Shaping The Future Resources For The Post Modern World:

The Cambridge Companion to Postmodern Theology Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without

Postmodern Theory Steven Best, Douglas Kellner, 1991-01-01 In this timely volume the authors systematically analyze postmodern theory to evaluate its relevance for critical social theory and radical politics today Best and Kellner provide An introduction and critique of the work of Foucault Deleuze and Guattari Baudrillard Lyotard Laclau and Mouffe and Jameson which assess the varying contributions and limitations of postmodern theory A discussion of postmodern feminist theory and the politics of identity A systematic study of the origin of the discourse of the postmodern in historical sociological cultural and philosophical studies The authors claim that while postmodern theory provides insights into contemporary developments it lacks adequate methodological and political perspectives to provide a critical social theory and radical politics for the present age

Shaping the Future Frederick Ferré,1976 **Frontiers of Social Theory** George Ritzer,1990 This book presents essays reflecting the current state and near term prospects of sociological theory **Whitehead's Radically Different Postmodern Philosophy** David Ray Griffin,2012-02-01 Postmodern philosophy is often dismissed as unintelligible self contradictory and as a passing fad with no contribution to make to the problems faced by philosophers in our time While this characterization may be true of the type of philosophy labeled postmodern in the 1980s and 1990s David Ray Griffin argues that Alfred North Whitehead had formulated a radically different type of postmodern philosophy to which these criticisms do not apply Griffin shows the power of Whitehead s philosophy in dealing with a range of contemporary issues the mind body relation ecological ethics truth as correspondence the relation of time in physics to the irreversible time of our lives and the reality of moral norms He also defends a distinctive dimension of Whitehead s postmodernism his theism against various criticisms including the charge that it is incompatible with relativity theory **Postmodernism and Public Policy** John B. Cobb Jr.,2012-02-01 One of America s preeminent systematic theologians John B Cobb Jr examines a range of social issues in his latest groundbreaking work Postmodernism and Public Policy Cobb uses a naturalistic postmodern perspective to make constructive proposals about a wide range of topics in the public eye Postmodernism and Public Policy shows how a postmodern Christianity can contribute positively to thinking about religious and cultural pluralism and how this can give direction to the educational enterprise It proposes ways of understanding sex gender and race that take diversity seriously without lapsing into a debilitating relativism that inhibits political action Arguing for a shift from individualism to thinking of persons in community it proposes that the world be organized from the bottom up in communities of communities and spells out what this implies for the political and economic orders and the relationship between them Cobb shows that formulations on all these topics can be coherently interconnected and he develops the implications of such thinking for some specific ethical and political issues that now trouble the United States such as abortion physician assisted suicide and homosexuality

God and Religion in the Postmodern World David Ray Griffin,1989-01-01 Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time

Founders of Constructive Postmodern Philosophy David Ray Griffin,John B. Cobb,Marcus P. Ford,Pete A. Y. Gunter,Peter Ochs,1993-01-01 In presenting Peirce James Bergson Whitehead and Hartshorne as members of a common and distinctively postmodern trajectory this book casts the thought of each of them in a new light It also suggests a new direction for the philosophical community as a whole now that the various forms of modern philosophy and even the deconstructive form of postmodern philosophy are widely perceived to be dead ends This new option offers the possibility that philosophy may recover its role as critic and guide within the more general culture a recovery that is desperately needed in these perilous times *Tao te Ching* Lao Tzu,2021-04-06 Although translations and interpretations of the Tao te Ching abound and new editions are released yearly few accomplish the hard work of linking and bridging the Tao s profound message to the needs

of modern readers There may be a profusion of versions but our lives and our world reflect little of the deep transformative potential of this important text Marc S Mullinax's new translation grows from extensive teaching experience and combines a deep understanding of the Tao's fourth century BCE Chinese context with an exciting two part application of that text to contemporary life First each of the eighty one verses is joined by a richly curated array of quotes sayings poems and stories from wisdom traditions around the globe With quotes ranging from Emerson to Pink Floyd and from the apostle Paul to Margaret Atwood the Tao's meaning comes alive in conversation with others Second a brief reflection puts the verse in historical context and highlights the transformative power of Wu Wei the non interfering action perfectly timed to promote peace and prevent injury to bring joy and justice to a hurting world

Philosophy of Technology Frederick Ferré, 1995 In this widely taught introductory survey Frederick Ferré explains the fundamental concerns and methods of philosophy and then guides readers through a philosophical inquiry into some of the major issues surrounding technology's impact on our lives The first half of the book concentrates on key definitions and epistemological issues including an overview of philosophy as applied to technology a definition of technology and an examination of technology as it relates to practical and theoretical intelligence especially how high technology relates to modern science and how science depends on technical craft The second half addresses the problems of living with technology Ferré contrasts Karl Marx's and Buckminster Fuller's bright visions of technology and modern existence with the somber visions of Martin Heidegger and Herbert Marcuse Next in offering direction for an ethical assessment of technology Ferré poses questions about workplace automation computers nuclear energy Third World development and genetic engineering Finally the book considers debates about the mutual influences between technology and religion and technology and metaphysics A glossary and a list of suggested further readings are included Providing a philosophical framework that will remain timely in the face of rapid technological change Philosophy of Technology will help students in both the sciences and liberal arts to examine comprehensively their own and society's fundamental beliefs and attitudes about technology

Being and Value Frederick Ferre, Frederick Ferré, 1996-01-01 Being and Value begins with a discussion on metaphysics showing the vital relationship between human life and the philosophical placement of value and emphasizing the current transition from the old mechanical worldview to the postmodern alternative inspired by ecology Being and Value shows how intimately premodern philosophy bound value into the fabric of things and analyzes the expulsion of value from factual being during the modern period Special attention is given to beauty What is the relationship between the subjective and objective conditions of beauty Is the beauty of nature merely the product of human appreciation The answer is that beauty and value is a more potent ingredient in the structure of things than modern reductionism allows

