Salos Song:

Baudelaire in Song Helen Abbott, 2017-11-03 Why do we find it hard to explain what happens when words are set to music This study looks at the kind of language we use to describe word music relations both in the academic literature and in manuals for singers or programme notes prepared by professional musicians Helen Abbott's critique of word music relations interrogates overlaps emerging from a range of academic disciplines including translation theory adaptation theory word music theory as well as critical musicology music theory and cognitive neuroscience It also draws on other resources whether adhesion science or financial modelling to inform a new approach to analysing song in a model proposed here as the assemblage model The assemblage model has two key stages of analysis The first stage examines the bonds formed between the multiple layers that make up a song setting including metre prosody form structure sound repetition semantics and live performance options The second stage considers the overall outcome of each song in terms of the intensity or stability of the words and music present in a song accretion dilution Taking the work of the major nineteenth century French poet Charles Baudelaire 1821-67 as its main impetus the volume examines how Baudelaire's poetry has inspired composers of all genres across the globe from the 1860s to the present day The case studies focus on Baudelaire song sets by European composers between 1880 and 1930 specifically Maurice Rollinat Gustave Charpentier Alexander Gretchaninov Louis Vierne and Alban Berg Using this corpus it tests out the assemblage model to uncover what happens to Baudelaire's poetry when it is set to music It factors in the realities of song as a live performance genre and reveals which parameters of song emerge as standard for French text setting and where composers diverge in their approach

Opéra de salon Mark Everist, 2025-06-24 Opéra de salon emerged in the early 1850s out of a much longer tradition of the *tré de socié* the cultivation of performing plays in aristocratic town houses and *châteaux* which continued into the Second Empire of the 1850s and 1860s and beyond It consisted of a one act *opérette* with between six and nine musical compositions separated by spoken dialogue that carried the action in the same way as *opéra comique* or *opérette* itself Opéra de salon was separated from *opérette* and related genres by its performance context never shared with the regulated theatre opéra de salon was cultivated in domestic living spaces that were repurposed in ways that ranged from simply pushing back the furniture to building a fully fledged theatre in one s own home Opéra de salon furthermore found its way into the concert culture hosted by Parisian piano manufacturers Herz Erard Pleyel and others In Opéra de salon Parisian Societies and Salons in the Second Empire author Mark Everist brings to light a genre and a set of cultural practices that have long been obscured Approximately 130 opéras de salon were composed and performed up to ca 1875 and as Everist demonstrates they represent a significant generic trajectory in the history of nineteenth century music and theatre Produced by major composers and librettists of the day these works play into questions of gender age and urban topography in ways unlike other musical and theatrical genres of the day Everist s focus is on the salon the domestic the private but he also shows how opéra de salon moves effortlessly between intimate familial space the more public salon to the public and largely commercial concert hall in ways that prompt reflection on the status of all these critical categories Ultimately Everist challenges the hermetic discipline of opera studies by opening up massive repertoires that are still unknown and by developing critical practices that go beyond traditional categories of theatres institutions consumers and creators

Scandinavian Song Anna Hersey, 2016-08-11 Scandinavian art songs are a unique expression of the cultures of Sweden Norway and Denmark Although these three countries are distinct from one another their languages and cultures share many similarities Common themes found in art and literature include a love of nature especially of the sea feelings of longing and melancholy the contrast between light and dark the extremes of the northern climate and lively folk traditions These shared sensibilities are reflected and expressed in a tangible way through music Scandinavian art song has faced several challenges over the years in North America even in the American Midwest where descendants of Scandinavian immigrants are concentrated But matters have changed recently with the recent expansion of diction curricula to cover languages other than English French German and Italian The primary obstacle remains practical resources for the study of art songs and lyric diction of Sweden Norway and Denmark This guide remedies this problem Scandinavian Song is a practical guide to the art songs of Sweden Norway and Denmark Unlike other

Franz Liszt's Songs for Voice and Piano Małgorzata Gamrat, 2023-11-27 How does a Romantic composer approach the poetry he sets as raw material to be remade a pretext for self expression a sanctified artefact or a message to be illustrated with music In my book I examine Franz Liszt's songs for voice and piano which remain little known to scholars artists and music lovers alike The objective is to present Liszt's songs in all their complexity and diversity as well as identifying the key elements of the composer's broadly understood song writing technique both those that make him unique and those that relate him to the European tradition This approach also makes it possible to shed light on a major though previously neglected aspect of the composer's workshop namely his work with the poetic text which to Liszt was just as important as the musical setting
