*Storytelling in Kabuki* Steen Ledet Christiansen, 2024-04 Steen Ledet Christiansen's *Storytelling in Kabuki* explores the series created by David Mack a slow recursive narrative that focuses on the death of Kabuki and her past The series ran from 1994 to 2004 in a variety of miniseries one shots and spin offs rather than following a conventional American monthly release schedule Most of the series explores different perspectives on the same event and adds background to Kabuki's past usually through surreal sequences dreams and near death experiences The flexibility of comics approach to chronology space focalization narrative and fictionality enabled Mack to produce an unusual experience Kabuki tells a story that can only exist via comics Christiansen analyzes the visual design of the series a heterogeneous collection of styles depending on the story To understand Kabuki it is crucial to explore the visual styles as well as the use of visual and spatial rhymes and mixed media forms Because Kabuki employs a complex layering of focalizations diegetic levels and metafictional self reflectivity that is rare in mainstream American comics it utilizes a narrative poetics that focuses on constant repeating restating and returning to the same events Kabuki's unique compositional layering allows Christiansen to provide a clear example of how comics work while also expanding on critical vocabulary especially in terms of spatial poetics By exploring spatial form Christiansen illuminates and gives a critical framework to a different and underexamined aspect of comics      **Fun and Educational**
