**Reclamation Managing Water in the West, The Bureau of Reclamation: Origins and Growth to 1945, Vol. 1, 2006**, 2006 *American Environmental History* Carolyn Merchant, 2007-10-31 By studying the many ways diverse peoples have changed shaped and conserved the natural world over time environmental historians provide insight into humanity's unique relationship with nature and more importantly are better able to understand the origins of our current environmental crisis Beginning with the precolonial land use practice of Native Americans and concluding with our twenty first century concerns over our global ecological crisis American Environmental History addresses contentious issues such as the preservation of the wilderness the expulsion of native peoples from national parks and population growth and considers the formative forces of gender race and class Entries address a range of topics from the impact of rice cultivation slavery and the growth of the automobile suburb to the effects of the Russian sea otter trade Columbia River salmon fisheries the environmental justice movement and globalization This illustrated reference is an essential companion for students interested in the ongoing transformation of the American landscape and the conflicts over its resources and conservation It makes rich use of the tools and resources climatic and geological data court records archaeological digs and the writings of naturalists that environmental historians rely on to

conduct their research The volume also includes a compendium of significant people concepts events agencies and legislation and an extensive bibliography of critical films books and Web sites      **Border Oasis** Evan R. Ward,2016-12-15 The environmental history of the Colorado River delta during the past century is one of the most important and most neglected stories of the U S Mexico Borderlands Thanks to entrepreneurs such as William E Smythe the surrounding desert in Arizona California Sonora and Baja California has been transformed into an agricultural oasis but not without significant ecological political economic and social consequences Evan Ward explores the rapid development of this region examining the ways in which regional politics and international relations created a garden in the Mexicali Yuma and Imperial Valleys while simultaneously threatening the life of the Colorado River Tracing the transformation of the delta by irrigated agribusiness through the twentieth century he draws on untapped archival resources from both sides of the border to offer a new look at one of the world s most contested landscapes Border Oasis tells how two very different nations developed the delta into an agricultural oasis at enormous environmental cost Focusing on the years 1940 to 1975 including the disastrous salinity crisis of the 1960s and 1970s it combines Mexican Native American and U S perspectives to demonstrate that the political and diplomatic influences on the delta played as much a part in the region s transformation as did irrigation Ward reveals how mistrust among political and economic participants has been fueled by conflict between national and local officials on both sides of the border by Mexican nationalism and by a mutual recognition that water is the critical ingredient for regional economic development With overemphasis on development in both nations leading to an ecological breaking point Ward demonstrates that conflicting interests have made sound binational management of the delta nearly impossible By weaving together all of these threads that have produced the fabric of today s lower Colorado his study shows that the environmental history of the delta must be understood as a whole not from the standpoint of only one of many competing interests

Cornerstone at the Confluence Jason A. Robison,2022-11-08 Signed on November 24 1922 the Colorado River Compact is the cornerstone of a proverbial pyramid an elaborate body of laws colloquially called the Law of the River that governs how human beings use water from the river system dubbed the American Nile No fewer than forty million people have come to rely on the Colorado River system in modern times a river system immersed in an unprecedented unrelenting megadrought for more than two decades Attempting to navigate this new normal policymakers are in the midst of negotiating new management rules for the river system a process coinciding with the compact s centennial that must be completed by 2026 Animated by this remarkable confluence of events Cornerstone at the Confluence leverages the centennial year to reflect on the compact and broader Law of the River to envision the future It is a volume inviting dialogue about how the Colorado River system s flows should be apportioned given climate change what should be done about environmental issues such as ecosystem restoration and biodiversity protection and how long standing issues of water justice facing Native American communities should be addressed In one form or another all these topics touch on the concept of equity embedded within the

compact a concept that tees up what is perhaps the foundational question confronted by Cornerstone at the Confluence Who should have a seat at the table of Colorado River governance

The Great Thirst Norris Hundley Jr., 2023-11-15 The story of the great thirst is brought up to date in this revised edition of Norris Hundley s outstanding history with additional photographs and incisive descriptions of the major water policy issues facing California now accelerating urbanization of farmland and open spaces persisting despoliation of water supplies and demands for equity in water allocation for an exploding population People the world over confront these problems and Hundley examines them with clarity and eloquence in the unruly laboratory of California The obsession with water has shaped California to a remarkable extent literally as well as politically and culturally Hundley tells how aboriginal Americans and then early Spanish and Mexican immigrants contrived to use and share the available water and how American settlers arriving in ever increasing numbers after the Gold Rush transformed California into the home of the nation s preeminent water seekers The desire to use profit from manipulate and control water drives the people and events in this fascinating narrative until by the end of the twentieth century a large colorful cast of characters and communities has wheeled and dealt built diverted and connived its way to an entirely different statewide waterscape The story of the great thirst is brought up to date in this revised edition of Norris Hundley s outstanding history with additional photographs and incisive descriptions of the major water policy issues facing California now accelerating urbanization

