Shape Of Pneumatology:

The Shape of Pneumatology John McIntyre, 2004-07-01 Addresses one of the most difficult aspects of the doctrine the heterogeneity of the biblical and traditional material from which it is derived and points to the areas where church must act to recover the sense of the immediacy of the Holy Spirit *Role of the Holy Spirit in Protestant Systematic Theology* Wilson Varkey, 2011-08 This volume is a meticulously researched text on pneumatology that puts the major pneumatological issues together without confining to the traditional way of dealing with the doctrine of the Holy Spirit Although pneumatology has been a neglected field in theological discussions of the past there is a renewal of interest among theologians on pneumatology today This renewal of interest has led to the formation of this work on the role of the Holy Spirit in the Protestant Systematic Theology Through highlighting the role and significance of the Holy Spirit in the whole divine action this volume contends that pneumatology is not a dull theological locus but rather an essential theological disposition relevant for today The detailed arguments found within challenge and inspire the contemporary pneumatological discussions as it relates to all the facets of theological reflection and action *The Spirit in Public Theology* Vincent E. Bacote, 2010-11-01 In *The Spirit in Public Theology* Bacote shows how Dutch politician and church leader Abraham Kuyper lived a thoroughly Christian life and explains why Christians need to follow Kuyper by taking their faith into the public sphere Identifying the characteristics of a true Christian worldview Bacote demonstrates the need for a public theology that stresses engagement between the church and the world *The Spirit in Public Theology* should be required reading for pastors students and all Christians who want to take their faith beyond the four walls of the Church *The Holy Spirit and Worship* Elizabeth Welch, 2022-06-30 The Holy Spirit has become an object of greater attention in Trinitarian theology and indeed in the broader life of the Church since the rise of Pentecostalism at the beginning of the twentieth century Different understandings of the Holy Spirit have had different impacts on worship here Elizabeth Welch examines four surprising overlaps in the thought of two radically different traditions of the church about the relationship between the Holy Spirit and worship These traditions are represented by John Owen from seventeenth century England and John Zizioulas from contemporary Greece Welch explores in turn the common themes of the personal and relational nature of the triune God the immediacy of the encounter with God through the Holy Spirit in worship the role of the Holy Spirit in leading people into truth and the transformative nature of worship that draws people into sharing God's purpose for the world In each the insights of Owen and Zizioulas shed new light on the ongoing debate in the Church today **The Holy Spirit as Person and Power** Rob Yule, 2020-01-10 In just over one hundred years the Pentecostal charismatic movement has transformed world Christianity Noted for their rediscovery of spiritual gifts and commitment to world evangelization 700 million Pentecostals and charismatics now account for more than 27 percent of the global Christian movement The Pentecostal charismatic movement has been more noted for its activism than for theological reflection But this may be changing *The Holy Spirit as Person and*

Power challenges traditional theology to take account of what has been disclosed in the dynamism and variety of charismatic experience. The author is a theologically trained practitioner impacted in midlife by a transforming experience of the Holy Spirit. He has been a hands-on leader in the renewal movement. Now in his later years, he reflects on the meaning of the grace imparted to the church by the renewing activity of God's Spirit. This is not the work of an enthusiast claiming a new revelation. Rather, the author draws attention to many nuances in the Bible's description of the Spirit that have been overlooked in traditional pneumatology. By relating these insights to Orthodox, Catholic, Protestant, and evangelical theology, he has produced a book with ecumenical implications for all branches of world Christianity.

Types of Pentecostal Theology Christopher A. Stephenson, 2016-10. In this, the first critical study of the major theologians of pentecostalism, Christopher A. Stephenson establishes four original categories that classify recent pentecostal theologians' methodologies in systematic constructive theology. *In Search of the Spirit: Selected Works, Volume One* John R. Levison, 2023-11-13. In his trailblazing studies of the spirit in Jewish and Christian Antiquity, John R. Jack Levison shatters theological and exegetical taxonomies. Should the spirit be understood as breath or Spirit or both? Is the spirit directed to creation or salvation or both? Is the spirit a force or an angel or both? Does the spirit inspire ecstasy or wisdom or both? When Levison transfers the starting point of pneumatology from the New Testament to the Hebrew Bible, from Christianity to Judaism, questions swell, assumptions detonate, and expectations flourish. Consequently, Levison's studies are considered impressive and provocative. *Review of Biblical Literature*, delightful, engaging. *Catholic Biblical Quarterly*, compelling, eloquent, sensitive. *Word and World*, and a remarkable read. *Themelios*, with profound ramifications for both Jewish and New Testament Studies. *Journal of Jewish Studies*. Now, for the first time, selections of his breathtaking array of studies are available in three accessible volumes. This volume, in which you will discover some of the programmatic studies Levison published on the biblical literature of both testaments, reveals why. *Reading Religion*, A Publication of the American Academy of Religion, forecasts that Levison will continue to be at the center of our most fruitful discussions of pneumatology.

