New Heaven, New Earth Jan H. Blits, 2009-06-16

Patterned after his previous books on Shakespeare's plays Jan H Blits's New Heaven New Earth is a scene by scene line by line philosophical study of Antony and Cleopatra Combining close attention to detail with interpretive breadth Blits approaches Shakespeare as a first rank thinker who master of his own thought and writing produced plays and poetry with an infinitely conscious art like any commonly recognized philosophical poet Treating the play as a fully coherent whole Blits shows that Antony and Cleopatra as much a history play as a love story depicts the transition from the pagan to the Christian world from the aftermath of the collapse of the Roman Republic and the decline of the pagan gods to the emergence of the Roman Empire and the conditions giving rise to Christianity Instead of being organized thematically New Heaven New Earth follows the play from beginning to end closely examining Shakespeare's text on its own terms and not on the terms of modern literary theory Using this approach Blits draws significant and insightful conclusions that will satisfy the interests of scholars of politics literature and history alike
