism with regard to prevention treatment guidelines funding and the engagement of communities and health and social service organizations The lack of perceived HIV risk in late adulthood among older people themselves as well on the part of providers and society in general has led to a lack of investment in education testing and programmatic responses Ageism perpetuates the invisibility of older adults and in turn renders current medical and social service systems unprepared to respond to patients needs While ageism may lead to some advantages discounts for services for example it is the negative aspects that must be addressed when determining the appropriate community level response to the epidemic **The Other Half of Gender** Ian Bannon,Maria Correia,2006-01-01 This book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts drawing from experiences in Latin America the Caribbean and sub Saharan Africa It

draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon Although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

AIDS: Activism and Alliances Peter Aggleton, Peter Davis, Graham Hart, 2003-09-02 This book brings together specially selected papers addressing themes discussed at the Eighth Conference on the Social Aspects of AIDS held in London in late 1995

The Politics of AIDS Håkan Thörn, 2008-04-01 HIV AIDS is the major political challenge of our time Based on empirical observations from all over the world this book examines how HIV AIDS has become increasingly transnational as nation states have extended their programmes across borders and transnational networks have increased their activities

Safe Sex Miliakere Kaitani, 2000 *Bisexual Politics* Naomi S Tucker, 2014-06-11 This anthology presents a vivid collection of essays that explore the history strategies philosophy and diversity of bisexual politics and theory in the United States The 33 contributors develop a multifaceted approach to defining bisexual politics Through these voices the book seeks to understand the contexts in which the bisexual movement has evolved The authors analyze different organizing strategies formulate new bisexual political theory provide a vision of future directions for redefining sexuality and gender and educate activists and allies about current issues pertinent to the bisexual community This book is the first of its kind To date it is the only book that documents and analyzes bisexual politics and theory While existing literature on bisexuality has focused on identity coming out and forming communities *Bisexual Politics* takes the vital next step into bisexual political theory and activism The many subjects and subthemes addressed in *Bisexual Politics* appeal to a multitude of readers from activists to academics from friends and family of bisexuals to those who have struggled with bisexuality It is a sourcebook for those seeking to locate bisexuality in the schema of other social justice movements It is a tool to build alliances with other progressive groups and build coalitions with both lesbian gay and heterosexual communities It is a primer for anyone interested in bisexual activism and theory