Eco-Impacts and the Greening of Postmodernity Tom Jagtenberg, David McKie, 1996-11-07 Addressing a growing need to examine environmental issues from a cultural perspective this innovative book adopts a cultural studies approach to reach a deeper understanding of the significance of ecological issues in our lives

Eco Impacts and the Greening of Postmodernity explores such vital questions as Can nature survive How do academic disciplines engage with environmental crises And how do we map sustainable futures The authors Tom Jagtenberg and David McKie bring a body of relevant literature into the debate that stems from both cultural and environmental issues as well as their own multidisciplinary perspectives on the subject

On Human Nature Armin Grunwald, Matthias Gutmann, Eva M. Neumann-Held, 2013-04-17 Modern molecular technology in the so called life sciences biology as well as medicine allows today to approach and manipulate living beings in ways and to an extent which not too long ago seemed Utopian The empirical progress promises further and even more radical developments in the future and it is at least often claimed that this kind of research will have tremendous effects on and for all of humanity for example in the areas of food production transplantation medicine including stem cell research and xenotransplantation therapeutic genetic manipulation and cell line cloning of cell lines or tissues and of biodiversity conservation strategies At least in Western industrialized countries the development of modern sciences led to a steady increase of human health well being and quality of life However with the move to make the human body itself an object of scientific research interests the respective scientific descriptions resulted in changes in the image that human beings have of themselves Scientific progress has led to a startling loss of traditional human self understanding This development is in contrast to an understanding according to which the question what it means to be human is treated in the realm of philosophy And indeed a closer look reveals that without denying the value of scientific progress science cannot replace the philosophical approach to anthropological questions

Thinking Through Myths Kevin Schilbrack, 2003-09-02 Embracing a radical balance between myths illusory and functional status these eight outstanding essays from leading academics deconstruct problems of rationality imagination and narrative to trace the influence of myth in our own beliefs

Reenchantment without Supernaturalism David Ray Griffin, 2018-08-06 The process philosophy of Alfred North Whitehead and Charles Hartshorne has made many distinctive contributions to the philosophy of religion David Ray Griffin now offers the first full scale philosophy of religion written from this perspective discussing such topics as the relationship between science and religion the validity of religious experience the nature and existence of God religious pluralism creation and evolution and the problem of evil Griffin's clear and comprehensive book also serves as a valuable introduction to process philosophy itself In his vigorous defense of a worldview that is fully naturalistic and fully religious Griffin shows not only how this position reconciles naturalism with freedom genuine religious experience and even life after death but also how its naturalistic theism reenchants the world in the sense of providing cosmic support for moral values Highly original and sometimes controversial Griffin's book develops its stance in conversation with influential proponents of other philosophical positions including William P Alston Jürgen Habermas John Hick Colin McGinn Alvin Plantinga Hilary Putnam Willard Quine Ninian Smart Jeffrey Stout and Bernard Williams

Broad and Narrow Interpretations of Philosophy of Technology P.T. Durbin, 2012-12-06 BACKGROUND DEPARTMENTS

SPECIALIZATION AND PROFESSIONALIZATION IN AMERICAN HIGHER EDUCATION For over half of its history U S higher education turned out mostly cler gymen and lawyers Looking back on that period we might be tempted to think that this meant specialized training for the ministry or the practice of law That however was not the case What a college education in the U S prepared young men almost exclusively for from the founding of Harvard College in 1636 through the founding of hundreds of denominational colleges in the first two thirds of the nineteenth century was leadership in the community Professionalization and specialization only began to take root and then became the dominant mode in U S higher education in the period roughly from 1860 1920 In subsequent decades that seemed to many critics to signal the end of what might be called education in wisdom the preparation of leaders for a broad range of responsibilities Professionalization specialization and departmentalization of higher education in the U S began in the last quarter of the nineteenth century

Theology for Earth Community Dieter T. Hessel, 2003-08-18 This volume brings together original essays by both seasoned professionals and emerging scholars who examine state of the art scholarship and pedagogy in ecologically alert theology Authors assess what various theologians have to offer and draw implications for reshaping religious and environmental studies as well as preparing the next generations of church leaders or pastoral workers What needs to be done these authors ask to bring biblical studies systematics social ethics practical theology spiritual formation and liturgy up to speed with eco justice thought and action on environmental questions

The Future Of U.s. Politics In An Age Of Economic Limits Bruce Shefrin, 2019-07-18 This study of the future of U S politics begins with an in depth examination of the political social and economic dynamics of the present Dr Shefrin demonstrates that economic growth has been a key element in maintaining political stability by diverting the attention of materially deprived groups away from disruptive political activity Examining the interaction of technological and political forces in the physical and social environment he argues that an expectation of economic limits is reasonable and perhaps undeniable and focuses on the changes in the political system that can be anticipated in a no growth or slow growth society Dr Shefrin employs a nondeterministic social choice approach to reach the conclusion that because the shape of the future is of major political significance it will be the focus of intense political conflict The four scenarios he presents reflect the major alternative directions possible for U S society according to current social theory Dr Shefrin feels that the conflict among supporters of these alternatives will constitute the politics of the future

The Legacy of Hans Jonas Hava Tirosh-Samuelson, Christian Wiese, 2008-06-25 An international interdisciplinary and interreligious retrospective examination of Hans Jonas 1903 1993 that engages his ideas in light of Existentialism utopian thought process philosophy and theology Zionism and environmentalism
