Bargen,2015-08-31 Literary critiques of Murasaki Shikibu's eleventh century *The Tale of Genji* have often focused on the amorous adventures of its eponymous hero In this paradigm shifting analysis of the *Genji* and other mid Heian literature Doris G Bargen emphasizes the thematic importance of Japan's complex polygynous kinship system as the domain within which courtship occurs Heian courtship conducted mainly to form secondary marriages was driven by power struggles of succession among lineages that focused on achieving the highest position possible at court Thus interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts Bargen focuses on the genealogical maze the literal and figurative space through which several generations of men and women in the *Genji* moved She demonstrates that courtship politics sought to control kinship by strengthening genealogical lines while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them The work examines in detail the literary construction of a courtship practice known as *kaimami* or looking through a gap in the fence in pre *Genji* tales and diaries and Sei Shōnagon's famous *Pillow Book* In Murasaki Shikibu's *Genji* courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices counteract sexual transgressions or resist the pressure of imperial succession Bargen argues persuasively that a woman observed by a man was not wholly deprived of agency She could choose how much to reveal or conceal as she peeked through shutters from behind partitions fans and kimono sleeves or through narrow carriage windows That mid Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship In *Mapping Courtship and Kinship in Classical Japan* readers both familiar with and new to *The Tale of Genji* and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts In addition the book includes charts that trace *Genji* characters' lineages maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond and color reproductions of paintings that capture the drama of courtship *Mirei Shigemori - Rebel in the Garden* Christian Tschumi,2020-08-10 Mirei Shigemori had a major impact on the development of Japanese landscape architecture in the

A Philosophy of Gardens David E. Cooper, 2006-02-02 Why do gardens matter so much and mean so much to people That is the intriguing question to which David Cooper seeks an answer in this book Given the enthusiasm for gardens in human civilization ancient and modern Eastern and Western it is surprising that the question has been so long neglected by modern philosophy Now at last there is a philosophy of gardens Not only is this a fascinating subject in its own right it also provides a reminder that the subject matter of aesthetics is broader than the fine arts that ethics is not just about moral issues but about the good life and that environmental philosophy should not focus only on wilderness to the exclusion of the humanly shaped environment David Cooper identifies garden appreciation as a special human phenomenon distinct from both from the

appreciation of art and the appreciation of nature He explores the importance of various garden practices and shows how not only gardening itself but activities to which the garden especially lends itself including social and meditative activities contribute to the good life And he distinguishes the many kinds of meanings that gardens may have from representation of nature to emotional expression from historical significance to symbolization of a spiritual relationship to the world Building on the familiar observation that among human beings creations the garden is peculiarly dependent on the co operation of nature Cooper argues that the garden matters as an epiphany of an intimate co dependence between human creative activity in the world and the mystery that allows there to be a world for them at all A Philosophy of Gardens will open up this subject to students and scholars of aesthetics ethics and cultural and environmental studies and to anyone with a reflective interest in things horticultural Armchair Book of Gardens Jane Billingham, 2011-04-01 The Armchair Book of Gardens is a collection of individual essays focused on understanding gardens in a different light perspective The book concentrates on the emotional social spiritual and political aspects of the garden **Domestic Wild: Memory, Nature and Gardening in Suburbia** Franklin Ginn, 2016-06-23 In Domestic Wild Franklin Ginn sets out to find a new sense of the wild at the heart of modernity Inspired by experienced skilful gardeners Ginn analyses what happens when plants animals and people meet in the suburbs of London Weaving major theories of landscape memory and nonhuman subjectivity with the practical wisdom of gardeners this book offers a radical new account of everyday gardening Amid spectacular horizons of planetary loss Domestic Wild argues that gardening offers a means to cultivate a renewed sense of intimacy with nature and ourselves
