Shape Of My Own:

On My Own Florence Falk, 2008-03-25 At some point over the course of the average American woman's life she will find herself alone whether she is divorced widowed single or in a loveless isolating relationship And when that time comes it is likely that she will be at a loss as to how to handle it As a society we have an unspoken but omnipresent belief that a woman alone is an outcast inherently flawed in some way In this invigorating supportive book psychotherapist Florence Falk aims to take the fear doubt confusion and helplessness out of being a woman alone Falk invites all women to find their own paths toward an authentic selfhood to discover the pleasures and riches of solitude and to reconnect with others through a newfound sense of self confidence Like so many women before her Florence Falk found herself divorced alone and unsure of herself Soon she realized that by embracing her solitude for what it was a potentially enriching and life altering experience she could turn what once would have felt like loneliness into a far more positive and empowered aloneness Falk notes that each of us has two opposing drives one causes us to yearn to make close connections with others and the other pulls us back into ourselves into the need for selfhood and certainty that can only be shaped through solitude In order to be whole she says we must heed both of those impulses But in our modern culture the former is stressed while the latter is neglected even vilified *On My Own* boldly shifts that paradigm With inspiring intimate stories of women from all backgrounds Falk illuminates the essential role that being alone plays in women's lives Whether she is in a stable relationship or on her own every woman must learn to be by herself for if she can be fully free unfettered by society's stigmas about being alone life and all its possibilities will open up for her And as Falk demonstrates once a woman has discovered the richness of solitude she is not likely to give it up so easily

Minds of Our Own Wendy Robbins, Meg Luxton, Margrit Eichler, Francine Descarries, 2009-08-02 This book of personal essays by over forty women and men who founded women's studies in Canada and Quebec explores feminist activism on campus in the pivotal decade of 1966-76 The essays document the emergence of women's studies as a new way of understanding women, men and society and they challenge some current preconceptions about second wave feminist academics The contributors explain how the intellectual and political revolution begun by small groups of academics, often young untenured women at universities across Canada, contributed to social progress and profoundly affected the way we think, speak, behave, understand equality and conceptualize the academy and an academic career A contextualizing essay documents the social, economic, political and educational climate of the time and a concluding chapter highlights the essays' recurring themes and assesses the intellectual and social transformation that their authors helped set in motion The essays document the appalling sexism and racism some women encounter in seeking admission to doctoral studies, in hiring, in pay and in establishing the legitimacy of feminist perspectives in the academy They reveal sources of resistance too, not only from colleagues and administrators but from family members and from within the self In so doing they provide inspiring examples of sisterly support and lifelong friendship

Political Formation Jenny Leith, 2023-01-31 What might it mean for us to be formed as disciples not only by the church but also by the world In *Political Formation: Being Formed by the Spirit in Church and World* Jenny Leith argues that ethical and political formation of Christians takes place through the work of the Spirit both in the church and in civic life and the church too has something to learn from wider political practices and movements This account of formation places centre stage a reckoning with the forms of exclusion and marginalisation that mar the church and yields an understanding of the church as not only ethically formative but also in constant need of being formed itself Offering a fresh vision for ecclesiology which grapples with the ethical failings of the church and takes seriously the need for the church to keep on recognising and repenting of its sins, the book offers a major new contribution to discussions around Christian formation and the relationship between discipleship and ethics
