P. Chamberlin,G. S. Haynes,E. C. Wragg,Prof E C Wragg,2005-07-28 One of the most important challenges teachers face is making sure children can read It is an absolutely crucial skill and current educational policy is giving it a very high priority Based on one of the largest studies ever undertaken of what primary schools do to improve literacy this book reports what Professor Ted Wragg and his research team found The importance placed on literacy has never been greater When children learn to read they are laying the foundations for their entire educational future Effective teachers can make a huge difference as a poor start can hinder children throughout their schooling and beyond By looking at

what actually goes on in classrooms this volume provides an invaluable insight into what happens to children and how their reading progresses It shows how particular teachers manage the improvement of their pupils reading levels and also follows individual pupils through a school year This is a very readable account of a fascinating and crucial area of research that is highly topical Every class teacher should read it [Sally and the Magic River](#) H. Frank Gaertner,2014-07-25 Sally and the Magic River is a magical story of a young girl coming of age and her triumph over extreme adversity Its various scenes are meant to evoke powerful mental images with parallels to movies such as The Wizard of Oz Peter Pan The Wild River and Gravity So take your time See each scene in detailed color and be ready to compare your images to those that appear in a major feature film **Dangerous Donkey** Alaric Adair,2010 Dangerous Donkey is the story of a teenage hero and two friends who rescue a 14 year old girl who is being held hostage in an Afghan mountain village **The Talking Cure** Jane M. Grelsamer,2010-09-03 One small step for a man one giant leap for music The Beatles and the Race to the Moon were the DNA of the 1960s Two adventurous threads continuously intertwined from 1960 to 1970 Into the Sky is a scholarly book masquerading as fast moving historical fiction From Flurry of Notes One of the best books I read last year was Into the Sky with Diamonds RG has written a book that everyone with a love for the Beatles the Race to the Moon or the 60s must read It s detailed but not boring familiar but not stale RG breathes new life and perspective to an entire decade in a joyful and enlightening way and sheds new light and insight into a time that shook the world I guarantee you ll wish both the book and the Beatles never stopped From Amazon I totally enjoyed reading this book I highly recommend it for both people who were around to experience the events that occurred in the 60 s and for the younger generation who will enjoy learning about an era of history that has had a huge impact This is one of the most fascinating books I have read in over 20 years It is an absolute MUST READ for anyone interested in musical legend of the Beatles and the origins failed attempts and success of our Moon Mission [The 20th Century O-Z](#) Frank N.
