The Six Loren Grush, 2024-10-22 Vivid The Guardian Engrossing Booklist Suspenseful meticulously observed enlightening Margot Lee Shetterly 1 New York Times bestselling author of *Hidden Figures* In this account of America's first women astronauts Grush skillfully weaves a story that at its heart is about desire not a nation's desire to conquer space but the longing of six women to reach heights that were forbidden to them The New York Times When NASA sent astronauts to the moon in the 1960s and 1970s the agency excluded women from the corps arguing that only military test pilots a group then made up exclusively of men had the right stuff It was an era in which women were steered away from jobs in science and deemed unqualified for space flight Eventually though NASA recognized its blunder and opened the application process to a wider array of hopefuls regardless of race or gender From a candidate pool of 8 000 six elite women were selected in 1978 Sally Ride Judy Resnik Anna Fisher Kathy Sullivan Shannon Lucid and Rhea Seddon In *The Six* acclaimed journalist Loren Grush shows these brilliant and courageous

women enduring claustrophobic and sometimes deeply sexist media attention undergoing rigorous survival training and preparing for years to take multi million dollar payloads into orbit Together the Six helped build the tools that made the space program run One of the group Judy Resnik sacrificed her life when the Space Shuttle Challenger exploded at 46 000 feet Everyone knows of Sally Ride s history making first space ride but each of the Six would make their mark A spirited group biography it s hard not to feel awe for these women The Wall Street Journal **The Last Minute Christmas Miracle** William J.
