

## Managing Staff Development in Schools: An Action Research Approach

Edited by Pamela Lomas

It is not surprising that many teachers have adopted educational research and theory as a basis for making decisions about their practices in schools or that policy makers at all levels appear to attach it. One view of this situation can be illustrated by the growing reliance on a so-called 'evidence-based' approach to school effectiveness. Examining the literature to determine instructional practices and classroom environments that appear to be effective is a method of educational 'performance' which has attracted much professional attention. However, this approach has been criticised for being too narrow and for ignoring the complexity of school life. It is argued that educational research is too often too narrow and too often too abstract to be of use in schools. It is argued that educational research is too often too narrow and too often too abstract to be of use in schools. Doing

Qualitative Educational Research Geoffrey Walford, 2001-05-21 Geoffrey Walford a renowned and experienced researcher reflects upon the trials and tribulations and the problems and promises of conducting research and also on the links between the idiosyncrasies and circumstances of researchers and what is possible in research Research is revealed as a much more complicated process than is usually recognized sometimes messy and disorganized sometimes constrained in unexpected ways but always challenging to both researcher and reader

Writing Up Your Action Research Project Jean McNiff, 2015-12-22 Many practice based researchers have expert knowledge of doing research but often experience difficulties when writing it up and communicating the significance of what they have done This book aims to help bridge the gap Packed with practical advice and strong theoretical resources it takes you through the basics of designing and producing your text so that it will meet established standards and high quality assurance expectations Divided into 3 distinctive parts key points include understanding writing practices engaging with the literatures how to write up a project report or dissertation how writing is judged in terms of professional and academic writing practices developing ideas for further study and publication Writing up Your Action Research Project is an essential text for practitioners on professional education and undergraduate courses across disciplines who want their writing to reflect the excellence of their research It is the ideal companion to the author's You and Your Action Research Project now in its fourth edition

**Quality Management in Education** Pamela Lomax, 1996 This book describes the work of a number of professionals who have used action research to improve the quality of their organization and their classrooms Underpinning all the accounts is the idea that shared values and a shared vision are central to improvement in education The accounts show how the writers use action research methods to question traditionally held assumptions and interpretations about educational management and classroom practice They are then able to put forward new theories and strategies which will help other educators to achieve a higher quality of education The book provides valuable source material for all those involved in professional development research methodology or educational management

**Action Research** S. Michael Putman, Tracy Rock, 2016-12-29 Action Research Using Strategic Inquiry to Improve Teaching and Learning is a core text for the Action Research course in Education The proposed text seeks to address the needs of practitioners as it will be primarily written for use within a graduate level action research class It will be oriented towards proactive planning as part of an organized efficient process for developing and conducting an action research study The book will be organized around implementation of the action research process using self regulatory principles which is characterized by four phases task definition goal setting and planning enacting and adapting These four phases will be addressed as the learner considers what action research encompasses and a topic to be studied then proceeds to establish a plan and enact it This overall process is organized as can be seen in the Table of Contents Michael Putnam and Tracy Rock will highlight methods and processes that incorporate formative data that is readily available to teachers facilitating associations between classroom instruction and the action research process The text

will also reinforce how action research can improve the teaching and learning process by reinforcing or changing perceptions about the use of informal data including anecdotal notes or observations in the research process

**Writing and Doing Action Research** Jean McNiff, 2014-11-03 In *Writing and Doing Action Research* Jean McNiff provides a comprehensive and user friendly guide to the practical aspects of writing and doing action research. Written for practitioners involved in higher degree courses and professional development programmes and students undertaking methods courses, this book includes guidance on how to carry out an action research project in your setting, present your findings in a dissertation report or thesis, write up your research with an eye to informing policy, demonstrate the quality of your research and writing, be critical and write theoretically, write for journals and prepare thesis and book proposals. The book contains excerpts taken from action research projects in a range of settings and presents exercises to help you develop successful written accounts of your research. *Writing and Doing Action Research* is an essential text for anyone working with action research, providing vital guidance on the preparation and production of texts, how this type of work is assessed and enabling you to get the best results from your research.

It clarifies what constitutes AL/AR in its many forms and what it is not.

**Managing Professional Development in Education** Derek Glover, Sue Law, 2005-07-08 This work evaluates and attempts to produce a model for effective professional development. It contrasts the work in Britain with that in other countries with case studies and exercises to illustrate points, highlighting good practice.

*Action Research for Change and Development* Ortrun Zuber-Skerritt, 2021-12-24 First published in 1991, *Action Research for Change and Development* presents a collection of papers evolved from an international symposium on Action Research in Higher Education, Government and Industry held in Brisbane in 1989. The book is structured in three parts. Part one consists of reflections on the meaning and theoretical foundation of action research. Part two discusses various aspects of action research methodology, and Part three presents case studies of action research. The aim of the book is to bring together international experts in action research in higher education in order to present and discuss a variety of models of action research which have been developed in parallel in many parts of the world. This book will be an essential read for scholars and researchers of education, higher education, business, industry and community development.

**Managing Professional Development in Schools** Sonia Blandford, 2012-11-12 The importance of professional development for teachers cannot be overstated. In recent years there has been much debate on how to raise standards in schools, and it is now recognised by theorists, policy makers and practitioners that the professional development of teachers is an important factor in this context. For professional development coordinators and senior management, knowledge and understanding of the nature of professional development roles and human resource management theories will provide a framework for practice. This book includes chapters on

managing professional development in a human resources context government policy initial teacher training the school development plan appraisal middle management leadership skills It will be of interest to co ordinators of professional development in schools and across local education authorities and to anyone who is part of a school s senior management team     *Performance Management in Education* Pauline Smith,Christine Forde,2002-06-03 This book provides an overview of some of the key issues in developing professional performance and examines critically some of the key strategies that can be used to enhance professional performance
