*Explore Shamanism* Alby Stone, 2003 **Shamans of the Foye Tree** Ana Mariella Bacigalupo, 2010-01-01 Drawing on

anthropologist Ana Mariella Bacigalupo's fifteen years of field research *Shamans of the Foye Tree Gender Power and Healing among Chilean Mapuche* is the first study to follow shamans' gender identities and performance in a variety of ritual, social, sexual and political contexts. To Mapuche shamans or machi, the foye tree is of special importance not only for its medicinal qualities but also because of its hermaphroditic flowers which reflect the gender-shifting components of machi healing practices. Framed by the cultural constructions of gender and identity, Bacigalupo's fascinating findings span the ways in which the Chilean state stigmatizes the machi as witches and sexual deviants, how shamans use paradoxical discourses about gender to legitimize themselves as healers and at the same time as modern men and women, the tree's political use as a symbol of resistance to national ideologies and other components of these rich traditions. The first comprehensive study on Mapuche shamans' gendered practices, *Shamans of the Foye Tree* offers new perspectives on this crucial intersection of spiritual, social and political power.

Price, 2001 No Australian Aboriginal content. *The Archaeology of Shamanism* Neil Price, 2003-12-16 In this timely collection, Neil Price provides a general introduction to the archaeology of shamanism by bringing together recent archaeological thought on the subject. Blending theoretical discussion with detailed case studies, the issues addressed include shamanic material culture, responses to dying and the dead, shamanic soundscapes, the use of ritual architecture and shamanism in the context of other belief systems such as totemism. Following an initial orientation reviewing shamanism as an anthropological construct, the volume focuses on the Northern hemisphere with case studies from Greenland to Nepal, Siberia to Kazakhstan. The papers span a chronological range from Upper Palaeolithic to the present and explore such cross-cutting themes as gender and the body, identity, landscape, architecture as well as shamanic interpretations of rock art and shamanism in the heritage and cultural identity of indigenous peoples. The volume also addresses the interpretation of shamanic beliefs in terms of cognitive neuroscience and the modern public perception of prehistoric shamanism.
