Best Plays of the Early American Theatre, 1787-1911 John Gassner, 2000-01-01 Sixteen works from American theater 1787 1911 *Charles the Second* 1824 *Fashion* 1845 *Uncle Tom's Cabin* 1852 *The Count of Monte Cristo* 1883 *The Mouse Trap* 1889 *The Great Divide* 1906 more Background essay **Historical Dictionary of British Theatre** Darryll

Grantley, 2013-10-10 British theatre has a greater tradition than any other having started all the way back in 1311 and still going strong today But that is too much for one book to cover so this volume deals with early theatre and has a cut off date in 1899 Still this is almost six centuries centuries during which British theatre not only developed but produced some of the greatest playwrights of all time and anywhere including obviously Shakespeare but also Marlowe and Shaw And they wrote some of the finest plays ever which are known around the world So there is plenty for this book to cover just with the playwrights plays and actors but it also has information on stagecraft and theatres as well as the historical and political background This book has over 1 183 entries in the dictionary section these being mainly on playwrights and plays but others as well including managers and critics and also on specific theatres legislative acts and some technical jargon Then there are entries on the different genres from comedy to tragedy and everything in between Inevitably the chronology is quite long as it has a long period to cover and the introduction provides the necessary overview The *Historical Dictionary of Early British Theatre* concludes with a pretty massive bibliography That will be of use to particularly assiduous researchers but this book itself is a good place to start any research since it covers periods that are far less well known and documented and ordinary theatre goers will also find useful information **Encyclopedia of African American Actresses in Film and Television**

Dramatists and their Manuscripts in the Age of Shakespeare, Jonson, Middleton and Heywood Grace Ioppolo, 2013-04-15 This book presents new evidence about the ways in which English Renaissance dramatists such as William Shakespeare Ben Jonson Thomas Heywood John Fletcher and Thomas Middleton composed their plays and the degree to which they participated in the dissemination of their texts to theatrical audiences Grace Ioppolo argues that the path of the transmission of the text was not linear from author to censor to playhouse to audience as has been universally argued by scholars but circular Extant dramatic manuscripts theatre records and accounts as well as authorial contracts memoirs receipts and other archival evidence are used to prove that the text returned to the author at various stages including during rehearsal and after performance This monograph provides much new information and case studies and is a fascinating contribution to the fields of Shakespeare studies English Renaissance
