Levstik, Keith C. Barton, 2011-01-26 Now in its fourth edition this popular text offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The central assumption is that children can engage in valid forms of historical inquiry collecting and data analysis examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts In each chapter the authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory thus providing specific examples of successful activities and placing them in a theoretical context that allows teachers to adapt and apply them in a wide variety of settings New in the Fourth Edition Expanded coverage of world history in two new chapters Integration of new technologies to support history instruction Updated classroom examples bibliographies and references **Managing Records as Evidence and Information** Richard J. Cox, 2000-12-30 For the past three decades policies regarding a variety of information issues have emanated from federal agencies legislative chambers and corporate boardrooms Despite the focus on information policy it is still a relatively new concept and one only now beginning to be studied The subject area is wider than believed archives and records policies information resources management information technology telecommunications international communications privacy and confidentiality computer regulation and crime intellectual property and information systems and dissemination This is not a compendium of policies to be used but rather an exploration in a more detailed fashion of the fundamental principles supporting the setting of records policies Records policies are critically

important for records professionals to develop and use as a means of strategically managing the information and evidence found in the millions of records created daily provided that the policies are based on comprehensible principles This is a series of discourses on the fundamentals of archives and records management needing to be understood before any organization attempts to define and set any policy affecting records and information The chapters concern defining records how information technology plays into policy compiling the fundamental tasks of identifying and maintaining records as critical to records and information policy public outreach and advocacy as a key objective for such policy and the role of educating records professionals in supporting sensible records policies
