Freedom did not solve the problems of the Proctor family Nor did money recognition or powerful supporters As free blacks in eighteenth and nineteenth century America three generations of Proctor men were permanently handicapped by the social structures of their time and their place They subscribed to the Western middle class value system that taught that hard work personal rectitude and maintenance of family life would lead to happiness and prosperity But for them it did not no matter how hard they worked how clever their plans or how powerful their white patrons The eldest Antonio born a Spanish slave became a soldier for three nations and received government recognition for his daring and his skills as a translator His son George an entrepreneur achieved material success in the building trade but was so hampered by his status as a free black that he eventually lost not only his position in the community but his family John George's son seized the opportunity proffered by Reconstruction and spent ten years in the Florida state legislature before segregation forced him to return to the life of a tradesman Warner describes the Proctor men as inarticulate They left no personal papers and no indication of their attitudes toward their hardships As a result this work relies heavily on local government documents and oral history Inference and intimation become vital tools in the search for the Proctors In important ways the author has produced a case study of nontraditional methodology and he suggests new ways of describing and analyzing inarticulate populations The Proctors were not typical of the black population of their era and their location yet the story of their lives broadens our knowledge of the black experience in America *Gold Rush Manliness* Christopher Herbert, 2018-11-13 The mid nineteenth century gold rushes bring to mind raucous mining camps and slapped together cities populated by carousing miners gamblers and prostitutes Yet many of the white men who went to the gold fields were products of the Victorian era educated men who valued morality and order Examining the closely linked gold rushes in California and British Columbia historian Christopher Herbert shows that these men worried about the meaning of their manhood in the near anarchic ethnically mixed societies that grew up around the mines As white gold rushers emigrated west they encountered a wide range of people they considered inferior and potentially dangerous to white dominance including Latin American Chinese and Indigenous peoples The way that white miners interacted with these groups reflected their conceptions of race and morality

as well as the distinct political principles and strategies of the US and British colonial governments The white miners were accustomed to white male domination and their anxiety to continue it played a central role in the construction of colonial regimes In addition to renovating traditional understandings of the Pacific Slope gold rushes Herbert argues that historians understanding of white manliness has been too fixated on the eastern United States and Britain In the nineteenth century popular attention largely focused on the West It was in the gold fields and the cities they spawned that new ideas of white manliness emerged prefiguring transformations elsewhere

Forgotten Pioneers Thomas F. Prendergast, 2001-06 This is a comprehensive look at the Irish in Northern California from 1835 to 1900 Filled with anecdotes and insider history this book is a unique piece of California history The title *Forgotten Pioneers* embodies only half a truth in its application to the subject those early settlers in the wilderness of California men of Irish birth or ancestry who contributed lavishly toward laying the foundations of a new commonwealth on the Pacific It is the purpose of this book to reinstate in the rank where they belong some at least of these overlooked men whose character and achievement entitle them to the highest place in the respect and esteem of the people

Nevada Place Names Helen S. Carlson, 1974-01-01 Author and researcher Helen Carlson spent almost fourteen years searching for the origins of Nevada's place names using the maps of explorers miners government surveyors and city planners and poring through historical accounts archival documents county records and newspaper files The result of her labors is *Nevada Place Names* a fascinating mixture of history spiced with folklore legend and obscure facts Out of print for some years the book was reprinted in 1999

The Small Window Linda Teigland Clark, 2008-06 Pa taught his family that God will not shut a door without opening a window He said it was God's Way of leading His Children And during hard times Pa added that it was the North wind that made the Vikings What he didn't tell Laurin his 17 year old daughter was how small and difficult getting through that window might be or how long and strong that North wind might blow It was 1848 Pa followed his dream he was taking his family to the Promised Land a land called California Laurin like her father dreamed big until tragedy struck When cholera claimed the lives of her parents and older brothers in the Humboldt Sink she had to find that window set her own sail against that staunch wind Only she remained to do it She had to find a way not just to survive the trek over the Sierra and into California but to survive once they arrived It wasn't for herself but for her younger brother age 7 and sister age 4 they were her responsibility their future their very lives depended upon her They couldn't go back there was no back She loved them she had to find a way

The Decline of the Californios Leonard Pitt, When Law Was in the Holster John Boessenecker, 2012-09-28 One of the great lawmen of the Old West Bob Paul 1830 1901 cast a giant shadow across the frontiers of California and Arizona Territory for nearly fifty years Today he is remembered mainly for his friendship with Wyatt Earp and his involvement in the stirring events surrounding the famous 1881 gunfight near the OK Corral in Tombstone Arizona This long overdue biography fills crucial gaps in Paul's story and recounts a life of almost constant adventure As told by veteran western historian John Boessenecker

this story is more than just a western shoot em up and it reveals Paul to be far more than a blood and thunder gunfighter Beginning with Paul s boyhood adventures as a whaler in the South Pacific the author traces his journey to Gold Rush California where he served respectively as constable deputy sheriff and sheriff in Calaveras County and as Wells Fargo shotgun messenger and detective Then in the turbulent 1880s Paul became sheriff of Pima County Arizona and a railroad detective for the Southern Pacific In 1890 President Benjamin Harrison appointed him U S marshal of Arizona Territory Transcending local history Paul s story provides an inside look into the rough and tumble world of frontier politics electoral corruption Mexican U S relations border security vigilantism and western justice Moreover issues that were important in Paul s career illegal immigration smuggling on the Mexican border youth gangs racial discrimination ethnic violence and police minority relations are as relevant today as they were during his lifetime **Book Review Digest** Leslie Dunmore-Leiber,1976 University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects University of California (System).
