Subject Guide to Books in Print, 1993 Netherlands Yearbook of International Law 2017 Fabian Amtenbrink, Denise Prévost, Ramses A. Wessel, 2018-06-21 This Volume of the Netherlands Yearbook of International Law explores emerging trends and key developments in international economic law It examines shifts in the levels of cooperation from multilateral to plurilateral regional or bilateral or vice versa and shifts in the forms of cooperation new types of actors and instruments These trends are analysed both from a conceptual and a practical perspective with contributions addressing drivers for change historical perspectives future developments and evolutions in specific policy fields While a focus on international economic law may certainly not tell the whole story in relation to shifts in levels and forms of international cooperation it does allow for a more detailed analysis of some of the important trends we currently witness The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic area of public international law **The Securitization of Climate Change: Australian and United States' Military Responses (2003 - 2013)** Michael Durant Thomas, 2017-07-25 This book examines how the armed forces of the United States and Australia have responded to the threat posed by climate change to national security Drawing on established securitisation frameworks Copenhagen and Paris Schools the author uses a combination of quantitative and qualitative techniques to systematically examine more than 3 500 speeches policies and doctrinal articles since 2003 Importantly the author undertakes an examination of the intersection between the political and the military spheres probing the question of how ideology has influenced the military's uptake on the issue In this context the author identifies the difficulty of an ostensibly apolitical institution responding to what has become both a hyper political issue and an unprecedented security threat A close examination of the key political actors their intent outlook and political mandate for broader climate action is therefore crucial to understanding the policy freedom and constraints within which military leaders operate The book consists of eight chapters divided into four parts focusing on perspectives and methodological insights empirical case studies case study comparison and concluding observations Offers a rare and systematic examination of military climate policy by a military officer from Australia Identifies a divergence of Australian military climate policy from that of the US military during the Obama Administration Develops a unique method that quantifies climate security enabling a graphical representation for quick and ready reference ideally suited to policy makers *Nomination of Dr. M. Rupert Cutler, Dr. Dale Ernest Hathaway, Robert Haldeman Meyer, Alex P. Mercure, and Dr. Howard W. Hjort* United States. Congress. Senate. Committee on Agriculture, Nutrition, and Forestry, 1977 *Handbook on Policy, Process and Governing* H.K. Colebatch, 2018-12-28 This Handbook covers the accounts by practitioners and observers of the ways in which policy is formed around problems how these problems are recognized and understood and how diverse participants come to be involved in addressing them H K Colebatch and Robert Hoppe draw together a range of original contributions from experts in the field to illuminate the ways

in which policies are formed and how they shape the process of governing **ICOLEG 2021** Irma Cahyaningtyas,Aju Putrijanti ,Kadek Cahya Susila Wibawa ,2021-10-12 We proudly present the proceedings of 2nd International Conference on Law Economic and Governance 2021 ICOLEG 2021 It focuses on how the wave of digitalization influences the ethics and law especially in Law and Democracy Law and Indigenous People Law in Contemporary Issues Law and Economics Digital Economics Good Governance etc As we know the world today is changing and the world we are facing now is the one where everything is connected The contemporary social issues based on complex problems complex interest beyond borders and powers More than 125 manuscripts from various countries were presented at this conference with around 66 of them selected to be published in proceedings We hope by this conference discussions on how research on Law Economic and Government is possible in a disruptive era will give a perspective for the social and humanities studies development

