Managing Existence In Naples Morality Action And Structure:

Managing Existence in Naples Italo Pardo, 1996-09-19 Neapolitan scholar Italo Pardo has produced a thoughtful and original account of the moral life of Naples where the ethics of family and neighborhood exist in tension with the constraints of church and government Dr Pardo shows how different ethical systems are accommodated in the choices of everyday life while success is measured by satisfying spiritual obligations as well as by material gain This is one of the very few ethnographic studies of a European city it questions old assumptions and raises fresh issues in the field of urban studies

Post-socialist Informalities Abel Polese, Lela Rekhviashvili, Borbála Kovács, Jeremy Morris, 2018-10-19 This book is a comprehensive collection of key scholarship on informality from the whole post socialist region From Bosnia to Central Asia passing through Russia and Azerbaijan the contributions to this volume illustrate the multi faceted and complex nature of informality while demonstrating the growing scholarly and policy debates that have developed around the understanding of informality In contrast to approaches which tend to classify informality as bad or transitional meaning that modernity will make it disappear this edited volume concentrates on dynamics and mechanisms to understand and explain informality while also debating its relationship with the market and society The authors seek to explain informality beyond a mere monetaristic economic approach rediscovering its interconnection with social phenomena to propose a more holistic interpretation of the meaning of informality and its influence in various spheres of life They do this by exploring the evolving role of informal practices in the post socialist region and by focusing on informality as a social organisation determinant but also looking at the way it reshapes emergent social resistance against symbolic and real political order s This book was originally published as two special issues of *Caucasus Survey* and the *Journal of Contemporary Central and Eastern Europe*

Anthropology in the City Italo Pardo, Giuliana B. Prato,2016-05-23 With half of humanity already living in towns and cities and that proportion expected to increase in the coming decades society both Western and non Western is fast becoming urban and even mega urban As such research in urban settings is evidently timely and of great importance Anthropology in the City brings together a leading team of anthropologists to address the complex methodological and theoretical challenges posed by field research in urban settings clearly identifying the significance of the anthropological paradigm in urban research and its centrality both to mainstream academic debates and to society more broadly With essays from experts on wide ranging ethnographic research from fields as diverse as China Europe India Latin and North America and South East Asia this book demonstrates the contribution that empirically based anthropological analysis can make to our understanding of our increasingly urban world

insecurity and precariousness in a context of high unemployment and welfare state crisis in modern Greece A theoretically informed anthropological exploration of the notion of work in contemporary western society and its relation to processes of political decision making this book challenges the mainstream conception of work as an economic or purely productive activity presenting a comparative analysis of work as a social phenomenon Drawing on original empirical research it explores the key themes of the transformation experience meaning and narrative of work and its relation to attendant social policies A unique examination of the complicated experience of work and labour relations within power systems institutions and organisations as well as the reactions and survival strategies of ordinary actors facing precariousness in their daily existence The Liminal Worker elaborates upon the notion of the anthropology of work and investigates the connection between ethnographic data and its critical analysis and the formation of policy As such it will be of interest to anthropologists sociologists policy makers and geographers concerned with questions of work labour relations and policy formation

Citizenship and the Legitimacy of Governance Italo Pardo, Giuliana B. Prato, 2016-05-23 Against the background of unease at the increasingly loose and conflictual relationship between citizenship and governance this book brings together rich ethnographic studies from EU member states and post Communist and Middle Eastern countries in the Mediterranean Region to illustrate the crisis of legitimacy inherent in the weakening link between political responsibility and trust in the exercise of power With close attention to the impact of the ambiguities and distortions of governance at the local level and their broader implications at the international level where a state's legitimacy depends on its democratic credentials *Citizenship and the Legitimacy of Governance* initiates a comparative discussion of the relationship between established moralities politics law and civil society in a highly diversified region with a strong history of cultural exchange Demonstrating that a comparative anthropological analysis has much to offer to our understanding this volume reveals that the city is a crucial arena for the renegotiation of citizenship democracy and belonging *New Anthropologies of Italy* Paolo

Heywood, 2024-07-01 Anthropologists working in Italy are at the forefront of scholarship on several topics including migration far right populism organised crime and heritage This book heralds an exciting new frontier by bringing together some of the leading ethnographers of Italy and placing together their contributions into the broader realm of anthropological history culture and new perspectives in Europe **International Migrations and Local Governance** Thomas

