 Hÿgel, 2020-09-28 Amongst the apparent enigmas of life amongst the seemingly most radical and abiding of interior
 antinomies and conflicts experienced by the human race and by individuals there is one which everything tends to make us
 feel and see with an ever increasing keenness and clearness More and more we want a strong and interior a lasting yet
 voluntary bond of union between our own successive states of mind and between what is abiding in ourselves and what is
 permanent within our fellow men and more and more we seem to see that mere Reasoning Logic Abstraction all that appears
 as the necessary instrument and expression of the Universal and Abiding does not move or win the will either in ourselves or

in others and that what does thus move and win it is Instinct Intuition Feeling the Concrete and Contingent all that seems to be of its very nature individual and evanescent Reasoning appears but capable at best of co ordinating unifying explaining the material furnished to it by experience of all kinds at worst of explaining it away at best of stimulating the purveyance of a fresh supply of such experience at worst of stopping such purveyance as much as may be And yet the Reasoning would appear to be the transferable part in the process but not to move and the experience alone to have the moving power but not to be transmissible Experience indeed and its resultant feeling are always in the first instance coloured and conditioned by every kind of individual many sided circumstances of time and place of race and age and sex of education and temperament of antecedent and environment And it is this very particular combination just this one so conditioned and combined coming upon me just at this moment and on this spot just at this stage of my reach or growth at this turning of my way that carries with it this particular power to touch or startle to stimulate or convince It is just precisely through the but imperfectly analyzable indeed but dimly perceived individual connotation of general terms it is by the fringe of feeling woven out of the past doings and impressions workings and circumstances physical mental moral of my race and family and of my own individual life it is by the apparently slight apparently far away accompaniment of a perfectly individual music to the spoken or sung text of the common speech of man that I am it would seem really moved and won And this fringe of feeling this impression is strictly speaking not merely untransferable but also unrepeatable it is unique even for the same mind it never was before it never will be again Heraclitus if we understand that old Physicist in our own modern deeply subjective largely sentimental way would appear to be exactly right you cannot twice step into the same stream since never for two moments do the waters remain identical you yourself cannot twice step the same man into the same river for you have meanwhile changed as truly as itself has done _____ all things and states outward and inward appear indeed in flux only each moment seems to bring to each individual for that one moment his power to move and to convince
