W. Oliphant,Mrs. Oliphant,2015-07-11 Excerpt from The Makers of Venice Doges Conquerors Painters and Men of Letters Venice has long borne in the imagination of the world a distinctive position something of the character of a great enchantress a magician of the seas Her growth between the water and the sky her great palaces solid and splendid built so to speak on nothing the wonderful glory of light and reflection about her the glimmer of incessant brightness and movement the absence of all those harsh artificial sounds which vex the air in other towns but which in her are replaced by harmonies of human voices and by the liquid tinkle of the waves all these unusual characteristics combine to make of her a wonder and a prodigy While there are scarcely any who are unmoved by her special charm there are some who are entirely subdued by it to whom the sight of her is a continual enchantment and who never get beyond the sense of something miraculous the rapture of the first vision About the Publisher Forgotten Books publishes
