Saints And Madmen Psychiatry Opens Its Doors To Religion:

Wrestling with Our Inner Angels Nancy Kehoe, 2009-05-11 Wrestling with Our Inner Angels is Nancy Kehoe's compelling intimate and moving story of how she brought her background as a psychologist and a nun in the Religious of the Sacred Heart to bear in the groups she formed to explore the role of faith and spirituality in their treatment and in their lives. Through fascinating stories of her own spiritual journey she gives readers of all backgrounds and interests new insights into the inner lives of the mentally ill and new ways of thinking about the role of spirituality and faith in all our lives. *Saints and Madmen* Russell Shorto, 1999-09-07 What is the boundary between psychosis and religious experience? Psychiatrists have only recently acknowledged the role that spirituality plays in their patients' worlds, adding a new category: the religious or spiritual problem. To the Diagnostic and Statistical Manual of Mental Disorders in 1994. Some psychiatrists now specialize in treating the spiritually disturbed, yielding case studies of religious ideation worthy of Oliver Sacks. Journalist Russell Shorto investigates this new science of the soul, examining cutting-edge issues of chemistry and consciousness and whether psychopharmacology has a spiritual component. At the same time he explores curious byways of the phenomenon, such as Christian psychiatry and alien abduction, and follows a clergyman who goes with the spiritually disturbed on their psychotic journeys. In this moving and impeccably researched narrative he brings to life two distinct and provocative and now intertwined efforts to probe the deepest meaning of human existence. Acute Religious Experiences Richard Saville-Smith, 2023-02-09 This book engages the problem of how in the 21st century we are to speak about experiences of the extraordinary, anomalous, extreme which occur on a transhistorical and transcultural basis. Critical readings of seminal texts show how 20th-century theoreticians in the humanities sought to erase madness from their irrational subjects. This propensity to sanitize madness in the study of religions was mirrored by the instinct of psychiatrists to degrade religious experiences by reducing mad consciousness to psychosis or dissociation. Richard Saville Smith introduces explanatory pluralism as a way of recognizing these disciplinary biases and mad studies as a way of negotiating this understanding. The disproportionate significance of madness in shaping the fabric of the human story can then be recovered from both erasure and dismissal to be given the recognition previously denied as acute religious experiences. *Acute Religious Experiences* divides into three sections, beginning with readings of William James's pathological programme, Rudolf Otto's numinous, T. K. Oesterreich's possession, Mircea Eliade's shamanism, Walter Stace's mysticism, Walter Pahnke's psychedelic experience, and Abraham Maslow's peak experiences. These ideas are shown to constitute the beginnings of a fractured discourse on the irrational. In part two, contemporary psychiatry's Diagnostic and Statistical Manual (DSM) and Foucault's *History of Madness* are re-read to reposition madness as not necessarily pathological. This opens the way for the identification of acute religious experiences as a new holistic and post-colonial approach through which religious data can be organized and addressed on a comparative basis. In part three, the Gospel of Mark is re-read as a case study to demonstrate the novel insights which flow from the

identification of acute religious experiences Richard Saville Smith draws on his own experiences of madness and his PhD from the School of Divinity at The University of Edinburgh to elucidate his research

Daniel Pinchbeck, 2012-02-21 Now in the years beyond 2012 discover the true meaning behind the hype that captivated the world It should be no surprise to us now but the pomp surrounding the coming of the year 2012 that grasped the human race's attention in those preceding years was not at all about the end of the world Instead much to the contrary Daniel Pinchbeck believes that the passing of the year 2012 marked the beginning of a global shift in consciousness where the human race would begin to see the world and existence on this planet through a different lens embracing fresh ideas about who we are and what it means to be human Discover the true wisdom behind the 2012 phenomenon with these two captivating works by one of the leading minds in the movement both in one place for the first time and at one low price 2012 The Return of Quetzalcoatl Cross James Merrill H P Lovecraft and Carlos Castaneda each imbued with a twenty first century aptitude for quantum theory and existential psychology and you get the voice of Daniel Pinchbeck And yet nothing quite prepares us for the lucidity rationale and informed audacity of this seeker skeptic and cartographer of hidden realms Throughout the 1990s Pinchbeck had been a member of New York's literary select He wrote for publications such as The New York Times Magazine Esquire and Harper's Bazaar His first book Breaking Open the Head was heralded as the most significant on psychedelic experimentation since the work of Terence McKenna But slowly something happened Rather than writing from a journalistic remove Pinchbeck his literary powers at their peak began to participate in the shamanic and metaphysical belief systems he was encountering As his psyche and body opened to new experience disparate threads and occurrences made sense like never before Humanity every sign pointed is precariously balanced between greater self potential and environmental disaster The Mayan calendar's end date of 2012 seems to define our present age It heralds the end of one way of existence and the return of another in which the serpent god Quetzalcoatl reigns anew bringing with him an unimaginably ancient yet to us wholly new way of living A result not just of study but also of participation 2012 tells the tale of a single man in whose trials we ultimately recognize our own hopes and anxieties about modern life Toward 2012 Perspectives on the Next Age An informed challenging and engaging collection of essays on the new choices in lifestyles and community as we begin the countdown toward the year 2012 This fresh and thought provoking anthology draws together some of today's most celebrated visionaries thinkers and pioneers in the field of evolving consciousness exploring topics from shamanism to urban homesteading the legacy of Carlos Castaneda to Mayan predictions for the year 2012 and new paths in direct political action and human sexuality Toward 2012 highlights some of the most challenging intelligent pieces published on the acclaimed website Reality Sandwich It is coedited by Daniel Pinchbeck the preeminent voice on 2012 and online pioneer Ken Jordan and features original works from Stanislav Grof John Major Jenkins and Paul D Miller DJ Spooky interviews with Abbie Hoffman and artist Alex Grey and a new introduction by Pinchbeck Here are ideas that trace the arc of our evolution in consciousness

