

SALT DESERT TRAILS

A History of
THE HASTINGS CUTOFF
and other early trails which
crossed the Great Salt Desert
seeking a shorter road to
California

By **CHARLES KELLY**

LANSFORD W. HASTINGS, in 1846, planned to make California an independent republic. He located the Hastings Cutoff across the Great Salt Desert in order to bring in a sufficient number of emigrants to seize the territory. Those who followed Hastings met disaster, and his Cutoff was responsible for the death of almost half the members of the ill-fated Donner Party.

The complete record of all exploring expeditions and emigrant parties which crossed this desert in early days makes an interesting story, and adds an important chapter to the history of Utah and California.

Holliday, 2015-03-16 When *The World Rushed In* was first published in 1981 the Washington Post predicted It seems unlikely that anyone will write a more comprehensive book about the Gold Rush Twenty years later no one has emerged to contradict that judgment and the book has gained recognition as a classic As the San Francisco Examiner noted It is not often that a work of history can be said to supplant every book on the same subject that has gone before it Through the diary and letters of William Swain augmented by interpolations from more than five hundred other gold seekers and by letters sent to Swain from his wife and brother back home the complete cycle of the gold rush is recreated the overland migration of over thirty thousand men the struggle to strike it rich in the mining camps of the Sierra Nevadas and the return home through the jungles of the Isthmus of Panama In a new preface the author reappraises our continuing fascination with the gold rush experience as a defining epoch in western indeed American history Backpacker ,1976-10 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured *Inventory of the County Archives of Utah: Weber County (Ogden)* Historical Records Survey (Utah), 1937 Desperate Passage Ethan Rarick, 2008-02-04 In late October 1846 the last wagon train of that year s westward migration stopped overnight before resuming its arduous climb over the Sierra Nevada Mountains unaware that a fearsome storm was gathering force After months of grueling travel the 81 men women and children would be trapped for a brutal winter with little food and only primitive shelter The conclusion is known by spring of the next year the Donner Party was synonymous with the most harrowing extremes of human survival But until now the full story of what happened what it tells us about human nature and about America s westward expansion remained shrouded in myth Drawing on fresh archaeological evidence recent research on topics ranging from survival rates to snowfall totals and heartbreaking letters and diaries made public by descendants a century and a half after the tragedy Ethan Rarick offers an intimate portrait of the Donner party and their unimaginable ordeal a mother who must divide her family a little girl who shines with courage a devoted wife who refuses to abandon her husband a man who risks his life merely to keep his word But Rarick resists both the gruesomely sensationalist accounts of the Donner party as well as later attempts to turn the survivors into archetypal pioneer heroes The Donner Party Rarick writes is a story of hard decisions that were neither heroic nor villainous Often the emigrants displayed a more realistic and typically human mixture of generosity and selfishness an alloy born of necessity A fast paced heart wrenching clear eyed narrative history A Desperate Hope casts new light on one of America s most horrific encounters between the dream of a better life and the harsh realities such dreams so often must confront **Wagons West** Frank McLynn, 2007-12-01 An

acclaimed historian's compellingly told year by year account of the pioneering efforts to conquer the American West in the mid nineteenth century *The Guardian*. In all the sagas of human migration few can top the drama of the journey by Midwestern farmers to Oregon and California from 1840 to 1849 between the era of the fur trappers and the beginning of the gold rush. Even with mountain men as guides these pioneers literally plunged into the unknown braving all manner of danger including hunger thirst disease and drowning. Employing numerous illustrations and extensive primary sources including original diaries and memoirs McLynn underscores the incredible heroism and dangerous folly on the overland trails. His authoritative narrative investigates the events leading up to the opening of the trails the wagons and animals used the roles of women relations with Native Americans and much else. The climax arrives in McLynn's expertly re-created tale of the dreadful Donner party and he closes with Brigham Young and the Mormons beginning communities of their own. Full of high drama tragedy and triumph rarely has a book so wonderfully brought to life the riveting tales of Americans trek to the Pacific.