The Mission of the Triune God Adam Dodds, 2017-07-31. Lesslie Newbigin was arguably the greatest missionary thinker of the twentieth century. After a successful missionary career in South India, Newbigin pioneered missionary engagement with the secular West and resurgent Islam. He also led the way in arguing that the Church's mission can only be understood in light of the doctrine of the Trinity. Over fifty years ago, Newbigin called for the further development of missionary thinking grounded in the Triune being of God. This work is in response to that call. Adam Dodds provides the first in-depth study of Newbigin's trinitarian theology of mission. Dodds constructs a systematic account of the central features of the mission of the Triune God: the Triune being of God, the mission of the Son, the mission of the Holy Spirit, and the mission of the church. This book contributes to our understanding of the work of Lesslie Newbigin, offers a systematic theological account of the mission of the Triune God, and contributes to the retrieval of Christian mission from the theological margins back to a place of central importance to Christian theology.

The Holy Spirit in African Christianity Chigor Chike, 2015-04-01 This book is a study of what African Christians living in Britain believe about the Holy Spirit

Faith Seeking Understanding Daniel L. Migliore, 2004-06-14 Daniel Migliore's *Faith Seeking Understanding* has been a standard introduction to Christian theology for more than a decade. The book's presentation of traditional doctrine in freshly contemporary ways, its concern to hear and critically engage new voices in theology, and its creative and accessible style have kept it one of the most stimulating, balanced, and readable guides to theology available. This second edition of *Faith Seeking Understanding* features improvements from cover to cover. Besides updating and expanding the entire text of the book, Migliore has added two completely new chapters. The first, *Confessing Jesus Christ in Context*, explores the unique contributions to Christian theology made by recent theologians working in the African American, Asian American, Latin American, Hispanic, feminist, womanist, and *mujerista* traditions. The second new chapter, *The Finality of Jesus Christ and Religious Pluralism*, addresses the growing interest in the relationship of Christianity to other religions and their adherents. Migliore's three delightful theological dialogues are followed by a new appendix, an extensive glossary of theological terms, making the book even more useful to students seeking to understand the history, themes, and challenges of Christian belief.

The Triune God and the Charismatic Movement Jim Purves, 2007-01-01 All emotion and no theology. Or a fundamental challenge to reappraise and realign our Trinitarian theology in the light of Christian experience. This study of Charismatic renewal as it found expression within Scotland at the end of the twentieth century evaluates the use of Patristic, Reformed, and contemporary models of the Trinity in explaining the workings of the Holy Spirit.

Network Church Andy Lord, 2012-03-19 Pentecostal churches have grown over the last century but only a limited amount has been written about their ecclesiology. Much of the existing work focuses on congregational models and contemporary practice. This book argues the need for a pentecostal systematic approach to ecclesiology. Utilising the method of Amos Yong, a pentecostal ecclesiology based on a network church structure is developed. Systematic issues of catholicity are addressed through mission insights on partnership, and a hospitable approach to contextualisation is developed. This book therefore suggests new ways forward in pentecostal studies and ecclesiology.

The Spirit Shaped Church Swarup Bar, 2021-02-23 In *The Spirit Shaped Church*, Swarup Bar argues that the church is defined by its relationship with others. A relational church depends on the porousness of its borders, which means that while a church has its distinctiveness, it ought to be open to negotiate relational engagements with the world around it. This sort of relationally distinct, permeable church is found to be possible through the leading of the Spirit and the work of Christ. Such engagement is found to be relevant in a plural, religious, cultural context and in situations of marginalization in India. *The Spirit Shaped Church* reflects an ongoing commitment on the part of Fortress Press to engage the needs of Christian communities around the world. The book is aimed at teachers, clergy, students, and anyone with an interest in the lived experience of Christians in India.

