RADICALIZED SCHOOLS: Dr. Armand A. Fusco, 2025-01-10 How to Combat the Racial Radicalization of Education Vol I This two volume guidebook is essentially an encyclopedia illustrating the problems revolving around the racial agenda that's indoctrinating K 12 students who are being radicalized by promoting Critical Race Theory CRT with all of its various clones using different terms and phrases The issue with parents who are revolting against is how it is being done indoctrination and not choice and not age appropriate in the lower grades The reason for two volumes is because most books relating to this issue go into the topic without giving the necessary background stagecraft to really know what's involved Too often authors assume the reader is familiar with the background information and that is a dangerous assumption to make Vol I provides the definitions of so many words and phrases because Critical Race Theory is a concept driven by twisted and confusing language much of it with new words such as intersectionality making it sound mysterious and even important Yet it is a simple problem to resolve with choice and options but the racial advocates primarily white suburban educators do not want it resolved believing that every single student K 12 must be radicalized and racialized by the racial agenda without providing any evidence of the need for its infusion in K 12 schooling The districts promoting it are even denying that CRT is being promoted Therefore it's the words being used that are the clue whether or not CRT it is being taught For example the Superintendent of Schools of the trophy school did an unpresented action by purchasing a copy of How to be an AntiRacist for every teacher to use no further evidence is needed Anyone can be radicalized it occurs when someone starts to believe or support extreme views and then in some cases they become willing or unwilling radicalized activists Even the Connecticut solution a deep blue state arrived at a very amicable solution It recognized that it should not be done through indoctrination but with choice and only at the high school level In addition it's a political issue with Progressive Democrats and the Biden White House advocating for its use in schools and Republicans opposed to it For example the term slavery is interpreted to mean black slavery only when in fact white slavery started sooner it was harsher because they were used in the dangerous

mining and timber work and it was cheaper to buy a white slave rather than a black slave Vol II Volume I set the center stage for the radicalization drama to take place for Vol II to provide the nitty gritty of the racial agenda that creates conflict chaos anger and makes schools unsafe for staff and students This is reason enough why it does not belong in schools What s critical to understand is that this extreme indoctrination has absolutely nothing to do with improving academic skills and knowledge and furthermore it violates U S Supreme Court decision 1968 Epperson vs Arkansas that prohibits the teaching of only one dogma What s even more interesting is that the districts promoting the racial dogma deny that they are doing so In psychology denialism is a person s choice to deny reality as a way to avoid a psychologically uncomfortable truth moreso for others when it involves the racial agenda The options available to combat the radicalization are then provided To make matters far worse is that the time and attention being given to this agenda has the so called safe school plans collecting dust causing the publication of Does Your Child Attend a Safe School No A Manual for Parents and Policymakers that provides 53 reasons why schools doing the racial agenda are not safe Additionally reading and math scores have been in a steady decline with 30 35 million students scoring below proficiency can it be any worse School Safety and Security Lessons in Danger OECD,2005-01-17 Lessons in Danger the result of a joint OECD US Department of Education collaboration provides valuable insight into how school safety and security particularly in emergency situations are addressed in over 14 countries

Youth Violence I. M. Rachia, 1999 This bibliography comprises a selection of Library of Congress catalog records for some 1 500 books periodicals and websites related to youth violence Anyone wanting such a bibliography could probably compile it from the Library of Congress web site and the deficiencies in conception and design of this product defy understanding A brief preface sounds an alarm no one should be surprised that youth violence lurks behind every school house door but sets forth no criteria for selection of citations no indication of time frame purpose or audience Entries are arranged alphabetically by title within chapters on school violence guns and youth gangs campus violence dating and violence and periodicals and Web sites Unforgivably primitive alphabetic sorting puts all titles beginning with The together the same with other articles and in addition those titles are indexed together Though the title indicates the presence of abstracts there are none except the summaries supplied by Library of Congress for juvenile titles of which there are many Cross referencing and indexing except by title are absent The compiler's credentials motivation and orientation are not cited Furthermore with better design the contents would have consumed half the number of pages and a few typeface variations would have eased scanning
