**Does Religious Education Matter?** Mary Shanahan, 2016-07-28 In the current climate and in an age of increasing hostility towards religion and the study of religion religious education is a much debated area Bringing together an interdisciplinary team of contributors from the USA Britain and Ireland and Australia representing a variety of religious perspectives Does Religious Education Matter provocatively demonstrates that it is vital that religious education is presented as it really is a valuable and rich resource that when taught and engaged with appropriately stimulates essential qualities for global and responsible citizenship critical thinking tolerance respect and mutual understanding

*Out on Waters* James Michael Nagle, 2020-03-25 For a denomination like Roman Catholicism that is canonically difficult to leave many American Catholics are migrating beyond the institution's immediate influence The new religious patterns associated with this experience represent a somewhat cohesive movement influencing not just Catholicism but the whole of North American religion Careful examination of the lives of disaffiliating young adults reveals that their religious lives are complicated For example the assumption that leaving conventional religious communities necessarily results in a non religious identity is simplistic and even perhaps misleading Many maintain a religious worldview and practice This book explores one place where the religiously affiliated and religiously disaffiliating regularly meet Catholic secondary schools and something interesting is happening Through a series of ethnographic portraits of Catholic religious educators and their disaffiliating former students the book explores the experience of disaffiliation and makes its complexity more comprehensible in order to advance the discourse of fields interested in this significant movement in religious history and practice

*Theological Reflection across Religious Traditions* Edward Foley, 2015-02-12 Theological reflection connecting real life ministry and religious traditions is a core component of most pastoral training It is also a hallmark of practical theology and a common spiritual exercise among ordinary Christians trying to discern how their beliefs might influence daily living Yet our society is increasingly pluralistic with growing numbers of people from varying belief systems from Islam to Buddhism as well as an increasing number of atheists In this book Edward Foley reimagines theological reflection in interfaith contexts and with those of no faith tradition The book addresses and celebrates diverse beliefs and envisions the practice of theological reflection in such contexts Theological Reflection Across Religious Traditions introduces readers to the basics of traditional forms of theological reflection then considers how it might be reconceived in different contexts from interfaith ministers working together to reduce poverty and homelessness to people of diverse or no faith traditions strategizing to secure the dignity of

undocumented immigrants Beyond suggestions for collaborative social action the book offers tools for productive interfaith conversation through a process Foley calls reflective believing This is a groundbreaking rethinking of theological reflection for today s world proposing that people across the religious landscape can participate in reflective believing for personal and communal benefit without sacrificing their own integrity [For Life Abundant](#) Dorothy C. Bass,Craig Dykstra,2008-04-29 Bass and Dykstra have written extensively and collaboratively on Christian Practices arguing that the what Christians have done faithfully over time constitutes a life giving way of life and that this living of Christianity is more primary to what it means to be Christian than doctrinal confession that our confessions spring from faithful living rather than the other way around This book contains numerous essays that take up the question of Christian Practices and ministry the preparation of ministers theological education etc in a post Enlightenment understanding of the relationship of practice and head knowledge Because the book is the result of a community conversation it doesn t have a clear thesis but it models its conviction that reflection on theology arises from community conversation around our life in discipleship together An extremely helpful beginning to a conversation about ministry practices of faith clergy preparation etc as the time has come to integrate the kind of learning that comes in the classroom with the kind that only comes from living the faith with others Amazon com [Encyclopedia of Christian Education](#) George Thomas Kurian,Mark A.