Pluralist Readings in Economics: Key Concepts and Policy Tools for the 21st Century Maria Alejandra Madi,2017-06-15 The era of globalization has brought about unprecedented social political and environmental challenges for policy makers around the world due to the global impact of economic decisions In view of these challenges economics as a discipline needs to be taught with the goal of broadening the dialogue on social responsibility and developing a new pluralist culture of decision making which is inclusive to different schools of economic thought Pluralist Readings in Economics Key concepts and policy tools for the 21st century highlights the long standing debates regarding economic systems business models criteria of justice and economic policies by providing conceptual openings to economic theory in an engaging and accessible way The author provides broad coverage of relevant topics through the selection of influential economic thinkers and introduces the reader to their ideas context and relevant interpretations While dealing with complex problems the author goes beyond commonly known concepts by presenting questions on the historical context of globalization The study of economic concepts in this way leads to asking new questions concerning various issues relevant to economics The goal of the text is to provide an interdisciplinary perspective to readers in order to equip them with information that is key to address global economic challenges Thus this pluralist approach calls for a reflection of the evolution of global social and economic conditions to demonstrate problem solving approaches that align with the goal of addressing these challenges Pluralist Readings in Economics Key concepts and policy tools for the 21st century is suitable to a broad interdisciplinary readership as it will benefit all those who seek to better understand the complex stakes of the capitalist system in the tensions between regulatory policies free market equilibria and participatory openings in governance This introductory work also prepares the reader for debates and discussion in economic theory aimed at shaping policy transformations towards a more equitable just and sustainable world **Educational Leadership** Norris M. Haynes,Sousan Arafeh,Cynthia McDaniels,2014-12-30 Educational Leadership Perspectives on Preparation and Practice identifies core knowledge and skills that educational leaders should be exposed to during pre service preparation and throughout in service professional development The

contributors discuss established pedagogical and experiential learning models as well as provocative new paradigms of their own to help prepare leaders and reinforce leadership effectiveness. Implicit throughout the book are five key leadership themes: sensitivity to student development and learning; continual professional development; responsiveness to developmental, socio-cultural, and learning contexts; accepting accountability; and advancing the field. The contributors draw upon many collective years of experience as educators and supervisors of educational leaders to offer perspectives on the application and integration of core leadership principles in leadership preparation and practice. *Nomination of Murray L.*

Weidenbaum United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 1981. The Problem with Survey Research George Beam, 2017-09-08. The Problem with Survey Research makes a case against survey research as a primary source of reliable information. George Beam argues that all survey research instruments, all types of asking, including polls, face-to-face interviews, and focus groups, produce unreliable and potentially inaccurate results. Because those who rely on survey research only see answers to questions, it is impossible for them or anyone else to evaluate the results. They cannot know if the answers correspond to respondents' actual behaviors, objective phenomena, or to their true beliefs and opinions, subjective phenomena. Reliable information can only be acquired by observation, experimentation, multiple sources of data, formal model building, and testing, document analysis, and comparison. In fifteen chapters divided into six parts: Ubiquity of Survey Research; The Problem Asking Instruments; Asking Settings; Askers and Proper Methods; and Research Designs. The Problem with Survey Research demonstrates how asking instruments, settings in which asking and answering take place, and survey researchers themselves skew results and thereby make answers unreliable. The last two chapters and appendices examine observation, other methods of data collection, and research designs that may produce accurate or correct information and shows how reliance on survey research can be overcome and must be. *The Politics and Crisis*

Management of Animal Health Security John Connolly, 2016-03-09. The Politics and Crisis Management of Animal Health Security addresses the 2001 foot and mouth epidemic in the United Kingdom, one of if not the most significant crises ever to face the UK farming industry. Underpinned by interviews with politicians and bureaucrats and with significant primary documentary analysis, the book shows that the crisis was a critical juncture in how disease outbreaks have been planned and managed ever since. The author explores how this event affected policy and governance arrangements for managing subsequent disease-induced threats such as avian influenza and bovine TB and concludes by considering the temporality of lesson learning by the UK government, including the current and future challenges associated with managing incongruent risks, e.g., flood protection, swine flu, and Ebola. This book provides students of public policy and administration with a significant illustration of how key concepts and analytical lenses from public policy can be applied to the study of the contours of practical policy change. Nomination of Dale Ernest Hathaway to be Under Secretary of Agriculture for Internal Affairs and Commodity Programs United States. Congress. Senate. Committee on Agriculture, Nutrition, and
