The Essentials of Machine Learning in Finance and

Accounting Mohammad Zoynul Abedin, M. Kabir Hassan, Petr Hajek, Mohammed Mohi Uddin, 2021-06-20 This book introduces machine learning in finance and illustrates how we can use computational tools in numerical finance in real world context. These computational techniques are particularly useful in financial risk management, corporate bankruptcy prediction, stock price prediction and portfolio management. The book also offers practical and managerial implications of financial and managerial decision support systems and how these systems capture vast amount of financial data. Business risk and uncertainty are two of the toughest challenges in the financial industry. This book will be a useful guide to the use of machine learning in forecasting, modeling, trading, risk management, economics, credit risk and portfolio management. *Data Management, Analytics and Innovation* Valentina Emilia Balas, Neha Sharma, Amlan Chakrabarti, 2018-09-07 The volume on Data Management, Analytics and Innovations presents the latest high quality technical contributions and research results in the areas of data management and smart computing, big data management, artificial intelligence and data analytics along with advances in network technologies. It deals with the state of the art topics and provides challenges and solutions for future development. Original unpublished research work highlighting specific research domains from all viewpoints are contributed from scientists throughout the globe. This volume is mainly designed for professional audience composed of researchers and practitioners in academia and industry. **Innovation Strategy for the Knowledge Economy** Debra M Amidon, 2009-11-03 Innovation Strategy for the Knowledge Economy is intended for managers who have practiced the best of quality and re-engineering management techniques and are ready to transform their organizations with the systematic notions of knowledge creation and application. It is for organization leaders who prefer to be inspired with innovation strategy than hit over the head with change management techniques. It does not deal with barriers, hurdles or conflicts to be resolved; rather, it paints a possible vision of how we can take advantage of our collective learning to move an enterprise forward. This book provides the reader with a sound practical framework for instituting innovation strategy beyond the traditional definition of flow of parts or finances. At the core is an understanding of the dual value of knowledge content and innovation process using real time learning as the methodology. Innovation Strategy for the Knowledge Economy introduces new managerial concepts such as Value System versus Value Chain, Strategic Business Network (SBN) versus Strategic Business Unit (SBU), Customer Success versus Customer Satisfaction. It is an invaluable resource for both managers and organization leaders. Debra Mae Amidon is Founder and Chief Strategist of Entovation International, a global innovation research and consulting network with outposts throughout the world. Her specialties include knowledge management, learning networks, customer innovation and enterprise transformation. Ms Amidon holds degrees from Boston University, Columbia and MIT where she was an Alfred P Sloan Fellow.