Minding Creation Joanna Leidenhag, 2020-12-10 Are humans the only creatures that can appreciate God's creation? What if consciousness is

spread more widely across all things This volume examines panpsychism through the lens of Christian doctrine *Minding Creation* is the first substantial examination of what a panpsychist theory of consciousness implies for key theological debates concerning God's presence and action evolution and the origin of the soul human uniqueness and the environmental crisis Joanna Leidenhag develops a theological panpsychism that is based on an exceptionally wide range of scholarship *Minding Creation* draws on the theologies of historical figures such as Augustine of Hippo Gottfried von Leibniz and others in order to create a critical and constructive conversation with contemporary analytic philosophers of mind such as Thomas Nagel Galen Strawson and David J Chalmers Leidenhag also discusses key concepts and issues such as emergence theory divine action and ecology She concludes that God created a universe from nothing which is filled with indwelling powers sacramental value and intrinsic experience This is a creation in which the Holy Spirit is internally present at every point a creation that worships God and a creation that human beings must protect and lead in praise

Holy Spirit and Salvation Veli-Matti Kärkkäinen, 2010-01-01 Theologians from the early church to the present have written much about the Holy Spirit and Christian salvation This extensive sourcebook of primary theological texts makes many of these writings available with a description of their context and importance Especially valuable are more recent works emerging from theologians in Africa Asia and Latin America This global perspective coupled with the broad selection of writings from the history of theology makes this the most complete collection of primary source material on these topics

Origen and the Holy Spirit Justin J. Lee, 2023-01-23 This book is an in depth examination of the pneumatology of Origen of Alexandria Justin J Lee argues that Origen conceives of the Holy Spirit as a divine person but inferior in nature in both person and work This can be discerned from his understanding of the Son and Father as well as the influence of Middle Platonism on his theological and cosmological framework Ontologically Origen's understanding of Trinity is a hierarchy of divine persons in which the greater ministers to the existence of the lower Origen's pneumatology can be best understood by examining how he speaks about the work of the Holy Spirit The Spirit participates in the divine work of salvation reflecting an economic Trinity of shared work and will The Spirit's primary role is to indwell and assist the saints There are two major actions of the Holy Spirit's work 1 the downward action of God where the Spirit is the distributor of the divine gifts and graces and 2 the Spirit's upward work of revelation and sanctification by which he leads the saints to the Son and Father The Spirit thus serves as the practical and personal initiator of believers into the greater processes of salvation and deification

The Spirit and the Song Chris E. W. Green, Steven Félix-Jäger, 2024-09-16 *The Spirit and the Song* Pneumatological Reflections on Popular Music explores pertinent pneumatological issues that arise in music It offers three distinct contributions first it asks what if anything music tells listeners about God's Spirit-ness Can the experience of music speak to human spirit-ness the world's transcendental or a person's own self-transcendence in ways nothing else does or can Second this book explores how the Spirit functions within and even determines culture through music Because music is a profound human expression it can find

itself in a rich dialogue with the Spirit Third and finally this book explores the contested status of music in Christian spiritual traditions It deals with music as inspired by the Spirit music as participation in Spiritedness and music as temptation of the flesh As such this book also engages music s placement in Christian spiritual traditions The contributors of this book ask how Christian convictions about and experiences of the Spirit might shape the way one thinks about music **Calvin's Ladder** Julie Canlis,2010-06-28 Calvin s Ladder traces the theme of participation in early Christian spirituality then reveals how Calvin reworks it into the heart of his Protestant manifesto on theology from publisher description [The Anointed Son](#) Myk Habets,2010-01-01 Spirit Christology complements Logos Christology in the same way in which Christ and the Spirit are mutually constitutive Or at least this should be the case The history of Christian thought shows that Logos Christology has dominated resulting in both an eclipse of Trinitarian doctrine and a diminution of pneumatology Recently there have been calls to reclaim a theology of the Third Article in order to present a Trinitarian theology that is faithful to Scripture the Great Tradition and one that is existentially viable While studies examine various aspects of Spirit Christology there has yet to appear a work that introduces the doctrine examines the various mutually exclusive proposals and offers a constructive trinitarian proposal The present work does just this introducing the constituent features of a Spirit Christology that is Trinitarian orthodox and contemporary The current work proposes a model of Spirit Christology that complements rather than replaces Logos Christology and does so in a robustly Trinitarian framework Within contemporary theology a pneumatically oriented approach to Christology is being advanced across denominational and traditional lines Those wanting to navigate their way through the many competing proposals for a Third Article theology will find a comprehensive map here

Pentecostal Experience Peter D. Neumann,2012-08-22 Pentecostals are known for an experiential spirituality that emphasizes immediate encounters with God through the Holy Spirit But how should such experience be understood Is it in fact quite so immediate Neumann argues that Pentecostal experience of God is mediated by the Spirit s work through Scripture the Christian tradition and the broader cultural context Using the work of three contemporary Pentecostal theologians Frank D Macchia Simon K H Chan and Amos Yong the book demonstrates that a mediated view of experience of God is forging a more mature Pentecostal theology As further evidence of this maturation Neumann engages these Pentecostal theologians in ecumenical dialogue with leading representatives from Roman Catholic Eastern Orthodox and Protestant traditions