Crump, 2024-05-30 You ought to be ashamed of yourself for teaching such trash God does not have feelings He is absolutely perfect and impenetrable There is no point of contact of any sort between God and anything we would identify as human emotion This message left on David Crump's answering machine by an angry phone caller is the starting point of this investigation into what Scripture actually teaches about emotion and God An engaging blend of biblical study historical theology and personal testimony Feeling Like God takes the reader on a journey to understand God as revealed in Scripture

It shows that following Jesus Christ means bringing our feelings to God rather than trying to suppress them and shows how expressing emotion is something central to what it means to be created in God's image **Dispelling Wetiko** Paul

Spiritual Gift of Madness Seth Farber, 2012-04-17 A bold call for the insane to reclaim their rightful role as prophets of spiritual and cultural transformation Explains how many of those diagnosed as schizophrenic bipolar and other forms of madness are not ill but experiencing a spiritual awakening Explores the rise of Mad Pride and the mental patients liberation movement Reveals how those seen as mad must embrace their spiritual gifts to help the coming global spiritual transition Many of the great prophets of the past experienced madness a breakdown followed by a breakthrough spiritual death followed by rebirth With the advent of modern psychiatry the budding prophets of today are captured and transformed into chronic mental patients before they can flower into the visionaries and mystics they were intended to become As we approach the tipping point between extinction and global spiritual awakening there is a deep need for these prophets to embrace their spiritual gifts To make this happen we must learn to respect the sanctity of madness We need to cultivate Mad Pride Exploring the rise of Mad Pride and the mental patients liberation movement as well as building upon psychiatrist R D Laing's revolutionary theories Seth Farber Ph D explains that diagnosing people as mad has more to do with social control than therapy Many of those labeled as schizophrenic bipolar and other kinds of mad are not ill but simply experiencing different forms of spiritual awakening they are seeing and feeling what is wrong with society and what needs to be done to change it Farber shares his interviews with former schizophrenics who now lead successful and inspiring lives He shows that it is impossible for society to change as long as the mad are suppressed because they are our catalysts of social change By reclaiming their rightful role as prophets of spiritual and cultural revitalization the mad by seeding new visions for our future can help humanity overcome the spiritual crisis that endangers our survival and lead us to a higher and long awaited stage of spiritual development *Hungry for Ecstasy* Sharon Klayman Farber, 2012-11-16 Hungry for Ecstasy Trauma The Brain and

the Influence of the Sixties by Sharon Klayman Farber explores the hunger for ecstatic experience that can lead people down the road to self destruction In an attempt to help mental health professionals and concerned individuals understand and identify the phenomenon and ultimately intervene with patients friends and loved ones Farber speaks both personally and professionally to the reader She discusses the different paths taken on the road to ecstatic states There are religious

ecstasies of pain and near death experiences cult induced ecstasies creative ecstasies and ecstasies from hell

Hungry for Ecstasy explores not only the neuroscientific processes involved but also the influence of the sixties in driving people to seek these states Finally Farber draws from her own personal and professional experience to advise others how to intervene on behalf of the person whose behavior puts his or her life at risk *Passionate Spirituality* Elizabeth Dreyer,2005

Passionate Spirituality explores the roots and meanings of passion in Western culture and then examines how passion is expressed in the works of two medieval women mystics Hildegard of Bingen and Hadewijch of Brabant and in the lives of contemporary Christians seeking to deepen their own spiritual journeys Too often the term passion is associated only with steamy films sexual sin and emotional excess cutting off the breadth of its meaning and expression for positive good But the great mystics succeed precisely because they hold together both the affective and the intellectual aspects of the spiritual life in creative and convincing ways Their accounts of their mystical experience are important resources for information and understanding about how to talk about God more formally and for what it means to be passionately in love with God and the world

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Lost Ecstasy* June McDaniel,2018-06-26 This book is a study of religious ecstasy and the ways that it has been suppressed in both the academic study of religion and in much of the modern practice of religion It examines the meanings of the term how ecstatic experience is understood in a range of religions and why the importance of religious and mystical ecstasy has declined in the modern West June McDaniel examines how the search for ecstatic experience has migrated into such areas as war terrorism transgression sexuality drug use and anti institutional forms of spirituality She argues that the loss of religious and mystical ecstasy as both a religious goal and as a topic of academic study has had wide ranging negative effects She also proposes that the field of religious studies must go beyond criminalizing trivializing and pathologizing ecstatic and mystical experiences Both religious studies and theology need to take these states seriously as important aspects of lived human experience **The American Journal of Psychiatry** ,2001-10 *The Healing Power of Spirituality [3 volumes]* J.