Make Waves Paula Anca Farca, 2019-10-16 Water is a symbol of life wisdom fertility purity and death Water also sustains and nourishes irrigates our crops keeps us clean and healthy and contributes to our energy needs But a strain has been put on our water resources as increased energy demands combine with the effects of climate

change to create a treacherous environment Individuals and communities around the globe increasingly face droughts floods water pollution water scarcity and even water wars We tend to address and solve these concerns through scientific and technological innovations but social and cultural analyses and solutions are needed as well In this edited collection contributors tackle current water issues in the era of climate change using a wide variety of recent literature and film At its core this collection demonstrates that water is an immense reservoir of artistic potential and an agent of historical and cultural exchange Creating familiar and relatable contexts for water dilemmas authors and directors of contemporary literary texts and films present compelling stories of our relationships to water water health ecosystems and conservation They also explore how global water problems affect local communities around the world and intersect with social and cultural aspects such as health citizenship class gender race and ethnicity This transformative work highlights the cultural significance of water the source of life and a powerful symbol in numerous cultures It also raises awareness about global water debates and crises

*Lettuce Wars* Bruce Neuburger, 2013-01-01 In 1971 Bruce Neuburger young out of work and radicalized by the 60s counterculture in Berkeley took a job as a farmworker on a whim He could have hardly anticipated that he would spend the next decade laboring up and down the agricultural valleys of California alongside the anonymous and largely immigrant workforce that feeds the nation This account of his journey begins at a remarkable moment after the birth of the United Farm Workers union and the ensuing uptick in worker militancy As a participant in organizing efforts strikes and boycotts Neuburger saw first hand the struggles of farmworkers for better wages and working conditions and the lengths the growers would go to suppress worker unity Part memoir part informed commentary on farm labor the U S labor movement and the political economy of agriculture *Lettuce Wars* is a lively account written from the perspective of the fields Neuburger portrays the people he encountered immigrant workers fellow radicals company bosses cops and goons vividly and indelibly lending a human aspect to the conflict between capital and labor as it played out in the fields of California **Large Rivers**

Avijit Gupta, 2022-05-02 An updated treatment of management and geomorphology of large rivers around the world The newly revised Second Edition of *Large Rivers Geomorphology and Management* delivers a thoroughly updated exploration of the form and function of major rivers The book brings together a set of papers on the large rivers of the world offering readers an insightful examination of a demanding subject The new Second Edition of the book includes fully updated and revised chapters as well as two entirely new chapters on the Ayeyarwady and the Arctic rivers This fascinating volume describes the environmental requirements for creating and maintaining a major river system case studies on over a dozen large rivers from different continents in a variety of physical environments and the measurement and management of large rivers Unmatched in scope *Large Rivers* sheds light on a subject lacking in comprehensive study Readers will benefit from the inclusion of A thorough introduction to the geology of large river systems hydrology and discharge transcontinental moving and storage of sediment and the greatest floods and largest rivers An exploration of the classification architecture

and evolution of large river deltas Discussions of sedimentology and stratigraphy of large river deposits including their recognition in the ancient record and the distinction from incised valley fills An examination of the effects of tectonism climate change and sea level change on the form and behavior of the modern Amazon river and its floodplain Measurement and management of large rivers The effect of climatic change on large rivers Perfect for postgraduate students and researchers in fluvial geomorphology hydrology sedimentary geology and river management Large Rivers Geomorphology and Management will also earn a place in the libraries of engineers and environmental consultants in the private and public sectors working on major rivers around the world

**Inland Fishes of the Greater Southwest** W. L. Minckley, Paul C. Marsh, 2009 This comprehensive new book replaces and substantially expands upon the landmark Fishes of Arizona which has been the authoritative source since it was first published in 1973 Inland Fishes of the Greater Southwest is a one volume guide to native and non native fishes of the lower Colorado River basin downstream from the Grand Canyon and of the northern tributaries of the Sea of Cortez in the United States and Mexico In all there are in depth accounts of more than 165 species representing 30 families The book is not limited to the fish It provides insights into their aquatic world with information on topography drainage relations climate geology vegetational history aquatic habitats human made water systems and conservation A section of the book is devoted to fish identification with keys to native and non native families as well as family keys to species The book is illustrated with more than 120 black and white illustrations 47 full color plates of native fishes and nearly 40 maps and figures Many native fish species are unique to the Southwest They possess interesting and unusual adaptations to the challenges of the region able to survive silt laden floods as well as extreme water temperatures and highly fluctuating water flows ranging from very low levels to flash floods However in spite of being well adapted many of the fish described here are threatened or endangered often due to the acts of humans who have altered the natural habitat For that reason Inland Fishes of the Greater Southwest presents a vast amount of information about the ecological relationships between the fishes it describes and their environments paying particular attention to the ways in which human interactions have modified aquatic ecosystems and to how humans might work to ensure the survival of rapidly disappearing native species

**Middle of Nowhere** Sara M. Patterson, 2016-02-15 Pilgrims travel thousands of miles to visit Salvation Mountain a unique religious structure in the Southern California desert Built by Leonard Knight 1931 2014 variously described as a modern day prophet and an outsider artist Salvation Mountain offers a message of divine love for humanity In Middle of Nowhere Sara M Patterson argues that Knight was a spiritual descendant of the early Christian desert ascetics who escaped to the desert in order to experience God more fully Like his early Christian predecessors Knight received visitors from all over the world who were seeking his wisdom In Knight s wisdom they found a critique of capitalism a challenge to religious divisions and a celebration of the common person Recounting the pilgrims stories Middle of Nowhere examines how Knight and the pilgrims constructed a sacred space one that is now crumbling since the death of its creator
