necesario por tanto conocerlos en su lógica interna y en su expresión más genuina Esta obra presenta de una forma clara y precisa los elementos esenciales que configuran el hecho religioso La obra tiene tres partes y la lógica de su exposición va del análisis del fenómeno religioso en general a la presentación de la religión cristiana en particular En la primera parte se analiza la religión como un hecho social y humano desde el punto de vista de la sociología y fenomenología de la religión Ambas disciplinas nos muestran que el hecho religioso no es una superestructura ajena a la naturaleza del hombre en cuanto tal sino un dato de conciencia coextensivo con su ser en la historia En la segunda parte este hecho religioso es analizado en su configuración histórica concreta en las religiones del mundo siendo conscientes de otro dato fundamental que pone de relieve la cultura actual el pluralismo religioso Dentro de esta pluralidad de religiones se exponen de una forma más detallada aquellas que pueden tener un mayor interés para el lector español el Budismo y el Islam Finalmente en la tercera parte son presentados los elementos fundamentales para una introducción al cristianismo que ponga de relieve su inserción en las religiones del mundo y su singularidad específica la Escritura Jesucristo y la Iglesia Este libro es el fruto del trabajo común de los profesores de la Facultad de Teología de la Universidad Pontificia Comillas que explican la asignatura Cristianismo y teología social Libros españoles ,1979 Vocabulario de la vida femenina Martha Robles,2018-09-21 Esta obra nica por sus características y aspiraciones desvela un sentido del idioma que hasta hace poco se mantuvo oculto su aspecto femenino En una época de grandes transformaciones en la que es necesario que los avances de género se asienten y permeen toda manifestación social y cultural es indudable la exigencia de contar con un vocabulario que dé cuenta de este escenario en el que se desarrollan las sociedades actuales Así mediante la búsqueda de lo que esconden los vocablos a veces desde la orilla de la denuncia y lo pocas veces expresado Martha Robles se da a la inmensa tarea de registrar significados actuales dando luz nueva a la palabra que nombra e indaga a la mujer y su universo Este Vocabulario de la vida femenina ha buscado a la mujer y lo femenino en los senderos del lenguaje en los placeres en las costumbres en la enfermedad entre expresiones coloquiales en reductos de la miseria en las presiones padecidas por las agitadas relaciones sociales amorosas y de trabajo o en la soledad de las viudas en el dolor de la abandonada en la mordida del hambre **Host Bibliographic Record for**
