Handbook of Research in Arts Education Liora Bresler, 2007-01-26 Providing a distillation of knowledge in the various disciplines of arts education dance drama music literature and poetry and visual arts this essential handbook synthesizes existing research literature reflects on the past and contributes to shaping the future of the respective and integrated disciplines of arts education While research can at times seem distant from practice the Handbook aims to maintain connection with the live practice of art and of education capturing the vibrancy and best thinking in the field of theory and practice The Handbook is organized into 13 sections each focusing on a major area or issue in arts education research

The SAGE Handbook of Social Research Methods Pertti Alasuutari, Leonard Bickman, Julia Brannen, 2008-02-25 The SAGE Handbook of Social Research Methods is a must for every social science researcher It charts the new and evolving terrain of social research methodology covering qualitative quantitative and mixed methods in one volume The Handbook includes chapters on each phase of the research process research design methods of data collection and the processes of analyzing and interpreting data The volume maintains that there is much more to research than learning skills and techniques methodology involves the fit between theory research questions research design and analysis The book also includes several chapters that describe historical and current directions in social research debating crucial subjects such as qualitative versus quantitative paradigms how to judge the credibility of types of research and the increasingly topical issue of research ethics The Handbook serves as an invaluable resource for approaching research with an open mind This volume maps the field of social research methods using an approach that will prove valuable for both students and researchers

Children in Immigrant Families Becoming Literate Catherine Compton-Lilly, Stephanie Shedrow, Dana Hagerman, Laura Hamman-Ortiz, Yao-Kai Chi, Jieun Kim, Sun Young Lee, Kristin Papoi, Erin Quast, Brooke Ward Taira, Bingjie Zheng, 2022-05-05 This original book offers a meaningful window into the lived experiences of children from immigrant families providing a holistic profound portrait of their literacy practices as situated within social cultural and political frames Drawing on reports from five years of an ongoing longitudinal research project involving students from immigrant families across their elementary school years each chapter explores a unique set of questions about the students experiences and offers a rich data set of observations interviews and student created artifacts Authors apply different sociocultural sociomaterial and sociopolitical frameworks to better understand the dimensions of the children s experiences The multitude of approaches applied demonstrates how viewing the same data through distinct lenses is a powerful way to uncover the differences and comparative uses of these theories Through such varied lenses it becomes apparent how the complexities of lived experiences inform and improve our understanding of teaching and learning and how our understanding of multifaceted literacy practices affects students social worlds and identities Children in Immigrant Families Becoming Literate is a much needed resource for scholars professors researchers and graduate students in language and literacy education English education and teacher education

Applied Theatre: Research Peter O'Connor, Michael Anderson, 2015-02-26 Applied

Theatre Research is the first book to consolidate thinking about applied theatre as research through a thorough investigation of ATAR as a research methodology. It will be an indispensable resource for teachers and researchers in the area. The first section of the book details the history of the relationship between applied theatre and research especially in the area of evaluation and impact assessment and offering an examination of the literature surrounding applied theatre and research. The book then explores how applied theatre as research ATAR works as a democratic and pro social adjunct to community based research and explains its complex relationship to arts informed inquiry Indigenous research methods and other research epistemologies. The book provides a rationale for this approach focusing on its capacity for reciprocity within communities. The second part of the book provides a series of international case studies of effective practice which detail some of the key approaches in the method and based on work conducted in Australia New Zealand Singapore and the South Pacific. The case studies provide a range of cultural contexts for the playing out of various forms of ATAR and a concluding chapter considers the tensions and the possibilities inherent in ATAR. This is a groundbreaking book for all researchers who are working with communities who require a method that moves beyond current research practice. **Thinking**

Qualitatively Johnny Saldana, 2014-09-03. Written in Johnny Salda's elegant and accessible style. **Thinking Qualitatively** Methods of Mind boldly pursues the challenge of teaching students not just how to collect and analyze data but how to actively think about them. Each chapter presents one method of mind thinking analytically realistically symbolically ethically multidisciplinary artistically summarily interpretively and narratively together with applications a vignette or story related to the thinking modality points to remember and exercises. Designed to help researchers rise above the data the book explores how qualitative research designs data collection data analyses and write ups can be enriched through over 60 different lenses filters and angles on social life. Venturing into more evocative and multidimensional ways to examine the complex patterns of daily living the book reveals how the researcher's mind thinks heuristically to transcend the descriptive and develop high deep insights about the human condition. This is a book for all qualitative methodologists. Not just a how to manual but an epistemological exercise in understanding qualitative methods. Cassie F Quigley, Clemson University. This book fills an important void in the field. The market is crowded with books on techniques and strategies for conducting qualitative research. Salda's volume provides a vital complement by encouraging students to develop the core analytical skills and interpretive frames they need to be truly successful in their research endeavors. He helps students flex and hone the epistemological muscles that are at the center of capable qualitative research. John P Bartkowski, University of Texas at San Antonio. The focus of the book is clear and consistent. The writing is superb. It deals with sophisticated ideas in a clear and highly communicative style. It weaves important and relevant scholarship in ways that help the reader grasp the key ideas. It's one of the best books I have read. Liora Bresler, University of Illinois at Urbana Champaign. **Thinking Qualitatively** invites students to think before they act and offers a rich set of options for qualitative researchers to consider. Michael Brown.

University of Wyoming This book brings together key ways of thinking about our work as qualitative researchers In many ways it captures the breadth and depth of our work while calling for us to be ever reflexive about our practices I see this book as positively informing the work of novice and experienced researchers It is a much needed addition to the qualitative research community Jessica Nina Lester Indiana University Research Methods in Human Rights Bård A. Andreassen, Claire Methven O'Brien, Hans-Otto Sano, 2024-05-02 In this thoroughly revised second edition editors Bård A. Andreassen, Claire Methven O'Brien and Hans Otto Sano advance contemporary discussions on human rights methodology bringing together an array of leading scholars to offer instruction and guidance on the methodological approaches to human rights research The Bloomsbury Handbook of Early Childhood Transitions Research Aline-Wendy Dunlop, Sally Peters, Sharon Lynn Kagan, 2024-09-19 Research into early childhood transitions has become a field in its own right It is increasingly understood that a positive start in any new setting can influence the child's engagement sense of belonging well being progression in learning and agency and may be dependent on the insight of educators and families and yet there is no research methodology or research methods book dedicated to this growing field of study Including 27 chapters written by researchers from the UK New Zealand the USA Sweden Iceland Australia and Canada this handbook presents an overview of the field exploring its current debates reflects on its history and offers suggestions for the future of the field This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood **Participatory Action Research in Health Care** Tina Koch, Debbie Kralik, 2009-02-18 Participatory Action Research in Healthcare provides a guide to participatory action research in the community health setting It draws upon the authors' experiences working researching and engaging with people utilising collaborative participatory approaches The authors position participatory action research as a vital dynamic and relevant approach that can be engaged by practitioners and health service providers It is argued that participating with people is the way to move forward towards sustainable services that evoke human flourishing Participatory Action Research in Healthcare explores the key issues surrounding participatory action research and examines the benefits of this approach for community development and health promotion It includes detailed guidelines on data generation and analysis *First-Time Parenting Journeys* Damien W. Riggs, Clare Bartholomaeus, 2023-03-09 Presents stories of Australian heterosexual couples to explore social norms about reproduction in the transition to first time parenthood
