Shakespeare's Twenty-First Century Economics Frederick Turner, 1999-09-23 I love you according to my bond says Cordelia to her father in King Lear As the play turns out Cordelia proves to be an exemplary and loving daughter A bond is both a legal or financial obligation and a connection of mutual love How are these things connected In As You Like It Shakespeare describes marriage as a blessed bond of board and bed the emotional religious and sexual sides of marriage cannot be detached from its status as a legal and economic contract These examples are the pith of Frederick Turner s fascinating new book Based on the proven maxim that money makes the world go round this engaging study draws from Shakespeare s texts to present a lexicon of common words as well as a variety of familiar familial and cultural situations in an economic context Making constant recourse to well known material from Shakespeare s plays Turner demonstrates that the terms of money and value permeate our minds and lives even in our most mundane moments His book offers a new humane evolutionary economics that fully expresses the moral spiritual and aesthetic relationships among persons and between humans and nature Playful and incisive Turner s book offers a way to engage the wisdom of Shakespeare in everyday life in a trenchant prose that is accessible to lovers of Shakespeare at all levels

A Century of Sermons Upon Several Remarkable Subjects John Hacket, 1675 Technology,

Self-Fashioning and Politeness in Eighteenth-Century Britain A. Withey, 2015-12-03 The second half of the eighteenth century brought important changes in attitudes towards shaping the body New expectations of polite conduct deportment and demeanour were projected onto the body with emphasis laid upon neatness elegance and a natural body shape Deformities were to be concealed whilst bodily surfaces were managed to convey a harmonious whole A large number of technologies of the body were involved in this process including wooden legs elastic trusses and even wigs But the introduction of a new type of steel cast steel around 1750 offered new material possibilities for shaping the body The physical properties of steel transformed the design and function of many instruments from postural devices to spectacles and even the smallest daily items of toilette By no means was steel the only material involved in transforming the body Neither did it simply sweep away all that had gone before But as an enlightened metal cast steel was a key material in the refinement of the body

Authenticity in Performance: Eighteenth-Century Case Studies Peter Le Huray, 1990-11-22 Authenticity in Performance focuses on nine representative works from the Baroque and Classical periods defining some of the more important questions that the performer and listener should ask The Extramural Sanctuary of Demeter and Persephone at Cyrene, Libya, Final Reports, Volume VI T. V. Buttrey, Ian McPhee, 1998-01-29 Coins for reasons that do not always make sense are often treated by field excavators as more reliable chronological indexes than other classes of artifacts This always makes their discovery a welcome event especially when they are silver or gold which tend to survive in the ground in a more recognizable state than their bronze counterparts The Red Figure pottery does not have quite the same chronological relevance as the coins but does on occasion contribute to the dating of archaeological contexts Its often high quality and interesting variety of shapes has already generated commentary elsewhere in addition to what is presented here University Museum Monograph 97 **ENGLISH LITERATURE ADVANCING THROUGH HISTORY 3 - The Seventeenth Century**

The Hyperlocal in Eighteenth- and Nineteenth-Century Literary Space Nicholas Birns,2019-08-26 This book examines literary representations of hyperlocal spaces that subvert the idea of grounded and organic spatial identities Figures such as the pond the scientific particle and Wedgwood creamware often go unnoticed but they exemplify important shifts in culture and aesthetics in the eighteenth and nineteenth centuries The Hyperlocal in Eighteenth and Nineteenth Century Literary Space argues that these objects as well as locations such as alcoves in remote shires city inns and mountain retreats were portrayed by writers in the late eighteenth and early to mid nineteenth centuries as gambits that challenged cultural hegemonies It shows that the hyperlocal space or object though particular reaches beyond itself affording an elasticity that can allow those things that seem beneath notice to reveal broader cultural significance
