Trish Adams never imagined her new job at Audlin Motors would alter her life trajectory so profoundly. It was there she met fellow design engineer Solomon Voss. He quite incidentally invents a technology that could potentially change the course of human history. An invention that gets the unwanted attention of corporations that stand to lose billions if Solomon's invention were to be revealed to the world. The unscrupulous oil giant Glaxon is the first of the corporations to put measures in place to steal Solomon's technology. To hide it away in a secret underground warehouse where it will only gather dust, never to see the light of day. But is that enough? Trish teams up with Roberta Voss, Solomon's sister, as they are embroiled in a high stakes game of cat and mouse as attempts are made to erase the invention and eventually the inventor from existence.
