Saints In Politics The Clapham Sect And The Growth Of Freedom Open University Set:

Saints in Politics Enrest Marshall Howse, 1952-12-15 This book gives a picture of an important religious reform group in action during the period of the French Revolution Napoleon and the Industrial Revolution In this period of injustice and misery the British ruling classes frightened by the excesses of the French Revolution determined at a time when economic life was changing at a rate unequalled for centuries that existing laws and institutions should not change And yet from this time came the moral philanthropic and religious ideas which transformed later England and resulted in the abolition of the slave trade educational reforms in India emancipation of Negroes in the British possessions popular education and the growth of Sunday schools in England reform of the whole penal and judicial system industrial and parliamentary reform and a new spirit of religious tolerance and philanthropy The moving force in human progress at this epoch was a brotherhood of Christian politicians lampooned in Parliament during their lifetime as the Saints and remembered in history as The Clapham Sect led by Wilberforce Dr Howse brings together for the first time in this book material on all the activities of the Sect He gives us sketches of members of the Set their life as a group at home and in the midst of their campaigns where novel methods and ceaseless labour brought results out of all proportion to the size of the group Contested Sites Paul A. Pickering, Alex Tyrrell, 2017-05-15 The second half of the nineteenth century witnessed a new phenomenon in public monuments and civic ornamentation Whereas in former times public statuary had customarily been reserved for warriors and statesmen kings and rulers of men a new trend was emerging for towns to commemorate their own citizens As the subjects immortalised in stone and bronze broadened beyond the traditional ruling classes to include radicals and reformers it necessitated a corresponding widening of the language and understanding of public statuary Contested Sites explores the role of these commemorations in radical public life in Britain Despite recent advances in the understanding of the importance of symbols in public discourse political monuments have received little attention from historians This is to be regretted for commemorations are statements of public identity and memory that have their politics they are embedded in complex class gender and power relations that determine what is remembered or forgotten Examining monuments plaques and tombstones commemorating a variety of popular movements and reforming individuals the contributions in Contested Sites reveal the relations that went into the making of public memory in modern Britain and its radical tradition **Evangelicals in the Royal Navy, 1775-1815** Richard Blake, 2008 Religious activity flourished in the eighteenth century navy this book examines the reasons why and its manifestations The Evangelical Admiral Gambier notorious for distributing tracts to his fleet in a theatre of war is commonly seen as a misfit in a fighting service that had scant time for fervent piety In fact the navy of the Revolutionary and Napoleonic Wars showed a level of religious observance not seen since the days of Queen Anne Evangelical laymen provided one dynamic for this change concentrating first on public worship they moved to active proselytism in search of converts amongst sailors and in a third phase developed a loose network of prayer groups in scores of ships uniting

officers and seamen in voluntary gatherings that transcended rank This book explores the effect this new piety had on discipline and human governance on literacy on the development of chaplains ministry and on the mindset of the officer corps It also looks at the larger question of how its values were absorbed into the ethos of the navy as a whole It draws on sources both familiar and unusual logs letters minutes memoirs tracts and sermons Regulations to explain how evangelical influence affected officer corps lower deck and Admiralty showing how a movement that began by promoting public worship at sea became an agency for mass evangelism through literature preaching and off duty gatherings where officers and men met for shared Bible reading and prayer a mere decade after the great Mutinies The National union catalog, 1968-1972,1973 *National Union Catalog* ,1968 **The National Union Catalogs, 1963-** ,1964 **The British National Bibliography** Arthur James Wells,1971 Library of Congress Catalogs Library of Congress,1976 Library of Congress Catalog Library of Congress,1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 An Uncompromising Land Jean Paquette,1990 *Paperbound Books in Print* ,1983 *The Illustrated London News* ,1875
