Aurobindo's 'Savitri' in the light of The Bhagavad Gita Santosh Kumar P.V.,2023-06-24 A study of Sri Aurobindo's Savitri in the light of the Bhagavad Gita which was awarded the doctorate in English by the University of Calicut in 1996 is being now published on the occasion of the 150th birth anniversary of Sri Aurobindo. The thesis was an attempt to establish the intimations of intimacy between Sri Aurobindo's epic poem Savitri and the Bhagavad Gita. The influence of the Gita on Sri Aurobindo is well known starting with his vision of Krishna at the Alipore jail and by his own statement that he was not only able to understand intellectually but also realize what Sri Krishna demanded of Arjuna. The cardinal teaching of Gita Vasudeva Sarvam iti provided for him the bedrock of his philosophy in Savitri. The spiritual revolution he envisioned in Savitri is that the universe is a manifestation of consciousness occurring in an integral process. Modern quantum physics is bearing many similarities with his ideas. Thus while Savitri is a symbol of struggle, redemption and the incarnation of a divine mother who restores the Golden Age, the Bhagavad Gita teaches the same call to the eternal avatar in each being and to the establishment of Sat Chit Ananda on the terrestrial plane.

Winged Faith Tulasi Srinivas,2010-06-10 The Sathya Sai global civil religious movement incorporates Hindu and Muslim practices, Buddhist, Christian and Zoroastrian influences and New Age style rituals and beliefs. Shri Sathya Sai Baba, its charismatic and controversial leader, attracts several million adherents from various national, ethnic and religious backgrounds. In a dynamic account of the Sathya Sai movement's explosive growth, Winged Faith argues for a rethinking of globalization and the politics of identity in a religiously plural world. This study considers a new kind of cosmopolitanism located in an alternate understanding of difference and contestation. It considers how acts of sacred spectating and illusion, moral stakeholding and the problems of community are debated and experienced. A thrilling study of a transcultural and transurban phenomenon that questions narratives of self and being, circuits of sacred mobility and the politics of affect, Winged Faith suggests new methods for discussing religion in a globalizing world and introduces readers to an easily critiqued yet not fully understood community.

Source of the Dream Robert Priddy,1997-01-12 The influence of the Universal World Teacher in the figure of Sri Sathya Sai Baba, a supremely beneficent renewer of moral life and spiritual faith, has already reached the far corners of the Earth. Yet this Avatar, His miracles and teachings are still a great mystery to even those who are acquainted with Him. Source of the Dream is thoroughly researched and gives an objective appreciation of Sai Baba's teachings about spirituality and modern science. Priddy gives an in-depth analysis of Sai Baba's miraculous actions and words. He includes investigations he made with the late professor N. Kasturi, Sai Baba's official biographer, into how Sai Baba's earlier teachings have been written or recorded, edited, translated, published and authenticated. Some common misunderstandings about interpretation and application of the teachings and of Baba's own words are discussed. Priddy included color photographs of Sai Baba and some of His miraculous manifestations. Robert Priddy shares his experiences, both subtle and direct, which ultimately led him to a life transformation. He appeals to both devotees and newcomers to Sai's teaching, explaining how Sai Baba reaches out to those in need over

great distances and what it's like to visit Sai Baba's ashram and attend an interview with Him For devotees Priddy shares his accounts of Sai's emanation of mystery and grace with balanced reflections upon their likely purpose and meaning **Sri Sathya Sai Baba and the Future of Mankind** Satya Pal Ruhela, 1991 On Sathya Sai Baba b 1926 Hindu saint from Andhra Pradesh Gaia Matrix Peter William Champoux, 1999 *Medicine for the Earth* Sandra Ingerman, 2010-05-05 From cross cultural legends recounting shamanic cures to the biblical accounts of the parting of the Red Sea and Jesus multiplying the loaves and fishes many spiritual traditions are rich in stories about seemingly inexplicable transformations of the natural world The ancient healing art of transmutation in which toxic substances are transformed into safe substances is mentioned in all the world's great spiritual traditions including Hinduism and Taoism And while many have tapped this body of work to heal the self it has yet to be used to heal our environment For twenty years Sandra Ingerman has studied alternative ways to reverse environmental pollution In this book Ingerman takes us on a remarkable journey through the history of transmutation teaching us how we can use this forgotten technique to change ourselves and our environment She provides us with creative visualizations ceremonies rituals and chants derived from ancient healing practices that produce miraculous scientifically proven results In one dramatic illustration of what can be accomplished when consciousness and awareness fuel our actions Ingerman describes her own success in transforming the nature of chemically polluted water *Australian national bibliography*, 1961 **Religions in Movement** Robert Hefner, John Hutchinson, Sara Mels, Christiane Timmerman, 2013-10-23 There has long been a debate about implications of globalization for the survival of the world of sovereign nation states and the role of nationalism as both an agent of and a response to globalization In contrast until recently there has been much less debate about the fate of religion Globalization has been viewed as part of the rationalization process which has already relegated religion to the dustbin of history just as it threatens the nation as the world moves toward a cosmopolitan ethics and politics The chapters in this book however make the case for the salience and resilience of religion often in conjunction with nationalism in the contemporary world in several ways This book highlights the diverse ways in which religions first and foremost make use of the traditional power and communication channels available to them like strategies of conversion the preservation of traditional value systems and the intertwining of religious and political power Nevertheless challenged by a more culturally and religiously diversified societies and by the growth of new religious sects contemporary religions are also forced to let go of these well known strategies of preservation and formulate new ways of establishing their position in local contexts This collection of essays by established and emerging scholars brings together theory driven and empirically based research and case studies about the global and bottom up strategies of religions and religious traditions in Europe and beyond to rethink their positions in their local communities and in the world **Indian Books in Print**, 2003 **Paperbound Books in Print**, 1992 Australian Books in Print 1998 Bowker, 1998-04 excellent coverage essential to worldwide bibliographic coverage AMERICAN REFERENCE BOOKS
