Shanghai Tango Xing Jin, Catherine Texier, 2007 Jin Xing is a former prima ballerina one of the brightest stars of the Shanghai Ballet But her journey to international fame was fraught with difficulty because Jin Xing was in fact born a man From an early age she was intensely uncomfortable with her gender a young boy dreaming of becoming a ballerina and a princess Unable to understand or put words to these feelings she immersed herself in ballet dancing her first love Before long her precocious talent was noted and at the age of nine in spite of her parents concerns she joined the People's Liberation Army Dance Corps There she received both dance and military training and attained the rank of Colonel The curtains opened on a new act in her life when at the age of 19 she received an arts scholarship to study modern dance in New York While there she discovered for the first time that it was possible to change sex She took the singularly courageous decision to return to China to undergo one of the first full sex change operations the country had ever witnessed The dream she had nurtured from youth of becoming a woman finally became a reality As dramatic graceful and deeply felt as a pas de deux *Shanghai Tango* is a deeply personal and inspiring account of growing up in a body that feels alien and of braving pioneering surgery in communist China The Story Station website

aggressive foreign policy stances just as Chinese leaders believe the United States still has futile designs on blocking their country's inevitable rise to great power status Cheng Li's *Middle Class Shanghai* argues that American policymakers must not lose sight of the expansive dynamism and diversity in present day China The caricature of the PRC as a monolithic Communist apparatus set on exporting its ideology and development model is simplistic and misguided Drawing on empirical research in the realms of higher education avant garde art architecture and law this unique study highlights the strong constructive impact of bilateral exchanges Combining eclectic human stories with striking new data analysis this book addresses the possibility that the development of China's class structure and cosmopolitan culture exemplified and led by Shanghai could provide a force for reshaping U S China engagement Both countries should build upon the deep cultural and educational exchanges that have bound them together for decades The author concludes that U S policymakers should neither underestimate the role and strength of the Chinese middle class nor ostracize or alienate this force with policies that push it toward jingoistic nationalism to the detriment of both countries and the global community With its unique focus this book will enlighten policymakers scholars business leaders and anyone interested in China and its increasingly fraught relations with the United States