Anthropology of Transformation Juraj Buzalka, Agnieszka Pasieka, 2022-10-31 This collection of essays is the result of the joint efforts of colleagues and students of the leading social anthropology and post socialism theorist Professor Chris Hann With the thirtieth anniversary of the collapse of the Berlin Wall in 2019 as their catalyst the authors reflect upon Chris Hann's lifelong fieldwork in the discipline spanning regions as diverse as East Central Europe Turkey and the Chinese north west The collapse of the Berlin Wall naturally triggered a plethora of analysis and scholarly research Sociocultural anthropology with its focus on ethnographic study and on the gradual evolution of social relations sharply contrasted with the emphasis on dramatic rupture brought about by the 1989 transition Continuing in this tradition this volume through micro level analysis of societal transformation from the post war years to the present day provides an alternative perspective to the neoliberalist views often encountered in the scholarship on political and economic modernisation The more nuanced analysis of social transformations proposed here is a particularly useful tool in the investigation of contemporary issues such as the COVID 19 pandemic the refugee crisis and the rise of right wing populism in Eastern Europe and elsewhere *Anthropology of*

Transformation will be of interest to researchers in the fields of socio cultural anthropology religion and economics Moreover the book s discussion of issues widely discussed beyond the field of academia such as neoliberalism and the welfare state and populist and exclusionary politics will appeal to non specialist readers *Ambivalent Europeans* Jon P. The Servant Class City David J. Karjanen,2016-07-15 San Diego California is frequently viewed as a model for American urban revitalization It looks like a success story with blight and poverty replaced by high rises and jobs But David J Karjanen shows that the much touted job opportunities for poor people have been concentrated in low paying service work as the cost of living in San Diego has soared The Servant Class City documents how over a period of three decades San Diego s urban transformation actually eroded the economic standing of the city s working poor Karjanen demonstrates that urban policy in San Diego which has been devoted to increasing tourism has fostered the creation of jobs that do not actually provide either livable wages or paths to upward mobility Marshaling a wealth of heretofore uncollected data he challenges the presumption that decades long

stagnation of job mobility in the united states is a result of insufficient worker training or a skills mismatch or is attributable to various personal qualities of the urban poor Karjanen interweaves profiles of people with a compelling presentation of data Each chapter addresses a significant topic hospitality industry jobs retail work informal employment fringe banking and economic barriers to mobility In revealing the true story of the poverty traps that are associated with low wage jobs in the service economy The Servant Class City complicates the rosy picture of life in an American tourist boomtown

Prato, 2025-02-07 This edited volume uses ethnographic cases to examine social political and economic inequality in diverse urban settings This book is couched in the idea that ethnographically based analysis helps to bring out the nature and interconnections between different forms of inequality and sheds light on the major forces that combine to create inequalities Ethnography also helps to identify the dynamics that undergird the principle of freedom of thought and of action a key principle that is of associated life in a democracy and recognize empirically that these dynamics not only protect difference but increase it for they underpin the freedom of the individual to use their talents to manage their lives and achieve their goals This first volume in a two part series focuses on legitimacy governance labour and urban change and stereotypes and individual choice This book will be of interest to scholars and students in sociocultural anthropology sociology politics socio legal studies urban change and education

Sheltering Women Sonja Plesset, 2006-10-11 Residents of Parma Italy pride themselves on their sophistication and connection to European modernity But despite a reputation for civility intimate partner violence continues to take place largely hidden from public view Offering a detailed ethnography of two women s shelters one leftist the other Catholic this book provides the political cultural and legal contexts of competing explanations for intimate partner violence Some contend that violence against women reflects the cultural and historical gender inequalities embedded in Italian society including old fashioned or traditional understandings of masculinity Others argue that it stems from confusion and ambivalence over new or modern forms of gender relations While the first explanation places the blame on tradition and the second cites the transition to modernity both emphasize societal understandings of gender and point to collective rather than individual responsibility Through an intimate portrayal of everyday life Sheltering Women reveals how violence against women can be studied as one part of a continuum of locally relevant understandings of gender relations and gender change
