Salem Three Hundred:

The Architecture of America's Stonehenge Mary E. Gage, 2021-06-01 The main complex of the America's Stonehenge site in New Hampshire is a collection of stone chambers enclosures niches standing stones carved drains basins and astronomical alignments The archaeological community has largely dismissed this seemingly eclectic collection of structures as the work of an eccentric farmer named Jonathan Pattee who built his house on top of the ruins in the 19th century Other researchers have sought to compare the chambers and astronomical alignments to stone structures from around the world built by other ancient peoples No one has thought to evaluate the site on its own merits specifically evaluating its architecture Architecture can tell you a lot about a culture Using this approach the author unravels the mystery surrounding the site This architectural study revealed the site was built in a series of distinct phases each with its own unique style while at the same time incorporating key concepts and ideas from previous phases There is a clear evolution of building skills and cultural ideas that can be followed through the architectural build out of the site Because key features and ideas were carried forward from one phase to the next we now know that the site was the work of a single culture over a several thousand year period Stone tools and pottery recovered from archaeological excavations at the site confirm that the builders were Native Americans The idea of Native Americans building stone structures for ceremonial and spiritual purposes has gained a lot of credibility over the past twenty five years There is mounting evidence that hundreds of ceremonial stone landscapes CSL with stone cairns niches enclosures standings stones chambers and astronomical alignments found throughout northeastern United States are part of a broad based Native American cultural tradition The America's Stonehenge site is one of the most sophisticated and culturally complex of these sacred ceremonial places The second part of this book uses primary source materials like deeds town records court cases and genealogy to reconstruct the history of the Pattee family who owned the hill where the site is found from 1739 through 1863 The Pattees started out in the 1700s as a prosperous family with a house in North Salem village and a 248 acre farm By the 1820s the third generation was reduced to owning 15 acres of the original farm and living in a small house built on top of the ruins of the site Despite his many financial misfortunes Jonathan Pattee third generation managed to hold on to and protect the site

Nathaniel Hawthorne and the Romance of the Orient Luther S. Luedtke, 1989-09-22 This volume argues that by focusing on British and American backgrounds readers have underestimated the impact of Asia and the East on American novelist and short story writer Nathaniel Hawthorne's 1804-1864 writing The central force in Hawthorne's intellectual development was New England Puritanism It fascinated even when it sometimes repelled him It exercised a pull on his imagination which a lifetime of varied experience did not loosen The author recreates Hawthorne's

heritage and examine his readings in material dealing with the East he examines three of Hawthorne's early tales that were all written before 1830 and he looks at Hawthorne's *The Story Teller* the two volume book of sketches and tales Hawthorne unsuccessfully tried to publish in 1834 and issued piecemeal thereafter in periodicals as annuals The author also evaluates the role of the Eastern world in Hawthorne's view of Romance and studies some of Hawthorne's remarkable heroines Beatrice Rapaccini Hester Zenobia and Miriam in particular The author maintains that the Puritan element in Hawthorne's ancestry has been overstressed and that insufficient attention has been paid to the equally important travel adventure exploration aspect of Hawthorne's heritage and craft

John Goff, 2009-09-16 A close up look at this historic Massachusetts landmark including photos and illustrations Though Salem is located on Massachusetts's scenic North Shore its history has not always been picturesque The Witch City as it is internationally known is home to numerous landmarks dedicated to the notorious trials of 1692 Of these the Witch House is perhaps most significant the former residence of Judge Jonathan Corwin whose court ordered the execution of twenty men and women It was here that Corwin examined the unfortunate accused There is however more to this ancient building than its most famous occupant From wars and death to prosperity and progress this book searches beneath the beams and studs of the Witch House to find the stories of those who called this place home *The Essex Antiquarian* Sidney Perley, 1897

Redcoat David Crookes, 2010-12-20 1873 A landslide at a diamond mine in Africa leaves autocratic British army major Spencer Shackerly badly injured and in a deep coma. He awakens to find himself a helpless cripple and his military career over. Holding Lieutenant Jeffrey Guest responsible for his plight, he is determined to have the young officer face a court martial. Jeffrey Guest has since returned to England planning to marry his childhood sweetheart. On his wedding day, he is blamed for the death of a soldier when the army attempts to arrest him. But aided by family and friends, he manages to flee the country. So begins a relentless worldwide manhunt. Shackerly uses his aristocratic family's wealth and influence in high places at home and abroad to mercilessly hunt down the fugitive across the United States, Canada, and Australia until eventually the hunted becomes the hunter.
