Managing Local Government For Improved Performance:

Managing Local Government For Improved Performance Brian W. Rapp, 2019-03-04 After working for nearly three years to improve the performance of the government of Flint Michigan and discovering that there was no comprehensive work on the subject of local government management to refer to Brian Rapp and Frank M Patitucci felt a personal as well as a professional need to write a book that would help them understand their successes and failures and that would help others do a better job in similar situations The result this book is unique both in its approach and in its presentation The authors establishing a conceptual framework within which to understand their subject use Flint as a case city to examine the practical impact of factors affecting city government and they indicate the major standards and criteria that should be applied in evaluating that impact Although they recognize that within each city there are unique conditions that make a blanket prescription impossible the authors are nevertheless convinced that many individuals both in and out of government can do something to improve the performance of their city government and they have set out to help these individuals understand in the most concrete terms possible how they might go about it Managing Local Government for Improved Performance Brian W. Rapp, 1977 *Managing Local Government* Kimberly L. Nelson, Carl W. Stenberg, 2017-08-04 *Managing Local Government An Essential Guide for Municipal and County Managers* offers a practical introduction to the changing structure forms and functions of local governments Taking a metropolitan management perspective authors Kimberly Nelson and Carl W Stenberg explain U S local government within historical context and provide strategies for effective local government management and problem solving Real life scenarios and contemporary issues illustrate the organization and networks of local governments the roles responsibilities and relationships of city and county managers and the dynamics of the intergovernmental system Case studies and discussion questions in each chapter encourage critical analysis of the challenges of collaborative governance Unlike other books on the market this text s combined approach of theory and practice encourages students to enter municipal and county management careers and equips them with tools to be successful from day one **Managing Local Government Services** Carl W. Stenberg, Susan Lipman Austin, 2007 *Managing Local Government Services* 3rd ed is a comprehensive text on the subject of local government services relevant to local governments of all sizes This edition is refocused and updated to include the demographic economic technology and cultural trends that affect the management of service delivery New chapters discuss the shift from government to governance alternative methods of service delivery community development and the five management practices that are fast becoming the standard for professional local government management Each chapter lays out the manager s responsibilities in each service area and provides effective policies practices and procedures Short case examples give you a practical look at the goals challenges and solutions in the manager s world *Applying the Best to Government!* President's Council on Management Improvement (U.S.), 1987 Comparing Devolved Governance D. Birrell, 2012-03-29 Examines recent evidence

Boyne,2013-10-14 The Labour Government has introduced legislation to place a new duty of Best Value on local authorities and abolish compulsory competitive tendering This work identifies the differences between the two systems and evaluates the development of the new regime using case studies **Follow the Money** Duncan Campbell-Smith,2008-03-27 Most books on politics and government take a view from the top down They focus on the individuals and institutions that set policies in place and make the laws But how are these policies and laws translated into action on the ground where their success or failure helps determine the day to day running of schools and hospitals police forces and councils This is the much less familiar territory explored by Follow The Money It tells the story of the men and women responsible for keeping track of the money spent locally on public services since the early 1980s What emerges is a rare behind the scenes account of the political world in which central government edicts come up against the reality of how things are made to happen at the grass roots Follow The Money shows how the Commission has helped over 25 years to transform the management of public services including the NHS while mediating in an often tense relationship between central and local government from the Thatcher era to the years of New Labour The result encompassing a string of scandals and battles between town hall and Whitehall is a compelling narrative for which an accounting qualification is most certainly not required **Fostering**
