Sharing Responsibility:

Sharing Responsibility Larry May, 1996-06 Are individuals responsible for the consequences of actions taken by their community What about their community's inaction or its attitudes In this innovative book Larry May departs from the traditional Western view that moral responsibility is limited to the consequences of overt individual action Drawing on the insights of Arendt Jaspers and Sartre he argues that even when individuals are not direct participants they share responsibility for various harms perpetrated by their communities

Sharing Responsibility Luke Glanville, 2021-05-18 A look at the duty of nations to protect human rights beyond borders why it has failed in practice and what can be done about it The idea that states share a responsibility to shield people everywhere from atrocities is presently under threat Despite some early twenty first century successes including the 2005 United Nations endorsement of the Responsibility to Protect the project has been placed into jeopardy due to catastrophes in such places as Syria Myanmar and Yemen resurgent nationalism and growing global antagonism In *Sharing Responsibility* Luke Glanville seeks to diagnose the current crisis in international protection by exploring its long and troubled history With attention to ethics law and politics he measures what possibilities remain for protecting people wherever they reside from atrocities despite formidable challenges in the international arena With a focus on Western natural law and the European society of states Glanville shows that the history of the shared responsibility to protect is marked by courageous efforts as well as troubling ties to Western imperialism evasion and abuse The project of safeguarding vulnerable populations can undoubtedly devolve into blame shifting and hypocrisy but can also spark effective burden sharing among nations Glanville considers how states should support this responsibility whether it can be coherently codified in law the extent to which states have embraced their responsibilities and what might lead them to do so more reliably in the future *Sharing Responsibility* wrestles with how countries should care for imperiled people and how the ideal of the responsibility to protect might inspire just behavior in an imperfect and troubled world

Responsibility Sharing in International Refugee Law Elizabeth Mavropoulou, 2025-09-25 Achieving a more fair and equitable sharing of refugee protection responsibilities between states has been a perennial challenge of the global refugee regime The Refugee Convention did not codify a legal obligation of responsibility sharing and as a result any assistance to refugee host states remains voluntary This responsibility sharing gap has in turn negatively impacted on the quality of refugee protection and on interstate relations by exacerbating existing inequalities undermining the fairness of the international refugee law regime This book offers a pragmatic yet principled solution to the responsibility sharing gap It puts down a detailed proposal for the long resisted UN Protocol on Responsibility Sharing which would codify a light package of responsibility sharing obligations by requiring states to contribute to refugee protection and solutions under a framework of common but differentiated responsibilities based on capabilities Building on the Global Compact on Refugees and drawing inspiration from international climate change law the book makes a compelling case for further multilateral law making

information sharing responsibilities, challenges, and key management issues , Sharing the Costs and Benefits of Energy and Resource Activity Lila Barrera-Hernández, Barry Barton, Lee Godden, Alastair Lucas, Anita Rønne, 2016-03-31 A new phase is emerging in the relationship between energy and resource activities and the communities that are affected by them Any energy or resource project a mine a wind farm a dam for hydroelectricity or a shale gas development will involve a mix of impacts and benefits for communities For many years the law has mediated impacts on communities and provided for the distribution of financial benefits Now there is growing awareness of the need to consider not only a wider range of costs and benefits for communities from energy and resource projects but also the effects on communities at multiple scales and in complex ways Sharing the costs and benefits of natural resource activity has now become a legal requirement for energy and resource projects operating in many jurisdictions particularly in developing countries This book uses cases studies from across the globe to examine the emergence of such legal measures their advantages and disadvantages and the improvements that may be feasible in the legal frameworks used to distribute the costs and benefits of energy and resources activity The book has three parts Part I considers general legal and conceptual frameworks Part II addresses the mechanisms available to distribute costs and benefits and Part III considers the role of public engagement and participation in the sharing of the costs and benefits from energy and resource projects *Guidelines for designing data collection and sharing systems for co-managed fisheries. 1. Practical guide* Ashley S. Halls, 2005 *Guidelines for Designing Data Collection and Sharing Systems for Co-managed Fisheries: Practical guide* Ashley S. Halls, Food and Agriculture Organization of the United Nations, 2005-01-01 The increasing shift towards co management has prompted managers to reflect upon their new roles and reconsider information requirements This technical paper in two parts is aimed to meet the growing need among co managers for guidelines to help design and implement appropriate and cost effective data collection programmes or systems Part 1 Practical guide has been written specifically for co managers and facilitators working in the field and offers simple and practical advice on helping stakeholders identify their information needs in relation to their management objectives and responsibilities and developing collaborative ways of collecting and sharing the information in the most effective way Part 2 is ISBN 92 5 105410 X *Human Rights and the Dark Side of Globalisation* Thomas Gammeltoft-Hansen, Jens Vedsted-Hansen, 2016-12-08 This book examines the continued viability of international human rights law in the context of extraterritorialisation outsourcing and privatisation of law enforcement tasks New forms of state cooperation raise difficult questions about divided shared and joint responsibility under international human rights law This book brings together some of the most authoritative legal voices to provide an introduction to core issues such as state responsibility attribution and extraterritorial jurisdiction as well as up to date case studies of different transnational law enforcement issues It will interest students scholars and practitioners of IR human rights and public international law *Reconceiving International Refugee Law* James C. Hathaway, 2023-07-24 Violence and other human rights abuses continue to force desperate people to migrate

in search of protection Yet because the political and economic reasons that induced an historical openness to the arrival of refugees have largely withered away there is no longer a guarantee that any state will be prepared to receive these involuntary migrants Governments of both North and South are withdrawing from the international legal duty to provide potentially indefinite protection to any and all refugees who arrive at their borders The challenge is to reconceive refugee protection in a way that is reconcilable with the legitimate concerns of modern states yet which does not sacrifice the critical right of at risk people to seek asylum The essays in *Reconceiving International Refugee Law* offer a response to the concerns of many states that refugee protection has become no more than a back door route to permanent immigration and that its costs are not fairly apportioned among states Drawing on the research of leading migration scholars from around the world and vetted through dialogue with senior officials and non governmental experts this volume explores the potential for a shift to a robust and empowering system of temporary asylum supported by a pragmatic system of guarantees to share both the costs and human responsibilities of refugee protection
